This overview and submission instructions apply to participation and registration for the optional Real-World Innovation Poster event at the 2023 International SeaPerch Challenge. Please check with your local regional coordinator for rules related to your local regional competition.

## Real-World Innovation Poster Overview

This event challenges teams to explore real-world applications for underwater ROVs. Teams are invited to identify a real-world issue and design a SeaPerch ROV to address the issue. To present their project, teams will create a virtual poster. These posters may include anything from a conceptual design to a full project conducted in the real world.
