Renée Falconer addressed adding CIS 313L to the methods classes so that students will receive more time in the classroom prior to student teaching.

Concerns voiced were that the lab would produce more observation hours rather than actual teaching hours and that it would add an hour to the 124-hour mandated by the IHL board.

Dr. Pierce explained that Education and Psychology College Council has discussed using the 44-hour core as a prerequisite to entering the program and that would solve the 124-hour dilemma. Please send your suggestions or concerns to Dr. Pierce.

The quorum was met and Dr. Pierce asked that we vote on the bylaws issue. Diane Fisher explained the chart order should be:
