

THE UNIVERSITY OF
SOUTHERN MISSISSIPPI

14 May 2025

Addendum 1 for RFP 25-54

This addendum corrects a typo for the bid number on the coversheet. The University's answers are shown in **RED**.

Amber Floyd

Buyer, Procurement, and Contract Services

1. Is the University now interested in 10 simultaneous recordings to cover all rooms simultaneously or the 8 simultaneous rooms (with AV in all 10) that was previously discussed?
 - a. We are seeking to have AV in all 10 rooms (217, 223B, 223C, 223D, 223E, 223F, 223L, 237A, 229, and 231), with the ability to cover (8) of those spaces simultaneously. Rooms 223B, 223E, and 223F should be available to access individually but will not require simultaneous access.
2. Is the University interested in recording capabilities (vendor installing cameras/mics) in the debriefing rooms or is the University only interested in the ability to watch/review the software utilizing their own equipment to access their SimCapture URL for debrief?
 - a. We are not looking for recording capabilities to capture content from the debriefing rooms currently but would like to ensure that this capability would be possible in the future if desired. In addition, we are currently seeking to watch/review coverage of the connected spaces through our own Windows based micro-form factor PCs located throughout our control rooms and debriefing rooms.

3. Is the University also interested in AV placed in the wings as well? If so, how many cameras are they interested in those areas?”
 - a. At this time, we are not looking to place A/V equipment in the East or West wings of the Simulation lab but would like to ensure that addition of equipment in the wings would be possible in the future if desired.
4. Lastly, will the University consider extending the due date, since answers to questions won't be released until May 27 and the bid will need to be physically mailed?
 - a. Dates will remain as stated in the bid package.
