“I may not have gone where I intended to go, but I think I have ended up where I intended to be”- Douglas Adams

Advice from the Upperclassmen

“It’s okay to be unsure about your future. It is a little stressful, but that’s alright. Don’t limit your opportunities. Remember, you’re young, and no matter what you think, you have plenty of time to plan your future. Just don’t procrastinate too much!

And remember, have fun.” Staci Cox, Senior

“Enjoy every waking moment, Make new friends and try new things! Don’t be afraid to be unsure. Take random road trips. Smile, Laugh, Cry, and learn from your mistakes. No one is perfect.” Devita King, Senior

“ Try to stay ahead of everything. Always study two days early and pray when things get hard.” Brieah Hudson, Senior

“Embrace every opportunity. Live up to your potential. You can do anything you can imagine. Celebrate your accomplishments. You can!” Amaziah Coleman, Senior

“Great is the art of beginning, but greater is the art of ending”

Henry Wadsworth Longfellow

Through the Eyes of Freshmen

Several freshman are excited about the next few years but sad to leave the Freshman dorms. **Laurie Benvenuti** says that she loved living in Bolton Hall. Having a sink in the room was great, and Bolton is close to everything. Also, she really loved bonding with the girls on her floor. **Whitney Morris** is looking forward to taking classes that pertain to “her major and her life.” She also loved living in Bolton Hall and suggests Dr. Capper for a religion teacher!

When it comes to college, her fears are gone says **Gail Sims**. She is looking forward to being more involved with Luckyday and SGA. It’s not just the girls who have loved the dorms. **Scott Haney** says living in Hickman Hall has given him a chance to get to know a great group of guys. “Room doors are always open and there is always laughter on the hall,” said Haney.

Melissa Ladner agreed by saying, “Wow, Freshman year has flown by and I’ve loved every minute of it! The girls on my floor in Bolton hall have become like sisters to me, and my fellow members on the Freshman Council keep me in a wonderful mood. I’m excited about my sophomore year but sad to leave Bolton!

Thank you all for your response!

April Fools

Unlike most holidays, there is no clear beginning of April Fool's day. It merely evolved over time. In the 16th century the new year was celebrated for eight days with the culmination being on April 1st.

A new calendar was introduced and the celebration of the new year was moved to January 1st. However, since news traveled by foot, many countries did not receive word of this for several years.

Some still declared April 1st the start of the new year, and were called fools by the general population. This ridicule led to what we now know as April Fool's day.

However, April Fool's day is not the same everywhere. In Scotland, it is a two day celebration in which the second day is known as "Taily Day" and jokes are devoted to the back side of the body. This is where the "Kick me" sign originated. Mexico's counterpart of April Fools is observed on December 28th.
