Buyer, Procurement, and Contract Services

1. When previously discussed and on-site, we provided a proposal for our mid-tier Enterprise software (which doesn't include capabilities for recording OSCE exams). Per the bid request, OSCE is mentioned for those 2 OSCE rooms and I want to confirm if you'd like a proposal for the OSCE tier (top tier) software or continue with the mid-tier software previously discussed?
    a. Answer: As outlined in the RFP, the two OSCE rooms are referenced to reflect the full scope of our simulation environment; however, at this time, we are seeking proposals based on the mid-tier Enterprise software option, which aligns with our current objectives and budget priorities.
    b. That said, we would still like to include standard equipment in the proposal that allows for viewing, recording, and paging into the referenced OSCE rooms, as part of a consistent experience across all rooms within the simulation center.
