This laboratory will introduce students to the various disciplines of forensic science. The lab exercises will attempt to parallel the lectures in the Introduction to Forensic Science FSC140 lecture. The labs are designed to help students explore their interests in the many different disciplines of forensic science and given students a more well rounded knowledge of the subjects.

A USM email address (or other active email address) is requested for course communications between instructor and students.

Grading: Points will be awarded throughout the semester in the following manner:

- Laboratory Attendance/Participation (10 Labs @ 2 pts each = 20pts)
- Laboratory Notebook (10 Labs @ 10 pts each = 100 pts)
(Submit for grading at Final Exam)
- Papers (2 Papers @ 40 pts each = 80 pts)
- Quizzes (10 Labs @ 10 pts each = 100 pts)
- Midterm Exam (50 pts)
- Final Exam (50 pts)

The total amount of possible points is 400.

Grading Scale:

A = 89.5-100%	(358-400 pts)
B = 79.5-89.4%	(318-357 pts)
C = 69.5-79.4%	(278-317 pts)
D = 59.5-69.4%	(238-277 pts)
F = Below 59.5%	(below 277 pts)

Attendance Policy: Laboratory attendance is mandatory. NO MAKE-UP LABS WILL BE GIVEN UNDER ANY CIRCUMSTANCES. If the student knows that he/she will miss a laboratory, it is

his/her responsibility to make the necessary arrangements with the instructor to meet with another laboratory **that week**.

Lab Times: Mondays- 10 a.m. to 11:50 a.m.
Wednesdays- 12 p.m. to 1:50 p.m.
Thursdays- 6:30 p.m. to 9:15 p.m.

Because ample opportunity is given to the students to make up labs, only one unexcused absence will be allowed. When a student misses two labs unexcused then he/she will be dropped one letter grade. If three classes are missed by a student then he/she will automatically be given a grade of an (F) for the semester.

All students must have the material necessary for the lab. This includes closed toe shoes, a lab coat and safety goggles/glasses. If the student does not have the necessary materials for that lab, he/she cannot attend the lab and will receive a "0" for the lab. Because of time and laboratory safety, tardiness will not be tolerated. If the student arrives to the lab after the quiz has been given, that student will not be allowed to participate in the lab and will receive a "0" for the lab.

Lab Notebooks: A laboratory notebook will be maintained by the student detailing each laboratory experiment covered throughout the semester. The contents of this notebook will be discussed in detail during the first week's laboratory proceedings. Notebooks will be turned in for grading when the final exam is taken. Any questions about the notebook should be directed to the instructor prior to turning it in for grading.

Quizzes: A quiz will be given each week at the beginning of the laboratory period. The quizzes will be based off the material covered in the previous lab.

Writing Assignments: Topics for two papers will be assigned by the instructor as the semester proceeds. A handout detailing the requirements for the papers will be given to each student when the topics have been decided upon.

Schedule: *The Instructor retains the right to alter or change the schedule as needed.*
