

The University of Southern Mississippi Gulf Coast

or Southern Miss Gulf Coast

The name used to reference the Gulf Coast operations in their entirety – one campus plus 5 teaching and/or research sites along the Mississippi Gulf Coast.

Gulf Park Campus, Long Beach

As designated by IHL, the second campus in the university's dual campus system and the central location of the Gulf Coast operations.

Stennis Space Center Teaching and Research Site

Hancock County

Buildings 1020 and 1022 house the Department of Marine Science.

The Center of Higher Learning is located in Building 1103.

Gulf Coast Student Service Center Teaching Site

Gulfport

In 2005, this became the interim site of the Gulf Park campus following Hurricane Katrina. Located in the Healthmark Center, it continues to serve as a site while the Gulf Park Campus is renovated.

Keesler Air Force Base Teaching Site

Biloxi

The office is located in the Sablich Building on Keesler Air Force Base.

Point Cadet Teaching Site

Biloxi

R/V Tommy Munro, a 97-foot research vessel, is a unit of GCRL and docks at Point Cadet.

Gulf Coast Research Laboratory Teaching and Research Site

Ocean Springs -- Cedar Point and Halstead Road

Home of the Department of Coastal Sciences, the Center for Fisheries Research and Development, the Marine Education Center and the Thad Cochran Marine Aquaculture Center
