1. Would you like to opt in or opt out of the migration?

- The migration we're referring to involves moving two of your existing licenses from Cisco DNA to the Unified Networking platform. This ensures your licenses remain supported and aligned with Cisco's current Cisco licensing model. The migration will not affect your current service functionality it's simply an update to the licensing framework.

- **No, we do not wish to migrate.**

2. Could you please verify your current physical address?

- Regarding the physical address, this refers to the street address where the equipment associated with these licenses is installed.

- **118 College Dr. Hattiesburg, MS 39401**
