

Article Review

Complete APA bibliographic reference:

Dublin, K., & Chester, R. (1972). A validation study of estes attitude scale. *Wisconsin Reading Association*, 3-4.

Three to five descriptor terms that best describe the topic:

Main: Reading, book reading, reading attitudes

Type of Article:

Other: Literature review

Levels:

Lower Elementary (1-3), Upper Elementary (4-5), Middle School (6-8), High School (9-12)

Briefly stated major purpose(s) of the study: This article examines the Estes Attitude Scale which unlike earlier reading scales, was initially developed with a research population extending through the 12th grade (3). The article further explores the validity of this reading scale for secondary education.

Discussion article – summarize the major points in 1- 4 sentences:

The article explains their findings that “Clearly the Estes Scale is a very powerful instrument for the measuring of levels of positive attitudes towards books and reading...it could be useful in future research as a criterion measure o high school students’ attitudes towards books and reading” (4).
