1. **Would you like access to national data or only the state of Mississippi?**
 - *We would like both state and national level data.*

2. **How will institutional decision makers use the platform? Will they use it to make decisions on curriculum to be added or removed, for example?"**
 - *The platform will be available to students to help align their interests with degree programs and career paths. At this time, I do not anticipate that decisions will be made to remove programs, but I do think it is likely that we will use the data to ensure that are curriculum are relevant and related to employer needs.*
