

WATCHES AND WARNINGS

- A watch means that hurricane conditions are expected to reach Mississippi within 36 hours. You should begin preliminary preparations to protect your life and property.
- A warning means that a hurricane is expected in our region within 24 hours. All preparations should be completed at this time!
- If a major storm is expected, Category III or higher, USM will be evacuated for your safety. This means ALL campus housing facilities will close, and residents must leave campus.

The key to successfully preparing for a hurricane is to stay informed and ensure that you and your family have a plan in place. The following link may offer helpful information regarding hurricanes:

- Plan to go home early. Know where you will be going, whether it is home, to a friend's house or to a designated shelter. **Parents may NOT relocate to USM. Refer them to Red Cross shelters in the area. The University is not an emergency shelter and cannot accommodate a large number of additional people.*
- Students with disabilities will be contacted by Housing and Residence Life personnel to help with filling out the online form.
- Students with disabilities and/or emotional support animals will be contacted by Housing and Residence Life personnel to receive specific evacuation plans. In the meantime, begin making plans according to this guide.

Electronically submit this form before the evacuation is announced. Detailed directions are under the Hurricane Evacuation Information Form on Eaglelink, as well as in this pamphlet.
