APPENDIX H
WILD ANIMAL AND/OR FIELD RESEARCH

1. How will the animals be captured?

2. If the animals are to be maintained for any length of time, it is necessary to specify where they will be maintained (field and/or animal facility) and for how long?

3. It is necessary to specify how the housing and nutritional needs of animals that are captured and detained for a research project will be met?

4. What criteria will be used in determining whether the animals can be released after they have been captured (even if the animals are part of a capture and release project, and they will not be maintained for any length of time)?

5. How will pain and/or distress be monitored in these animals?
