

Center for Financial Services Scholarship program

To better prepare finance students at Southern Miss, the Center for Financial Services has created a new curriculum geared toward today's current financial trends and analysis techniques as well as those defined by the Certificate for Financial Planning Services (CFS) Board of Standards. This will allow students to sit for the CFP exam having fulfilled the education requirements through our financial services curriculum. (Financial Planners help people meet their life goals through smart management of financial resources. Financial Planning is one of the fastest growing professions in the country.)

Unlike the traditional degree in Finance, where one area such as banking, investments, insurance or real estate is the major are of emphasis, a designated degree in Financial Services provides students with knowledge in numerous areas. Qualitative courses such as professional selling and estate planning enhance students' ability to communicate on a more personal level.

Through the generous support of its sponsors, the CFS can provide scholarships of \$1350 annually to students committed to a successful career in the Financial Services Industry.

Scholarship Requirements

- Must be a finance major in the College of Business
- Must provide two letters of recommendation from professors
- Must provide a two-page essay describing his/her career goals and explaining why the applicant would be a good choice for the scholarship.
- Must provide official transcript and ACT or SAT scores (Students enrolled in the College of Business for at least two semesters will have these on file and will not have to provide them.)
