

Polymer Science Seminar Series 2007 – 2008

- September 12, 2007 Dr. Y.A. Elabd, Assistant Professor of Chemicals and Biological Engineering
Drexel University, Philadelphia PA
"Transport Phenomena in Polymer Electrolyte Membrane Fuel Cells"
- September 26, 2007 Dr. K. Gall, Professor School of Materials Science and Engineering
Georgia Institute of Technology, Atlanta GA
"Shape Memory Polymer Networks for Biomedical Applications"
- October 10, 2007 Dr. R. Bryon Pipes, Distinguished Professor of Engineering
The Bayer Distinguished Lectureship Series
"From Metals to Polymers: The Coming Transitions of the Aerospace Industry"
- October 24, 2007 Dr. D.A. Spivak, Professor Department of Chemistry
Louisiana State University, Baton Rouge LA
"Discovery and Development of OMNiMIPs: One MoNomer Molecularly Imprinted Polymers"
- November 14, 2007 Dr. R. Advincula, Professor Department of Chemistry and Chemical Engineering
University of Houston, Houston TX
"Nanostructured Organic Polymer and Hybrid Materials: From Ultrathin Films to Nanoparticles"
- December 5, 2007 Dr. C. Pugh, Associate Professor of Polymer Science
University of Akron, Akron OH
"Investigating π - π Stacking Interactions Between Aromatic Hydrocarbons and Aromatic Fluorocarbons via Free Radical Copolymerizations"
- February 6, 2008 Dr. Bruce M Novak, Howard J. Schaeffer Distinguished University Professorship
North Carolina State University
"Influencing Materials Properties in Subtle Ways: Chirality, Switches and Machines"
- February 20, 2008 Dr. M. Hillmyer, Elmore H. Associate Professor
University of Minnesota, Minneapolis MN
"Title TBA"
- March 19, 2008 Dr. A.M. Jamieson, Professor Department of Macromolecular Science & Engineering
Case Western Reserve University, Cleveland OH
"Title TBA"

Many thanks to our sponsors who have made our Seminar Series possible!
Southern Society for Coatings Technology
Eastman Chemical Company
