

Thesis/Dissertation/Doctoral Project Document Approval

Handwritten copies will not be accepted. Submit completed form to documentspecialist@usm.edu.

Student Name:

Student ID:

The committee chair and school director/program coordinator certify the completion of the following requirements:

1. Each of the following deadlines was met and all appropriate paperwork properly submitted to the Graduate School.
 - Committee Form
 - Proposal
 - Results of Oral Defense
2. All substantive changes to the document required by the committee were satisfactorily incorporated into the electronic document.
3. The electronic document content was reviewed and is without errors in the use of language (grammar, spelling, and punctuation).
4. All necessary permissions were obtained, and all sources were correctly cited according to the appropriate style guide.
5. The document was submitted through Turnitin or other originality software and is not plagiarized. The results of this analysis reflect an originality score of

If greater than 25%, please include your justification in the comments box below:

6. This document's use of any artificial intelligence ("AI") software, tools, or technologies including, without limitation, natural language processing, deep learning algorithms, machine learning models or other AI processes has been reviewed by the committee. The committee has a reasonable belief that the author has used best practices when employing AI tools and methods, and that any conclusions are fair, secure, private, unbiased, trustworthy, reliable, and the result of independent, original efforts by the author.
7. The document was approved by the program/school and submitted to Aquila for the Documents Specialist review.

The Dean of Graduate School retains final authority with regard to the standards of quality listed above. Failure to meet these standards may result in the return of the document to the student for remedy and potentially cause delay in timely graduation.

We read the electronic document carefully and affirm it conforms to the standards listed above and is acceptable for publication in Aquila.
