Introduction

The following document presents the rules and policies to which MBA students in the College of Business are held at The University of Southern Mississippi. Students are expected to understand and adhere to all of the conditions necessary to complete a graduate degree in business at USM. Therefore, every student must read this document carefully, and request clarification if needed from the MBA Director.

Additional policies are described in detail in the University’s Graduate Bulletin (http://www.usm.edu/registrar/graduate-bulletins). Unless otherwise stated, Graduate School policies supersede those stated in the College of Business MBA Student Handbook.

Contact Information

Graduate students are required to keep current contact information, including mailing address, telephone numbers and USM email address, on file in the College of Business MBA Office. Official university correspondence is delivered to the contact address on file, and is considered delivered once sent. Therefore, it is important to that any changes in residential, telephone, or email contact information be promptly reported to the Graduate Programs Advisor.

Course Registration

Students are required to meet with a Graduate Program Advisor for advisement prior to registration each semester. Out-of-college electives must also be approved by the MBA Director prior to registration. Once advised, students are term-activated and can register for classes themselves using SOAR.

Transfer Credit and Non-Credit Courses

MBA students in the College of Business are limited to twelve (12) hours of combined transferred and non-degree credits. A maximum of six (6) hours are allowed to transfer from another university. Transfer credits must be from a fully-recognized and accredited graduate program, reflect a B or better, cannot be a pass/fail course, and must be deemed applicable to the student’s graduate program. Credits older than five years cannot be accepted, and the course work may not have counted toward another degree program.

“Non-degree” status enables program applicants to take up to twelve (12) hours of graduate-level courses while completing their application package. An application to the Graduate School must be submitted, and application fee paid, each semester that a non-degree course is taken. Non-degree courses may be considered transfer credit.
The Academic Integrity Policy Statement

Upon registration in a course offered by the College of Business, the student automatically becomes subject to the College of Business Academic Integrity Policy. A copy of the Integrity Policy is presented below. College of Business students are also subject to the University’s Academic Integrity Policy:  https://www.usm.edu/institutional-policies/policy-acaf-pro-012.

Academic Integrity Policy
College of Business

I. PREAMBLE

The students, faculty (i.e. any person hired to conduct classroom activities or research at the university), and administrators of the College of Business (CoB) recognize that honesty and integrity are fundamental expectations in the academic and business communities. Accordingly, we hereby establish this Policy to be adhered to by all CoB administrators, faculty, and students.

II. FACULTY AND ADMINISTRATORS’ RESPONSIBILITIES IN SUPPORT OF ACADEMIC INTEGRITY

The faculty and administrators of the CoB share responsibility with our students for implementing the CoB’s Academic Integrity Policy. This includes, but is not necessarily limited to, accepting responsibility for:

A. Informing students that every student enrolled in a CoB course is automatically bound by the college’s Academic Integrity Policy. Additionally, faculty will include the following paragraph in their course syllabi that references the Academic Integrity Policy:

   Because this course is offered in the College of Business, all students enrolled in this course will adhere to the CoB’s Academic Integrity Policy, as stated on this page.

B. Clearly specifying parameters of permissible and impermissible conduct in specific contexts, such as course assignments.

C. Ensuring that examinations are properly proctored.

D. Whenever feasible, updating and modifying examinations and other graded assignments.

E. Responding to violations of this Policy according to the established procedures (see “Procedures for Responding to Violations of Academic Integrity Policy”).

F. Communicating information regarding violations of this Policy and proceedings of the Academic Conduct Committee only to the Chair of the Academic Conduct Committee, the relevant CoB Department Chair, the Associate Dean of the CoB, the Dean of the CoB, the appropriate administrator of student affairs for the CoB, and persons who are present at any proceeding held by the Academic Conduct Committee.

G. Treating all students in a fair, non-arbitrary, and nondiscriminatory manner.
H. Using students’ work for their own purposes only with their knowledge, permission, and proper crediting.

III. STUDENT RESPONSIBILITIES IN SUPPORT OF ACADEMIC INTEGRITY POLICY

Academic dishonesty threatens the entire University community. It undermines the personal and intellectual development of our students. It is unfair to those who do not cheat because it devalues their efforts to learn and the grades they have earned through honest effort. It is unfair to graduates because it degrades the reputation of the CoB and undermines the value of their degrees. It is unfair to faculty because it trivializes their efforts to educate and assess the progress of their students. Finally, it is unfair, as well as harmful, to the student who engages in it because it interferes with his or her moral and intellectual development.

According to this policy, cheating is the unauthorized and inappropriate behavior as defined by the instructor. However, academic dishonesty can take many forms, but not limited to, the following:

A. Preparation of Course Work

1. Plagiarism (copying words, concepts, or ideas from any source and submitting the material as one's own without acknowledging the source by the use of footnotes, quotation marks, or both).
2. Submission of the same or substantially similar assignment to two different faculty members, without permission of both.
3. Unauthorized use of outside sources or another student's material.
4. Citation of sources not actually used in preparation of an assignment.
5. Providing to or receiving from any source assistance inconsistent with the instructor's expressed expectations regarding collaboration.
6. Revealing information to other students regarding pending written or other assignments, unless authorized by the instructor.
7. Falsification of data or results from research or laboratory experiments; deliberate written or oral misrepresentation of results in all matters of research and reporting.
8. Obtaining course assignment answers in a manner or from sources not authorized by the instructor (includes but is not limited to inappropriate use of the Internet).

B. Examination Behavior

1. Unauthorized use of books, notes, papers, calculators, or other materials or devices during exams.
2. Taking an exam for another student, or permitting another student falsely to identify his or herself in taking an exam.
3. Receiving unauthorized help from or giving help to another student during an in-class or take-home exam.
4. Taking longer than the allotted time to complete an exam.
5. Revealing information to another student about an examination which has not been returned to students by the instructor or has not been authorized by the instructor.
6. Obtaining examination answers in a manner or from sources not authorized by the instructor (includes but is not limited to inappropriate use of the Internet).
7. Altering answers on an examination after it is given back by the instructor in an attempt to change one’s grade.

C. Communications
1. Knowingly making a false charge under this Policy.
2. Disclosing information about any charge or proceeding under this Policy to anyone other than the Chair of the Academic Conduct Committee, the relevant CoB Department Chair, the Associate Dean of the CoB, the Dean of the CoB, and the persons who are present at any hearing held pursuant to this Policy.
3. Knowingly giving false information to a member of the faculty to request an alternative date or time for an examination or assignment.
4. Knowingly giving false information to another academic institution or a prospective employer about academic performance.

D. Use of the University Libraries and Library materials
1. Improperly removing materials from a library (e.g., by failing to sign out materials or falsifying an authorizing signature).
2. Intentionally misplacing materials within a library.
3. Marking, cutting, or otherwise defacing library materials.

E. Use of Computer Facilities
1. Unauthorized use of a computer file, program, user name, user ID or user password.
2. Making unauthorized copies of software licensed by the University or acquired for use in a course.
3. Interfering with others' use of computer programs or facilities (i.e., imposition of a "virus," "worm," or other malware or alteration of a class program).

IV. POLICY VIOLATIONS
All members of the CoB community are strongly encouraged to report all suspected violations of this policy. A faculty member who is responsible for a course may respond to a violation within the context of the course in the manner he or she deems appropriate in accordance with the University of Southern Mississippi Student Handbook and will report the violation and his or her disposition of the violation using the “Academic Misconduct Incident Reporting Form” (PDF) to the Associate Dean of the CoB. Instances of academic dishonesty may also be referred to the Academic Conduct Committee of the CoB by a faculty member, administrator, or student. When the Committee, after holding a hearing on a complaint, determines that a student has engaged in academic dishonesty, it may recommend an appropriate sanction.
Grading System for Graduate Courses

A Indicates excellent work and carries 4.0 quality points per semester hour
A- Indicates excellent work and carries 3.7 quality points per semester hour
B+ Indicates good work and carries 3.3 quality points per semester hour
B Indicates good work and carries 3.0 quality points per semester hour
B- Indicates good work and carries 2.7 quality points per semester hour
C+ Indicates average work and carries 2.3 quality points per semester hour
C Indicates average work and carries 2.0 quality points per semester hour
C- Indicates average work and carries 1.7 quality points per semester hour
D+ Indicates inferior work and carries 1.3 quality points per semester hour
D Indicates inferior work and carries 1.0 quality points per semester hour
F Indicates failure and carries no quality points
NA Indicates the instructor reported the student as not attending. The grade is considered as attempted, but no quality points are earned. The grade is calculated as an "F" in the student's grade point average.
I Indicates that a student was unable to complete course requirements by the end of the term because of extraordinary circumstances beyond his or her control. Poor performance or unexplained absences are not justification for the assignment of an “I.” If an “I” has not been removed by the end of the next semester (excluding summer term), it automatically becomes an F. Students are prohibited from enrolling in any course for which the current grade is “I.”
AW Indicates administrative withdrawal
W Indicates withdrawn no penalty (No quality points awarded)
P Indicates a passing grade in courses taken on a pass-fail basis (Does not count in computing the GPA)
Appeals Process

Any action concerning the student’s status as a graduate student may be appealed to the Graduate Committee of the College of Business. All appeals will be reviewed when the College of Business Graduate Committee can be convened or at one of the regularly scheduled meetings. Students will be notified in writing immediately after the meeting.

Scholarship

A minimum GPA of 3.0 is considered satisfactory scholarship. All students must have at least a 3.0 GPA in order to graduate.

A student will be placed on academic probation for the next regular semester of enrollment for the following reasons: the cumulative grade point average (GPA) or program GPA falls below 3.0, a grade of "C-" or lower is awarded; a seventh hour of C+ or C is awarded. Full-time students must increase their GPA to a 3.0 within one semester. Part-time students must increase their GPA to a 3.0 within two semesters. During the probationary semester(s), a student will not be allowed to take comprehensive exams.

Students placed on academic probation are required to meet with the MBA Director, bring their cumulative GPA up to the required 3.0 within the required timeframe and maintain a cumulative GPA of 3.0 or better until all other degree requirements are completed. Failure to return to good academic standing by the end of the probationary period will result in dismissal from the program.

A student may not graduate until he/she returns to good academic standing.

Repeat Policy

Upon approval by the MBA Director, students may repeat one (1) course to improve a cumulative grade point average.

Withdrawal Procedures

Students finding it necessary to withdraw from the university prior to the deadline to withdraw may begin the process via their SOAR student center with the "Drop ALL Courses" link. Within SOAR, they will view a series of panels that will explain the academic and financial impact in withdrawing from the university at that point in time. If students need further assistance in withdrawing, they should contact the Registrar's office. Withdraw request must be submitted by the last day to withdraw found on the Academic Calendars. After this date, students will receive final grades as submitted by the instructor(s).
A non-degree student must begin the withdrawal process in the Graduate School. This process must be completed in person and cannot be done online or by phone.

Graduate Assistantships

Graduate Assistantships are awarded on a competitive and comparative basis, and are not given on the basis of financial need. Graduate assistantships are only awarded to MBA students admitted on a regular basis.

Graduate Assistant Policies and Procedures

Graduate Assistants are required to:

1. Attend an orientation session scheduled at the beginning of the fall semester
2. Develop a work schedule with their assigned professor or “staff supervisor”
3. Work twenty hours a week
4. Be enrolled full-time (9 semester hours in fall and spring) during the duration of the assistantship
5. Maintain a 3.0 GPA

Failure to meet the above requirements can result in the loss of the assistantship.

Graduate Assistant performance is monitored on a monthly basis. In the event a graduate assistant is not performing satisfactory work for his/her assigned professor(s), a warning is issued to the student. If the problem persists, the assistant in question would lose the assistantship.

If a Graduate Assistant drops below a 3.0 GPA and is placed on probation, he/she would lose the assistantship effective the following semester.

Graduate Assistantship Benefits

Students who are awarded graduate assistantships receive a full-tuition waiver during the fall and spring semesters and a monthly stipend to help with living expenses. Graduate Assistants also gain valuable research experience.
Master of Business Administration

Objectives/Learning Outcomes

All students upon graduation from the program will be able to demonstrate that they have the needed knowledge and skills as outlined in the following learning outcomes:

1. MBA graduates will demonstrate knowledge of business concepts and techniques in all relevant functional areas (e.g. managerial accounting, marketing, management, finance and strategy).
2. MBA graduates will demonstrate skills in leadership and team building.
3. MBA graduates will demonstrate the ability to identify and understand ethical and cultural perspectives.
4. MBA graduates will demonstrate the ability to communicate effectively.
5. MBA graduates will demonstrate creative critical thinking skills by integrating and applying appropriate concepts, technologies and decision-making techniques to effectively evaluate and manage a business in a global environment.

MBA Prerequisites

Applicants with an academic background in a non-business discipline may need to complete business prerequisites. The prerequisites required are specific to each individual applicant. The general prerequisite requirements for the MBA program are demonstrated proficiency in 3 areas:

- Accounting
- Finance
- Statistics

These prerequisites can be met with a 3 hour course (undergraduate or graduate) in each of the 3 areas. These prerequisites must be satisfied before beginning the MBA program.
MBA Course Requirements

All students are required to satisfy advanced course requirements. The following courses comprise the program core requirements, totaling thirty-three (33) hours of advanced course work:

**MBA 600 Organizational Behavior and Leadership.** 3 hrs. Analysis of individual and group behavior topics essential to managing people in organizations.

**MBA 605 Marketing Management.** 3 hrs. Applications of analytical and communication skills in solving complex marketing problems.

**MBA 610 Analytical Decision Making.** 3 hrs. The study and application of quantitative statistical methods to decision making.

**MBA 611 Managerial Accounting.** 3 hrs. An analysis of the use of accounting information in managerial decision-making.

**MBA 620 The Global Economy.** 3 hrs. An examination of the use of macroeconomics analysis and information in managerial decision-making.

**MBA 640 Financial Management.** 3 hrs. Applications of financial theory to solve complex financial problems.

**MBA 650 Global Business Systems.** 3 hrs. Examination of the impact of information technology on productivity, quality, service and problem-solving in the global business environment.

**MBA 660 Strategic Management.** 3 hrs. Prerequisites: Permission of the MBA Director. An analysis of strategic business planning and implementation from the perspective of top management. MBA 660 is considered the capstone course for the MBA program.

**Electives:** 9 hours of approved electives are required.
Graduation Requirements

In order to graduate, students must complete all core course requirements with a cumulative GPA of 3.0. In addition, all general requirements of the Graduate School and the College of Business must be met; including the completion of a comprehensive examination which is administered in the MBA 660 course.

Application for graduation must be submitted the semester prior to graduation. Instructions and deadlines are posted online at the Graduate School website (https://www.usm.edu/graduate-school/application-graduate-degreecertificate). To complete the application, students must meet with their Graduate Advisor or the MBA Director in advance of the Graduate School deadline, in order to allow time for delivery of paperwork to the Graduate School.

According to the Continuous Enrollment Policy established by the University, graduating students must be enrolled in classes the semester they plan to graduate. For this reason, it is particularly important to submit the graduation application on time. Late submission of the application delays graduation until the next semester, which means the graduate applicant will also need to register for at least one credit hour, even if all the required MBA coursework has been completed.

Research and Scholarly Integrity Assurance Program (IAP) Training Requirement

All graduate students must complete Research and Scholarly Integrity Assurance Program (IAP) training modules required by the Graduate School and their departments the first semester they are enrolled in graduate school. The IAP policy and training information are found on the Graduate School web page - http://www.usm.edu/graduate-school/integrity-assurance-program-formerly-rcr. Contact the Dean of the Graduate School if you have any questions regarding the policy of training information.
