

# The University of Southern Mississippi

**FALL 2001 COHORT**

**CHARACTERISTICS OF  
RETENTION**

Memo

Subject: Characteristics of Retention: Fall 2001 Cohort

The following is a breakdown of students at Southern Mississippi for Fall 2001 based on data collected at the end of each fall term. Students that are classified as “Did Not Return, neither were enrolled as of the end of that associated term nor have received a degree from Southern Miss as of the end of that associated term.

Although student change majors and such over the span of this report, for the purpose of this report, the student’s academic level, major, campus, and other demographic information is as of the end of term, Fall 2001. The college/department structure is reflective of the structure as of the beginning of Fall 2004 with the exception of Undergraduate Studies which is calculated separately (out side of Arts and Letters).

Since some students continue to seek other degrees and usually are enrolled in the semester that they graduate from, the combined percentages for any term/row may exceed 100%.
