

Katrina Research Center Requests Copies of Katrina-Related Research

Southern Miss faculty, staff, and students are invited to send a print or electronic copy of their research, scholarly activities, or images related to Hurricane Katrina to the Katrina Research Center, located on the third floor of the USM Gulf Coast Library at Long Beach, Mississippi.

Print copies of Katrina-related materials will be made available at the KRC in a “University of Southern Mississippi Faculty, Staff, and Students: Katrina-Related Scholarship and Activities” section of the Center and electronic copies will be archived in the digital repository, which will be accessible through the KRC Website: <http://www.usm.edu/katrina/>

All are encouraged to post scholarship activities or images that are Katrina-related and to update periodically. This will provide a one-stop location for anyone wanting to know about Southern Miss faculty, staff, and student activities/scholarship in this area—and serve as a good networking site for USM colleagues.

Electronic materials may be sent to the KRC Librarian, Ms. Shugana Campbell at shugana.campbell@usm.edu or to KRC Assistant Director Dr. Teresa Welsh at teresa.welsh@usm.edu. Print materials may be sent via campus mail to Ms. Shugana Campbell, Box: 05128.
