Introduction

The University of Southern Mississippi and its Board of Trustees were established by an act of the Legislature approved on March 30, 1910, by Governor Edmund F. Noel. Its first name was the Mississippi Normal College, and its original purpose was to train teachers for the rural schools of Mississippi. On February 2, 1932, the Legislature established the Board of Trustees of State Institutions of Higher Learning and placed under its jurisdiction the five colleges and one university owned and operated by the state. On November 3, 1942, the people of the state voted to make the Board of Trustees of State Institutions of Higher Learning a constitutional board for all colleges and universities of the state. The University of Southern Mississippi is now operated under the jurisdiction of that constitutional board.

The act of March 30, 1910, did not provide any state money for the building of Mississippi Normal College, but did provide that localities in the state might bid for its location by offering land for a site and money for constructing buildings. On September 16, 1910, the Board of Trustees accepted the bid of Hattiesburg and Forrest County to supply \$250,000.00 and a free site. That site was west of the city in cut-over timberland with great pine stumps everywhere. Contracts were let to clear the land and to build buildings.

The five permanent buildings (College Hall, Forrest County Hall, Hattiesburg Hall, the Industrial Cottage [now the Honor House], and the President's Home [now the Alumni House]), a temporary wooden Dining Hall, and other necessary improvements were barely finished when the Mississippi Normal College opened on the rainy morning of September 18, 1912, with a president, a faculty of eighteen, and a student body of 200.

On October 17, 1911, Joseph Anderson Cook, Superintendent of Schools, Columbus, Mississippi, was elected president. The University of Southern Mississippi has had only seven presidents since its founding. The Board of Trustees elected Claude Bennett president effective October 10, 1928. On April 23, 1933, the Board of Trustees elected Dr. Jennings Burton George as the third president, effective July 1, 1933. On June 13, 1945, the Board of Trustees elected Dr. Robert Cecil Cook as the fourth president and he officially assumed office on July 1, 1945. On October 21, 1954, President Cook submitted his resignation. He served until December 31, 1954, and Dr. Richard Aubrey McLemore became acting president on January 1, 1955. The Board of Trustees, on May 19, 1955, elected Dr. William David McCain as the fifth president. He officially assumed office on August 1, 1955, and retired as of June 30, 1975. Dr. Aubrey Keith Lucas became the sixth president of the University on July 1, 1975, and served until December 31, 1996, the longest tenure of any president. Dr. Horace Weldon Fleming, Jr., was appointed as the seventh president, assuming office on January 1, 1997.

As has been stated, The University of Southern Mississippi was founded on March 30, 1910, as the Mississippi Normal College. On March 7, 1924, the Legislature changed the name to State Teachers College. On February 8, 1940, the Legislature changed the name to Mississippi Southern College, and on February 27, 1962, the Legislature changed the name to The University of Southern Mississippi.

The Mississippi Normal College did not grant degrees in its early years, but awarded certificates for the completion of certain specified courses of study. On April 8, 1922, the Legislature authorized the awarding of the Bachelor of Science degree. The Bachelor of Music degree was authorized by the Board of Trustees on June 19, 1934. The first Bachelor of Arts degree was awarded on August 20, 1940. On May 26, 1947, the Board of Trustees authorized the initiation of graduate work and the awarding of the Master of Arts degree. In the years since 1947, the University's graduate programs have developed logically to meet the needs for professional competence beyond the academic measure of the baccalaureate degree. Doctoral programs were first authorized by the Board of Trustees on May 20, 1959. The administrative and academic organization of The University of Southern Mississippi is divided into the following areas: Vice President for Academic Affairs, Vice President for Administrative Affairs, Vice President for Research and Planning, Vice President for Business and Finance, Vice President for Student Affairs, and Director of Intercollegiate Athletics. The academic area of The University of Southern Mississippi is organized into the College of The Arts, the College of Business Administration, the College of Education and Psychology, the College of Health and Human Sciences, the College of Liberal Arts, the College of Nursing, the College of Science and Technology, the Honors College, the Graduate School, and the College of International and Continuing Education. The number of graduates is some measure of the growth of a university. The University of Southern Mississippi has awarded 100,114 degrees since the first one was conferred in 1922.

The museum is located on the campus of The University of Southern Mississippi near the university's main entrance.

The USM Museum of Art dedicates itself to presenting many of the finest art exhibitions in the state of Mississippi. Not only do contemporary artists from around the country exhibit in the Museum's galleries, but the list of historically important artists whose work has been exhibited in the Museum in 1997-1998 is long and varied—Walter Anderson, Thomas Hart Benton, Dusti Bonge, Paul Cadmus, Honore Daumier, Philip Guston, Seymour Haden, Winslow Homer, Walt Kuhn, Andrea Mantegna, Henry Moore, Robert Motherwell, Alice Neel, Fairfield Porter, Rembrandt van Rijn, Henri de Toulouse-Lautrec, James Abbott McNeill Whistler, and Anders Zorn.

The USM Museum of Art's permanent collection is one of the finest in the state of Mississippi. Many of the best known artists to have worked or lived in Mississippi are in the collection—Richmond Barthe, Walter Anderson, Marie Hull, and Dusti Bonge. Additionally, the USM Museum of Art organizes a variety of tours of major exhibitions and sites throughout the United States and Europe.

The University of Southern Mississippi has four publications each year; the **Undergraduate Bulletin**, the **Graduate Bulletin**, the **Independent Study Bulletin**, and the **Regional Campus Bulletin**. To get the complete programs of the University, please check each Bulletin.

Family Educational Rights and Privacy Act of 1974 as amended (FERPA)

The Family Educational Rights and Privacy Act of 1974 as amended deals with one subject only: educational records. The purpose of the law is to define, more precisely than ever has been done, who may or may not see them. On the one hand, the law grants students guaranteed access; on the other hand, it takes from the universities the privilege of indiscriminate disclosure.

The FERPA sets forth these main requirements:

1. it allows a student access to each educational record that a university or college keeps on him or her;
2. it requires the institution to establish a policy on how students can go about seeing specific records;
3. it requires the institution to inform all students as to what rights they have under the Amendment, how they can act on these rights according to school policy, and how they can see a copy of the policy; and
4. it requires the institution to seek student permission, in writing, before disclosing any personally identifiable record to individuals other than professional personnel employed in the university or college (and others who meet certain specified requirements).

The University has developed and put into writing a policy for handling requests from students and for disclosing personally identifiable information about students. Students are notified of their rights under the law by publishing the University policy in the student handbook.

Oak Ridge Associated Universities

Since 1992, students and faculty of University of Southern Mississippi have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of colleges and universities and a management and operating contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education, the DOE facility that ORAU manages, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the *Resource Guide*, which is available by calling either of the contacts below.

ORAU's Member Services office seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Current alliances include the Southern Association for High Energy Physics, Pan American Association for Physics, Materials Science Forum, and international initiatives in support of the New Independent States and the republics of Central and Eastern Europe. Other activities include faculty development programs, such as the

Junior Faculty Enhancement Awards and the Visiting Industrial Scientist Program, and various services to chief research officers.

For more information about ORAU and its programs, contact Dr. Donald R. Cotten, ORAU Council member, at 601-266-5116; or contact Monnie E. Champion, ORAU Corporate Secretary, at 423-576-3306, website: www.orau.gov

University Press of Mississippi

The University Press of Mississippi was founded in 1970 to encourage the dissemination of the fruits of research and study through the publication of scholarly works. Functioning as the scholarly publishing arm of the state-supported universities in Mississippi, The University Press is governed by a Board of Directors made up of one representative from each of the eight state universities, one representative from the Board of Trustees of State Institutions of Higher Learning, and the director of the Press.

The University Press publishes more than fifty books each year. Primary areas of interest are Mississippi history and literature, but manuscripts in all areas of study are welcomed.

Administrative offices of the University Press are located in the Education and Research Center of Mississippi, 3825 Ridgewood Road, Jackson, Mississippi, 39211.

University of Southern Mississippi Alumni Association

The Alumni Association was established in 1917 as an organization mainly involved in functions relating to placement service. Since its rebirth in 1946, when the Executive Committee recognized the need for a working Alumni Association with organized alumni groups in the various counties of the state, the Association has operated in its present form, serving as a link between the University and its former students.

USM graduates and former students are encouraged to become active in the Alumni Association and its support of the University's various academic and athletic programs. Of approximately 97,000 graduates since the University's founding, the Alumni Association has enlisted in excess of 21,000 paid members for the past several years.

The Association provides a number of benefits to its members, including a subscription to the quarterly USM **Alumni News** magazine, which helps graduates stay informed on campus developments and provides updates on former classmates. Other benefits include a waiver of out-of-state tuition fees for children of members who meet certain requirements, receipt of mailings on area alumni chapter meetings, library privileges, the full four-issue subscription to the **Southern News and Views** Alumni Newsletter, car decals, eligibility to join the USM Credit Union, and various other special events.

The Association is very active in developing other programs to support all areas of the University. Some of these include organizing joint district Eagle Club meetings in conjunction with the Athletic Department, sponsoring high school student nights across Mississippi and the surrounding states, and organizing both athletic road game trips and educational excursions to such locations as Switzerland and England.

The Alumni Association also sponsored the drive to raise the funds necessary for the construction of the first R. C. Cook University Union Building, helped set up the USM Foundation (the receptacle for all gifts to the University), and organized the Student Alumni Association, an organization com-

prised of hard-working, enthusiastic students involved in a variety of activities each semester to promote the University.

Organized Alumni chapters are urged to hold a meeting each year for the election of officers on or around March 30, the date selected by the Association as USM Day in commemoration of the founding of the University on that date in 1910. All former students of USM are encouraged to get together in honor of the University on this date.

Admission to the University

All communications regarding entrance to the undergraduate colleges and schools of the University should be addressed to the Office of Admissions, The University of Southern Mississippi, Box 5166, Hattiesburg, MS 39406-5166.

Eligibility for admission will be determined when the application, ACT/SAT score, and scholastic records have been submitted. These items should be received before the deadline date of the semester for which the student is applying (see Calendar). The academic record, character, and conditions of application of the applicant must be in accordance with the rules and regulations of the Board of Trustees of State Institutions of Higher Learning and with the laws of the State of Mississippi. The applicant must have excellent moral character and must be willing to conduct his or her affairs so as to be a credit to the University. The University reserves the right to cancel the admission or registration of an individual whose attendance at the University, in the opinion of the appropriate administrative officer and the President, would not be mutually beneficial to himself or herself and to the institution. Any undergraduate applicant who is denied admission to the University may have his or her case reviewed by the Undergraduate Committee for Admissions and Credits. To initiate the review procedure, the student should contact the Office of Admissions. Applicants should note carefully the law governing legal residence and the penalty for falsifying residence information. The law appears in the STUDENT EXPENSES Section of this **Bulletin**. **The University of Southern Mississippi does not discriminate on grounds of age, sex, race, color, religion, or national origin. These provisions also apply to disabled individuals pursuant to current federal and state regulations subject to reasonable standards of admission and employment. All inquiries concerning discrimination should be referred to the Vice President for Administrative Affairs, Room 108, Administration Building, The University of Southern Mississippi, Hattiesburg, Mississippi 39406-5177.**

Admission requirements are subject to change as mandated by the Board of Trustees, State Institutions of Higher Learning, without prior notification.

Application Procedures for Freshmen

How to Apply

Each entering freshman applicant is required to:

1. Present an application for admission.
2. Submit an official high school transcript which lists the date of graduation, class rank, and grade point average and which indicates credit in the following College Preparatory Core (CPC) units in grades 9-12:

Subject

English	4 units	(All must require substantial communication skills)
Mathematics	3 units	(Includes Alg I,Geom,Alg II or a higher math)
Sciences	3 units	(Choose from Bio,Chem, Physics, or their advanced sequences, or any other course of comparable rigor and content. Two must be lab based.)
Social Studies	3 units	(Must include 1 unit of American History, 1 unit of World History, 1/2 unit of Government, and 1/2 unit of either Economics or Geography.)
Required Electives	2 units	(1 unit must be either a foreign language or World Geography. The second unit can be either a foreign language, World Geography or a 4th math or 4th science unit.)
Computer Application	1/2 unit	(Computer competency cited on the transcript will meet this requirement.)

Algebra I or a foreign language taken in the 8th grade will be accepted toward meeting admission requirements.

For an applicant to be fully admitted to USM, one of the following combinations of curriculum, testing scores, and grade point average must be attained:

1. Complete CPC with minimum 3.20 GPA and submit ACT or SAT; or,
2. Complete CPC with minimum 2.50 GPA or in top 50% of class and 16 or higher ACT, or the SAT equivalent; or,
3. Complete CPC with minimum 2.00 GPA and 18 ACT or the SAT equivalent.

If an applicant meets all of the above requirements except for the full CPC, he/she may be admitted with up to two curriculum deficiencies (but no more than one in any allowable area; English and Mathematics areas are not allowed deficiencies.) Students may also be considered as per NCAA IA eligibility criteria.

Freshman applicants who do not meet the above listed standards will be required to participate in a screening process that will include the diagnostic test, ACCUPLACER. Depending on the level of development diagnosed through ACCUPLACER and other factors assessed through screening, applicants may be moved directly into a full admission category. Those students will be encouraged to participate in an Academic Support Program. If the ACCUPLACER and other factors indicate the need for remediation, those applicants will be fully admitted with deficiencies for the Summer term and will be required to enroll in a **Summer Developmental Program** designed to strengthen the student's skills in areas requiring remediation. Students who successfully complete this summer program, by passing all Summer Developmental courses, will be considered to have made satisfactory academic progress and will continue their regular programs of study during the fall term with mandatory participation in the Academic Support Program. Students who fail to complete the Summer Developmental Program are considered to have made unsatisfactory academic progress and are not eligible for enrollment in the regular academic year. These students will be counseled to explore other post-secondary opportunities. The Summer Developmental Program will consist of the following individualized courses: English, reading, mathematics and support labs. The individual courses are three (3) credit hours and each lab will be one (1) hour. Students carrying a course load of 12 semester hours will be considered full time.

Realizing that applicants from other states and countries may not have the same curriculum opportunities as our instate applicants, those students will be required to achieve curriculum standards that would be considered equivalent in rigor and content to the College Preparatory Core.

When to Apply

A high school student, especially one who is also applying for financial aid, is urged to apply for admission early in his or her senior year. The applicant should have his or her high school mail to the Office of Admissions a transcript complete for his or her first six semesters. This transcript should have clearly posted the current grade point average, class rank and should list the courses for which the student is currently enrolled. A student who applies during his or her final senior semester should provide a transcript complete for the first seven semesters. The deadline for receipt of applications and all required credentials, including results of the ACT/SAT, is twenty (20) days in advance of the session for which the application is being made. An application is processed as soon as possible after all required items are available. A notification of admission is then issued to the admissible student.

Application Procedures for Transfer Students

How to Apply

Each new student who has attended other colleges or universities and who is seeking admission to an undergraduate college is required to file with the Office of Admissions an application for admission. He or she should also request the authorities at each institution attended to send an official transcript of his or her record to the Office of Admissions. The student who is applying with fewer than the twenty-four (24) semester hours of college credit required for admission as a transfer must also have sent to the Office of Admissions an official high school transcript showing the date of graduation. The applicant must also provide an official report of the ACT/SAT scores directly from the testing service. Applications will be processed and admission status determined when all required items, including the ACT/SAT where applicable, are on file.

Any prospective transfer students who have achieved all of the standards as specified by the Board of Trustees for admission to the universities under the governance of the Board of Trustees but who choose to attend an institution not under the governance of the Board of Trustees may transfer at any time to an institution under the Board of Trustees. This does not alter individual institutional requirements regarding transfer students.

Any student who did not meet freshman requirements at the time of high school graduation must attend an accredited institution of higher learning other than those under the governance of the Board of Trustees and must attain a C average (2.0 GPA on a 4.0 scale) in the following twenty-four (24) semester credit hours:

- 6 semester hours English Composition
- 3 semester hours College Algebra or a higher math course
- 6 semester hours Laboratory Science
- 9 semester hours Transferable Electives

The applicant also must show that he or she has earned an overall GPA of 2.0 on all course work attempted or have an earned associate degree (or its equivalent) from an accredited institution. Developmental courses in English, mathematics, and reading will not be accepted for transfer credit, nor will the grades and hours be used in computation of the individual GPA for admission to the University. Some programs require that students meet more selective standards than those posted above.

Transfer students may be accepted from other institutions of higher learning only when the program of the transferring institution is acceptable to the receiving institution, the program of studies completed by the student meets the requirements established above, and the quality of work performed by the student is acceptable to the Board of Trustees. The authorities at the institutions under the jurisdiction of this Board are authorized to require acceptable scores on recognized tests for such transfer students. No student seeking to transfer during the midst of the session, quarter, semester, or trimester of the institution in which he or she is currently enrolled can be considered.

A student currently enrolled in another institution at the time he or she makes application for admission for the following session to one of the undergraduate colleges of this University should arrange to have forwarded to the Office of Admissions an official transcript which includes a listing of courses in progress as well as all completed work. Transfer credit is accepted only from institutions of higher learning which are accredited by a regional accrediting agency or the Mississippi Commission on College Accreditation.

The student must indicate on the application all previous college attendance. An applicant is not permitted to ignore previous college attendance or enrollment. A student who misrepresents information in filling out the admission application form or a student who finds after admission or enrollment that he or she is ineligible for academic or any other reason to return to his or her last institution and who fails to report this immediately to the Office of Admissions will be subject to disciplinary action, including possible dismissal from the University.

When to Apply

The application, required credentials, and the ACT/SAT results (when applicable) must be on file in the Office of Admissions not less than twenty (20) days in advance of the session for which application is being made.

When the application, all required credentials, and the ACT/SAT results (if applicable) have been received, the Office of Admissions will provide the applicant a notice of admission status.

Transferred credit will be evaluated after the admission status has been determined. If an evaluation is received prior to registration day, the student should bring it for use during advisement. Otherwise, the student should contact the Office of Admissions upon arrival on campus for the purpose of attaining a transfer credit evaluation.

The University requires a grade average of C in all previous college work. The applications of students whose records do not meet the indicated requirements may be subject to review by the Dean of Admissions or the Admissions and Credits Committee.

A student under academic suspension from another college or university may not enter The University of Southern Mississippi during the term of his or her suspension. Upon termination of the suspension period, there is no bar to admission if he or she is eligible in other ways.

In general, students under disciplinary suspension are not admitted to The University of Southern Mississippi.

Students from fully accredited institutions ordinarily will be given full credit for work transferred into the University, insofar as the courses taken are the same as, or equivalent to, courses offered in the college in which the student enrolls in this institution.

Credits transferred from an accredited community/junior college will be accepted as determined by the college in which the student is enrolled. In accepting community/junior college credits, no courses will be considered as above sophomore level.

Neither vocational nor developmental/remedial courses will be accepted for transfer credit, nor will the grades made on these courses be used in computation of the grade point average for admissions purposes. Institutional credit not based on acceptable nationally standardized tests is not transferrable for admissions nor is it applicable toward a degree.

Probationary Admission

Transfer applicants who meet all regular transfer requirements but who do not have a minimum 2.0 grade point average (on a 4.0 scale) may be considered for admission to the University on Admissions Probation if the following requirements are met:

1. Applicant must meet ACT/SAT requirements mandated by the Board of Trustees.
2. Applicant must meet all curriculum requirements mandated by the Board of Trustees (freshmen or transfer, not both).
3. Applicant's grade point average must meet the Academic Standards level cited on page 24 of this publication.

If the above criteria have been met and an applicant has been admitted on probation, the student *must* maintain the following prescribed standards to continue enrollment:

1. To "clear" Admissions Probation, the student must pass a minimum of twelve (12) semester hours with a minimum 2.5 grade point average.
2. To continue to enroll on Admissions Probation, a student must maintain a minimum 2.0 grade point average on all USM courses.

If an Admissions Probation student fails to maintain a minimum 2.0 grade point average during any term at USM while on probation, he or she will be administratively dismissed, for which there is no appeal. A student administratively dismissed must attend another accredited institution and must achieve an overall 2.0 grade point average (from all institutions of record) before he or she may be considered for readmission to USM.

A limited number of students may be admitted who have not completed transfer admission course requirements, provided the student has completed English composition and has maintained an overall 2.5 grade point average.

Transfer Credit Policy

Credits transferred from accredited institutions are reproduced on the permanent records of the University of Southern Mississippi. This action is evidence that the credits are considered valid. **Validity**, however, is not to be confused with applicability.

Applicability of transfer work depends upon the coincidence of transfer credits with the requirements of a particular curriculum. **Applicability** varies from curriculum to curriculum, not only for transfer students from other institutions but for students transferring from one school or curriculum to another within The University of Southern Mississippi. **Applicability** is determined by the department chair and the dean of the college to which one is admitted. Transfer hours passed will be accepted. To meet graduation requirements transfer students must have an overall C average, calculated by the method currently in use at The University of Southern Mississippi, on all hours scheduled and rescheduled at all institutions attended, including The University of Southern Mississippi. Excessive quality points earned at other institutions cannot be used to offset any deficiencies at The University of Southern Mississippi. **Acceptance of community/junior college work is limited to one-half of the total requirements for graduation in a given curriculum.**

A maximum of sixty-four (64) semester hours of credit earned through Credit by Examination, independent study courses, extension courses, and educational experiences in the armed forces combined may be counted toward a degree at The University of Southern Mississippi. No more than thirty (30) semester hours in a degree program may be earned through Credit by Examination.

While enrolled at the University of Southern Mississippi, a student is required to obtain written approval from his or her department to enroll in a course(s) at another institution. Without this approval, the course(s) may not apply toward his or her degree.

Transcript Evaluations

The Office of Admissions is charged with the responsibility of providing transferring students and their advisers with Transcript Evaluations on a timely basis. An Official Transcript Evaluation will be completed only after all the required official documents necessary to the applicant's admission to the University have been received by the Office of Admissions. For the convenience of both the student and adviser, an Unofficial Transcript Evaluation will be provided to assist in advising and in the procurement of Financial Aid and Veterans Administration benefits, etc. Any student in an "Unclear" admission status cannot be granted an Official Evaluation. However, once the "Unclear" status has been "Cleared" the Official Evaluation will then be completed and posted on the student's academic record.

Non-traditional credits awarded by another institution will be evaluated in terms of current policy at The University of Southern Mississippi. Unless the basis for awarding the credit is readily identifiable, no credit will be allowed until such time as the student, through the awarding institution, can establish the creditability of the curriculum.

Acceptance of Military Credit

1. Credit for military schools and educational experiences in the armed forces is awarded on the basis of recommendations of the American Council on Education.
2. Correspondence and/or extension courses, including USAFI/DANTES college level courses, may be applied toward a degree up to a maximum of thirty-two (32) semester hours. DANTES credit is allowed only for subjects where CLEP credit is accepted, with the addition of the DANTES Public Speaking test. No more than nine (9) semester hours of correspondence (USAFI) work may be earned in any one field.
3. Credit from the Community College of the Air Force is acceptable for purposes of admissions and may be used in a degree program as determined by the academic department.
4. A maximum of sixty-four (64) semester hours of credit earned by independent study, extension, and military experience combined may be applied toward a degree.
5. Evaluation of credit will be completed after actual enrollment, upon request.

International student applicants residing inside the United States must submit all application materials at least **one month** before the proposed date of entry into the University.

This I-20 Form enables a student to enter the University in a degree-granting program once all admission requirements have been met. The student must make application to the English Language Institute and to the University.

International students interested in attending the English Language Institute for intensive studies in English should direct all correspondence to:

Other Admission Categories

Special Admissions

The University has several special admissions categories for highly qualified high school students. To be considered for **EARLY ADMISSIONS**, the applicant must meet one of the two following:

1. 3.20 GPA on at least 15 College Preparatory Curriculum (CPC) units and recommendation of high school counselor or principal.
2. 3.50 GPA on completed CPC courses, and an ACT composite of 25 or the SAT equivalent, and recommendation of high school principal.

The University also offers highly qualified high school students the opportunity to earn college credits while they are enrolled in high school. Through our **DUAL ENROLLMENT** program, high school students may take one (1) course per term at the University, provided that the course does not interfere with their high school curriculum. To be Dually Enrolled, the applicant must secure a Letter of Recommendation from his or her high school counselor and must have a minimum composite score of twenty-five (25) on the ACT or the SAT equivalent.

For information concerning **EARLY ADMISSIONS** or **DUAL ENROLLMENT**, make all inquiries to Dean of Admissions, Box 5166, Hattiesburg, MS 39406-5166.

Non-Traditional Students

For the adult who wishes to complete certain specific undergraduate courses in a degree or non-degree status, the applicant may be considered for admission provided the applicant meets these conditions:

1. Has a high school diploma or its equivalent.
2. Is at least 21 years of age.
3. Meets acceptable grade point average requirement on transfer work.

Previous academic records are required of all applicants. Applicants for non-traditional status are required to certify that they are not under suspension from any college or university. A student found guilty of non-disclosure or misrepresentation in filling out the admission application form, or a student who finds after admission or enrollment that he or she is ineligible for academic or any other reason to return to his or her last institution and who fails to report this immediately to the Office of Admissions will be subject to disciplinary action, including possible dismissal from the University.

The student registered in non-traditional status is subject to all University regulations governing registration, attendance, and academic standing. Credit earned in non-traditional status is recorded on the student's permanent record and may be applied in an undergraduate degree program when the student has satisfactorily established degree status by meeting the entrance requirements of the University and of the degree-granting college of his or her choice. A non-traditional student may not register for more than twelve (12) semester hours per semester. Depending on admission evaluation, some students may be limited to six (6) hours per semester. Non-traditional students are ineligible for some forms of financial aid and must consult with the Office of Financial Aid if aid is needed.

A student is permitted to earn a maximum of thirty (30) semester hours of credit in non-traditional status. No undergraduate college of the University will accept in a degree program in excess of thirty (30) semester hours earned while the student has been registered in non-traditional status, nor is a college obligated to accept any hours earned in non-traditional status which do not fulfill college degree requirements. The student who is approaching the thirty (30) hour limitation in non-traditional status, if he or she wishes to continue taking courses for credit, should consult the Office of Admissions concerning procedures required to establish regular degree status.

Non-traditional students applying for regular status are required to follow admission procedures and to provide all items required of transfer students.

Admission by Examination

Students under twenty-one years of age with a General Education Development Certificate of High School Equivalency must present a GED composite score equal to the fiftieth percentile. In such cases, the applicants may be screened and directed according to the results of the ACCUPLACER. The University does not award credit for the General Educational Development Tests, College Level. For applicants over 21 years of age, see regulations governing Non-Traditional Students.

Home taught students who present an ACT Composite score of 20-24 or the SAT equivalent and a portfolio or transcript showing evidence of completion of the College Preparatory Curriculum may be screened and, if the ACCUPLACER results so direct, may be required to participate in the Summer Developmental Program. Those students who present an ACT Composite of 25 or higher or the SAT equivalent and a portfolio or transcript showing evidence of completion of the College Preparatory Curriculum may be fully admitted without further screening.

Immunization Requirements

All students (including transfers) entering the University for the first time and enrolling for academic credit must document proof of immunization for measles and rubella.

1. Proof of immunization may be documented in the following manner:
 - a. Obtain a Certificate of Compliance with Immunization (Form No. 121-C) from your local Mississippi State Board of Health Office, if you are a resident of the State of Mississippi. Two doses of measles vaccine are required. All international students must have a chest x-ray to screen for tuberculosis;
 - b. Documentation (month and year) of immunization which was received after the first birthday;

 - c. Women anticipating pregnancy within three months.
3. Permanent exceptions:
 - a. Medical disease which will cause a permanent contraindication to immunization;
 - b. All persons born prior to 1957.

Activities scheduled during the program include the following: evaluation of credit for transfer students, placement testing, academic advisement, small group sessions, open house for organizations, scheduling of classes, and registration. Advisement

All new students are assigned to academic advisers and are given specific times to meet with their advisers for assistance in scheduling classes and planning programs of study to meet their individual needs. Assignment of advisers is based on the student's stated educational or career plans. The General Studies program, administered by the College of Liberal Arts, provides an organized plan of advisement for students undecided in their academic majors. Students who have determined an interest in a field of study outside of the College of Liberal Arts should enroll as undeclared majors within the college of that field. The Career Center provides a program of academic and career counseling for prospective students of the University.

Reapplying to the University

Students who have previously attended the University and have a break in attendance of one or more terms must file an application for readmission. Readmission documents required include an official transcript from each institution attended since leaving USM, and, if a degree has been received from another institution, an official transcript showing that degree.

Students must meet the minimum admission standards of the University and be in good standing at all institutions attended since leaving USM in order to be eligible for readmission.

Questions concerning undergraduate readmission should be directed to the Office of Admissions. Questions concerning graduate readmission should be directed to the Office of Graduate Admissions.

Residency Regulations

PETITIONS FOR CHANGE OF RESIDENCY: PETITIONS FOR CHANGE OF RESIDENCY MUST BE MADE ON OR BEFORE THE LAST DAY OF LATEREGISTRATION. FORMS ARE AVAILABLE IN THE OFFICE OF THE UNIVERSITY REGISTRAR.

Legal Residence of Students: The definitions and conditions stated here are as required by state law in the classification of students as residents or nonresidents for the assessment of fees. Requests for a review of residency classification should be submitted to the University Registrar; forms for this purpose are available from the Office of the University Registrar.

A Minor: The residence of a person less than twenty-one years of age is that of the father. After the death of the father, the residence of the minor is that of the mother. If the parents are divorced, the residence of the minor is that of the parent who was granted custody by the court; or, if custody was not granted, the residence continues to be that of the father. If both parents are dead, the residence of the minor is that of the last surviving parent at the time of that parent's death, unless the minor lives with a legal guardian of his or her person duly appointed by a proper court of Mississippi, in which case his or her residence becomes that of the guardian.

An Adult: The residence of an adult is that place where he or she is domiciled, that is, the place where he or she actually physically resides with the intention of remaining there indefinitely or of returning there permanently when temporarily absent. Adult students who are residing outside of the State of Mississippi, but whose parents have moved to this state and have become residents, must establish residence in their own right. In determining residence for tuition purposes of persons who return to Mississippi after temporary departures such as school attendance, work elsewhere, or military service, cognizance is taken for evidence showing continuity of state residence and demonstrated intent to return to the state.

Removal of Parents from Mississippi: If the parents of a minor who is enrolled as a student in an institution of higher learning move their legal residence from the State of Mississippi, the minor is immediately classified as a nonresident student.

Twelve Months of Residence Required: No student may be admitted to the University as a resident of Mississippi unless his residence, as defined herein above, has been in the State of Mississippi for a continuous period of at least twelve months immediately preceding his or her admission.

A student who has lived within the state for twelve months following his or her twenty-first birthday may establish residence in his or her own right by showing that he or she is living in the state with the intention of abandoning his or her former domicile and remaining in the State of Mississippi permanently or for an indefinite length of time. Intent may be demonstrated or disproved by factors including, but not limited to, filing of Mississippi income tax returns, eligibility to vote in Mississippi, motor vehicle registration in Mississippi, possession of a Mississippi operator's license, place of employment, and self support.

Residence Status of a Married Person: A married person may claim the residence of his or her spouse. (Foreign students refer to **Legal Residence of a Foreign Student**.)

Children of Parents Who Are Employed by the University: Children of parents who are members of the faculty or staff of the University may be classified as residents without regard to the residence requirement of twelve months.

Military Personnel Assigned on Active Duty Stationed in Mississippi: Members of the armed forces on extended active duty and stationed within the State of Mississippi may be classified as residents, with-

out regard to the residence requirement of twelve months, for the purpose of attendance at the University. Resident status of such military personnel who are not legal residents of Mississippi, as defined above under LEGAL RESIDENCE OF AN ADULT, shall terminate upon their reassignment for duty in the continental United States outside the State of Mississippi.

Children of Military Personnel: Resident status of children of members of the armed forces on extended active duty shall be that of the military parent for the purpose of attending the University during the time that their military parents are stationed within the State of Mississippi and shall be continued through the time that military parents are stationed in an overseas area with last duty assignment within the State of Mississippi, excepting temporary training assignments en route from Mississippi. Resident status of minor children shall terminate upon reassignment under permanent change of station orders of their military parents for duty in the continental United States outside the State of Mississippi, excepting temporary training assignments en route from Mississippi.

Certification of Residence of Military Personnel: A military person on active duty stationed in Mississippi who wishes to avail himself or herself or his or her dependents of the provisions of the paragraph titled MILITARY PERSONNEL ASSIGNED ON ACTIVE DUTY STATION IN MISSISSIPPI must submit a certificate from his or her military organization showing the name of the military member, the name of the dependent, if for a dependent, the name of the organization of assignment and its address (may be in the letterhead), that the military member will be on active duty stationed in Mississippi on the date of registration at the University; that the military member is not on transfer orders; and the signature of the commanding officer, the adjutant, or the personnel officer of the unit of assignment with signer's rank and title. A military certificate must be presented to the Registrar of the University each semester at (or within ten days prior to) registration for the provisions of the paragraph MILITARY PERSONNEL ASSIGNED ON ACTIVE DUTY STATION IN MISSISSIPPI, named above, to be effective.

Legal Residence of a Foreign Student: Students with permanent immigrant status or refugee status can establish residence in the state by meeting the provisions of the Mississippi Statute.

Student Expenses and Financial Aid

The University of Southern Mississippi is supported chiefly by legislative appropriations. Increases in student fees are put into effect only when public support funds are inadequate and no other recourse is available. Increases are made only for support of the institution or improvement of the activity program of the students; **therefore the University must reserve the right to increase or modify fees and expenses without prior notice but with approval of the Board of Trustees of State Institutions of Higher Learning.**

Fees and expenses are in the form of general tuition, room and board, and special fees.

General Tuition

This fee, together with the allocation from the legislative appropriation, is used for general support of the University. Athletic activities and UAC programs are not included for part-time students.

Full-time students for purposes of assessing fees are those who take nine (9) or more semester hours in Graduate School and twelve (12) or more semester hours in all other colleges during fall and spring semesters. During summer terms, seven (7) or more semester hours for Graduate School and nine (9) or more semester hours in all other colleges constitute full-time students for purposes of assessing fees. Undergraduate students enrolled for more than nineteen (19) semester hours during fall and spring semesters and for more than fourteen (14) semester hours during the summer term will be assessed the applicable fee for each additional semester hour. Graduate students enrolled for more than thirteen (13) semester hours during fall and spring semesters and for more than fourteen (14) semester hours during the summer term will be assessed the applicable fee for each additional semester hour.

Clinical and hospital services covered by the health service charge included in the general tuition fee are limited to cases of ordinary illness. Services are provided within the limits of the professional, technical, and physical resources of the Clinic. The University does not assume responsibility in cases of extended illness or for treatment of chronic diseases. Cases requiring surgery must be handled by a physician and hospital of the student's choice and at the student's expense.

Board

Board fees are assessed to all students living in the residence halls and fraternity houses. Board is available to all other students on an optional basis. Students may choose from a seven-day or five-day meal plan. Students with a basic meal plan may dine at the Commons, Elam Arms, Hillcrest, and occasionally at Seymour's. Every meal includes unlimited seconds and unlimited use of the beverage and salad bars. Commuter and Snack meal plans are also available.

Telephone Service

Telephone service in residence halls and family student housing is provided through the Communications Resources Department. The cost of local telephone service is included as a part of housing rent. For long distance service, students may use the University's system by completing an application at the Campus Telephone Office, Hub Building, Room 104. Long distance telephone authorization and a caller identification number will then be issued. Students must have been issued a university post office box prior to obtaining a caller identification number. Long distance calls are billed to the student at the end of each month, to be paid no later than the 10th of the following month. Students are responsible for payment for any calls charged to their caller identification number, and all charges must be settled prior to leaving the University (including graduation, withdrawal, and semester breaks).

Post Office Box

The post office box rental fee is assessed to all students living in University-controlled housing. Fees are assessed on an academic year basis and are calculated on time remaining in the academic year. The fee covers box rental for the remainder of the academic year provided the student remains enrolled. Those students living off campus may rent a post office box if they so desire.

Student ID Cards

The ID card is a PERMANENT card for each student. The Fall Semester (permanent) ID card will also be used for Spring and Summer Semesters each year by revalidation. The same card must be kept, re-validated and used even when returning from a previous year or semester. Do not destroy, lose, bend or tamper with an ID card. Only one card will be issued at no charge during a five (5) year period. A fee of \$10.00 will be charged at the time a replacement card is made.

Other Financial Information

Payment of Fees

One-half of a student's total fees are due and payable at time of registration. Students with University loans, grants, or scholarships may use those funds as payment for the first half of total fees. Loans, grants, scholarships and checks made payable to the University must be applied to fees in full before a refund or change can be given. Fees deferred past the last day to register each term will be billed monthly. A monthly service charge of 1.5% will be applied to the unpaid balance.

The University accepts payment by check, money order, cash, Visa and Mastercard credit cards. The University reserves the right to refuse payment by check where an individual has previously given a check that has been returned.

The University reserves the right to withhold readmission of a student until all delinquent accounts have been paid. In fact, all past due accounts will be included on registration fee invoices and monthly bills. Transcripts of credits will not be issued for students whose accounts are delinquent. All fees must be paid before a degree will be awarded. Payments by personal check on delinquent accounts will be sent for collection before transcripts or degrees will be released. To avoid any delay in receiving these documents, payments can be made by cash, cashier's check, or money order.

Fines accumulated as a result of failure to adhere to the established procedures of the University, such as Library and Public Safety regulations, or any other policy establishing regulations for the protection of University property, shall become collectable by the Business Office, and, if not collected, shall constitute a delinquent account.

A fee of \$50.00 will be assessed students who register during the late registration period.

Students whose checks for registration fees are returned will be assessed the late registration fee of \$50.00 in addition to the \$30.00 returned check handling fee. Returned checks not promptly paid may result in dismissal from the University.

The \$15.00 activity fee assessed to part-time students consists of a non-refundable \$5.00 fee allocated to registration expenses, a \$6.00 allocation to the Payne Center, a \$2.00 allocation for transcripts, a \$1.00 allocation to the University Union, and a \$1.00 allocation to the Cook Library.

Courses requiring special fees and music fees are shown in the Special Fee listing and are indicated by a plus sign in the Course Description Section of this Bulletin.

Appeals for refunds due to extenuating circumstances may be made in writing to: Business Services, Box 5133, Hattiesburg, MS 39406-5133. Appeals must be received prior to the end of the academic year.

Students who participate in SFA (Student Financial Assistance) programs have additional calculations. These calculations are made on a withdrawal worksheet. This form utilizes a comparison of USM refund policy to a Federal Refund Policy. The larger refund calculation will be used.

Federal Refund Policy mandates the percentage of institutional charges that must be refunded as follows:

- √ Withdrawal on the first day of class—100% refund of institutional charges (less the permitted administrative fee of the lesser of \$100.00 or 5% of institutional charges)
- √ Withdrawal from after the first day of class through the first 10% of the enrollment period—90% refund of institutional charges
- √ Withdrawal from after the first 10% of the enrollment period through the first 25% of the enrollment period—50% refund of institutional charges
- √ Withdrawal from after the first 25% of the enrollment period through the first 50% of the enrollment period—25% refund of institutional charges

Pro Rata Refund is calculated when both of the following conditions apply:

- √ The student is a first-time student
- √ The student withdrew on or before the 60% point in time of the enrollment period for which he or she was charged

There is no comparison to a USM refund calculation or Federal Refund calculation when these conditions exist. This calculation is made on the withdrawal worksheet. Under a pro rata refund, the school must refund an amount proportional to the portion of the enrollment period that was not completed by the student. This “portion that remains” percentage is calculated based on the following formula and may be rounded down to the nearest 10%.

$$\frac{\text{Weeks Remaining}}{\text{Total Weeks in Period}}$$

Examples of these refunds can be found at the Business Office in the Accounts Receivable Department.

Application Deadline

To receive full consideration, all required information and documents must be received by March 15. Late applications will be accepted and considered as funds permit.

Types of Financial Aid Programs Available

The Financial Aid Office has the responsibility of administering major areas of financial assistance. These areas will be listed in three categories—loans, grants and scholarships, and student employment. Further information may be obtained by contacting the Financial Aid Office.

A. Loans

1. Federal Perkins Loan Program

The Federal Perkins Loan Program is for students who are enrolled fulltime in a participating post-secondary institution and who need a loan to meet their educational expenses.

Repayment begins nine months after graduation or leaving school for other reasons. Students may be allowed up to ten (10) years to pay back the loan. During the repayment period five (5) percent interest is charged on the unpaid balance of the loan principal.

There are loan cancellation provisions for borrowers who go into certain fields.

2. Chester P. Freeman Loan Fund

Established in 1981, this fund assists needy students to meet their tuition, fees, and book costs to attend USM. The loan is repayable beginning one year after graduation or leaving the University. The interest rate during repayment is three (3) percent simple interest.

3. Federal Stafford Loan

Federal Stafford Loans are low-interest loans made to students attending school at least half-time. Loans are made by a lender such as a bank, credit union, or savings and loan association. These loans are insured by a guaranty agency and reinsured by the federal government. This loan must be repaid.

Students can qualify for a Federal Stafford Loan based on financial need or regardless of need — that is, regardless of their or their family's income. It is possible for a student to have a Federal Stafford Loan partly based on financial need and partly not based on need.

Undergraduate students can borrow up to \$2,625, \$3,500, or \$5,500 per year depending on their year in college and eligibility. Graduate students can borrow up to \$8,500 per year depending on eligibility. Independent students may be eligible to borrow more.

Payments normally begin six (6) months after graduation or when the borrower ceases to be at least a half-time student, and students may be allowed up to ten (10) years to repay the loan. In most cases students must pay at least \$600 a year unless circumstances agreed upon with the lending institution warrant a lesser amount. Repayment may be deferred if the student borrower returns to school.

B. Grants

1. Federal Pell Grants.

The Federal Pell Grant Program makes funds available to eligible students attending approved colleges, community/junior colleges, vocational schools, technical institutes, hospital schools of nursing, and other post-high school institutions.

Students may apply for a Federal Pell Grant if they are first time undergraduate students.

The amount of the award is based on the determination of eligibility and the cost of attendance at the school. The grants range from \$400 to \$2,700.

2. Federal Supplemental Educational Opportunity Grants (SEOG)

The Federal Supplemental Educational Opportunity Grant Program is for students of exceptional financial need who, without the grant, would be unable to continue their education.

Students must be enrolled full-time as a first-time undergraduate. Graduate students are not eligible.

3. State Student Incentive Grant (SSIG)

The State of Mississippi through a matching grant program with the Federal Government provides grants to full-time undergraduate students who are residents of the State of Mississippi. Recipients must demonstrate substantial financial need and show academic promise. Grants may range from \$200 to \$1,500 per academic year. Selection of recipients is made by the Financial Aid Office.

4. University Scholarships (These scholarships are subject to change without notice.) The following awards are available to entering students and continuation is subject to satisfactory progress.

C. Student Employment

1. Federal Work-Study Program

The primary purpose of the Federal Work-Study program is to stimulate and promote part-time employment for students. The program also seeks to encourage students receiving Federal student financial assistance to participate in community service activities that will benefit the community and the nation. The program is designed for those students who are in need of earnings to pursue their course of study at USM. Primary consideration is given to students with the greatest financial need.

2. Student Employment On-Campus

The University also employs students who are not eligible to receive Federal work-study. Jobs are posted as they become available. Contact the Student Employment Office, Kennard-Washington Hall, for additional information.

3. Student Employment Off-Campus

The Student Employment Office makes available many types of off-campus part-time jobs with businesses in the surrounding area. Referrals are made on an individual basis to jobs matching the students' qualifications and schedule.

D. Other

1. ROTC Scholarship Program

See the Military Science and Aerospace Studies sections of this Bulletin for information on two-year, three-year, and four-year ROTC scholarships.

2. Marine Officer Programs

Qualified students may apply for an officer program leading to a commission as a Second Lieutenant in the United States Marine Corps. Commissions are offered in both ground and aviation components. The Platoon Leaders Course (PLC) is offered to freshmen, sophomores, and juniors who attend precommissioning training during the summer. Financial assistance and Flight Indoctrination Programs are available. Qualified seniors attend twelve weeks of training in the Officer Candidate Course (OCC) after graduation. For details, contact the Placement Officer or the Marine Officer Selection Officer when he is on campus.

Satisfactory Academic Progress Policy

In order to receive and maintain federal financial assistance, students are required to progress satisfactorily toward completion of their course of study. Federal financial assistance includes grants, student loans, and employment. Satisfactory Academic Progress is measured primarily in three ways:

1. students must progress qualitatively by earning the required minimum grade point average,
2. students must progress quantitatively by completing the required minimum number of credits each semester or term, and
3. students must complete their program of study within a reasonable time period.

Qualitative Measure

The Financial Aid Office strictly adheres to the academic standards presently established by The University of Southern Mississippi and printed in the current University **Bulletin**. Students who have attempted up to a total of 16 semester hours must earn a 1.5 cumulative grade point average. Students who have attempted up to a total of 32 semester hours must earn a 1.75 cumulative grade point average. Students who have attempted 33 or more total hours must earn and maintain a 2.00 cumulative grade point average. Total hours attempted will include credit taken at the University and any credit transferred from another institution. Grade point averages, however, are based solely upon credits earned while enrolled at USM. Minimum acceptable academic standards are also represented in the following table:

Total Hours attempted (Including Transfer Credit)	Minimum Cumulative GPA Required (USM work only)
0-16	1.50
17-32	1.75
33 and above	2.00

If a student does not attain the minimum grade point average, she or he is placed on financial aid probation at the end of the academic semester or term. A student may be placed on financial aid probation for failure to meet minimum academic progress requirements for up to a total of three semesters

or terms. Should the student fail to attain the minimum acceptable grade point average for total hours attempted for a fourth semester or term, the student will be placed on financial aid suspension.

A student placed on financial aid suspension is ineligible for any federally funded financial aid programs until she or he returns his or her grade point average to the minimum required level.

Quantitative Measure

Students receiving financial aid must also complete a minimum number of credits each semester or term. The following minimums have been established.

Undergraduate: At the end of each semester during which aid is received, undergraduate students taking six (6) or more hours must pass a minimum of six (6) semester hours. Undergraduate students enrolled during a summer term must pass at least four (4) semester hours.

Graduate: Graduate students must pass at least four (4) hours each semester. Graduate students enrolled during a summer term must pass at least three (3) semester hours.

Passing grades include A, B, C, D, E, and P. Students failing to meet this quantitative measure of academic progress will be placed on financial aid probation. A student may be placed on financial aid probation for failure to meet minimum academic progress requirements for up to three semesters or terms. Should the student fail to complete the minimum number of credits for a fourth semester or term, the student will be placed on financial aid suspension and will be ineligible for federal financial assistance.

Maximum Length of Time to Complete Course of Study

Students must complete degree requirements within a normal time frame, and the following maximums have been established.

Undergraduate: A first time undergraduate student shall be deemed in good standing and eligible to receive federal financial aid until she or he has attempted 133% of the number of hours normally required to complete degree requirements, usually 170 hours. Attempted hours shall include *all* courses on the academic transcript including grades of A, B, C, D, E, F, P, I, X, W, and N. The Financial Aid Office shall review the Programmed Academic Computer Evaluation (PACE) sheet of those students wishing to receive financial assistance beyond the 170 hour ceiling. Students will be granted additional financial assistance only for courses included on the PACE sheet until the student attempts up to 150% of the number of hours normally required to complete degree requirements, usually 192 hours.

Graduate: Graduate students shall be deemed in good standing and eligible to receive federal financial assistance until they have attempted twice the number of hours normally required to complete their program of study leading to a master's or doctoral degree.

Second Degree Undergraduate: Students who have already earned a baccalaureate degree and are now seeking a second undergraduate degree will be eligible to receive federal financial assistance for up to 206 undergraduate hours attempted. Students who have attempted more than 170 hours must present a Programmed Academic Computer Evaluation sheet (PACE) to the Financial Aid Office for review. Students will be granted additional financial assistance only for courses included on the PACE sheet until the student attempts up to 206 hours.

Second Degree Graduate: Graduate students pursuing an additional Master's degree will be limited to a maximum of 120 graduate hours. This total includes all graduate hours accumulated. Once a student earns a specialist degree he/she shall be eligible for additional financial assistance only at the doctoral level; once a student earns a doctoral degree he/she shall be ineligible for additional federal financial assistance.

Additional Policies

Enrollment Status

Students receiving Federal Perkins Loan, Federal Work-Study, Federal Supplemental Grant, and Federal Pell Grant are expected to maintain the enrollment status on which their financial aid was based. For example, students awarded financial aid as full-time students are expected to complete the semester or term and earn satisfactory grades on a full-time course load. Students failing to maintain the enrollment status their financial aid award was based on shall be granted probation for up to three

semesters or terms. Students failing to remain full-time a fourth semester or term shall be placed on financial aid suspension and shall be ineligible for additional federal financial assistance until they enroll at least half-time at their own expense, complete all courses, and earn the minimum required grade point average.

Transfer Students

Students transferring into the University shall be assumed to be maintaining satisfactory academic progress. Hours transferred from prior schools will be considered when establishing class standing for grade requirements, as well as when determining the maximum number of hours allowed to receive financial aid.

Remedial Courses

The University's policy on remedial courses is currently being revised. Please contact the Financial Aid Office for current details.

Audit Courses

Courses taken for audit do not count for credit or graduation and, therefore, are not counted in determining eligibility for receiving or maintaining financial aid.

Repeats

A limit of two (2) courses or a total of six (6) semester hours will be permitted as repeats without affecting financial aid eligibility.

Cooperative Education

Students are not considered as enrolled for credit hours during the terms they are employed and therefore are ineligible to receive financial assistance. Co-op students are, however, considered enrolled for purposes of deferring prior loans during periods of co-op.

Simultaneous Measurement

Academic transcripts of financial aid recipients will be reviewed at the end of each semester or term to insure that the student simultaneously meets all the minimum Satisfactory Academic Policy requirements stated above. Students are eligible for a grand total of three probationary periods throughout their enrollment.

Appeals

Students who have their aid suspended because they have exceeded the maximum length of time allowed to meet degree requirements may appeal that suspension ONLY for one of the following reasons:

The student is enrolled in a course of study that normally requires more than 128 semester hours to complete.

The student has military or vocational (not technical) hours on their academic transcript that are not included in their program of study.

The student has attempted less than 192 hours in a course of study that normally requires 128 hours to complete.

The student is seeking a second undergraduate degree and has attempted less than 206 semester hours.

Students who have their aid suspended may appeal that suspension ONLY for one of the following reasons:

Death of an immediate family member. Immediate family member includes parent, spouse, sibling, or dependent child.

The extended illness of the student. Extended illness is defined as a documented chronic or recurring medical or emotional illness that causes the student to be absent from class at least ten class days.

The extended illness of an immediate family member that places a hardship on the student. Immediate family member includes parent, spouse, sibling, or dependent child.

Students should request a Financial Aid Appeal Form from the Financial Aid Office and submit it along with all supporting documentation to:

Appeals will be evaluated by the Financial Aid Office, and students will be notified of their eligibility or ineligibility for continued financial assistance.

Students whose appeals are denied by the Financial Aid Office must enroll at USM at least half time until they have removed the deficiency that caused them to be placed on financial aid suspension.

Refunds

Students withdrawing from the University during the refund period who receive federal financial aid must return a portion of any refund to the financial aid programs from which aid was disbursed. The method of returning funds to financial aid programs shall be calculated using the current federal financial aid refund policy in conjunction with the University Refund Policy.

Repayment

When students receive cash above their direct educational expenses (tuition, fees, books, University board and room), they are expected to use those funds to meet non-institutional education costs. Should a student withdraw during the University refund period, the student must return that portion of any cash disbursement that could not have reasonably been used to meet educational expenses. The portion that must be returned is a repayment. The University's Repayment Policy coincides with the applicable federal and University refund policy.

The University of Southern Mississippi Foundation Scholarships

The University of Southern Mississippi Foundation is a non-profit organization that functions as the depository and fiduciary of private gifts to The University of Southern Mississippi. The University of Southern Mississippi Foundation is charged with the responsibility of raising necessary funds to support the academic programs. Overall guidance and policies for the Foundation are determined by a Board of Directors composed of alumni and friends of the University.

Programs designed to raise funds for the academic programs include:

Annual Fund
Eagle Club
Honor Club
Planned Giving
Corporate and Foundation Support

These programs encourage support, in the form of private donations, for academic and athletic scholarships.

The primary role of the Foundation is to support the University in its role of teaching, research and service. The assistance takes many forms including scholarships, library support, professorships, faculty chairs, equipment, etc.

Scholarships receive the largest share of annual expenditures. They are awarded according to the guidelines agreed upon by both the donor and the Foundation. While the Foundation receives and manages the funds, the awarding of scholarships is made by University Scholarship Committees in cooperation with the Financial Aid Office. The Student Community and Campus Life

Department of Residence Life

The Department of Residence Life feels very strongly that the educational benefits for residence hall students extend far beyond the classroom experience. Every effort is made to offer on-campus students the opportunity to take part in cultural, scholastic, athletic, and social programs developed by the residence hall staff. In addition, residence hall students experience cross-cultural living experiences which help promote open-mindedness, tolerance, and leadership—a philosophical goal of Residence Life.

All **residence halls** are fully air conditioned with the capacity of offering diversified housing options to an on-campus population of 3,420 students. Elam Arms-South, Hillcrest and Mississippi for women, and Elam Arms-North, Hattiesburg, and Vann for men, are arranged in suite fashion with 4-6 students sharing a bath. Bolton, Hickman, Jones, Pulley, Scott, and Wilber (Panhellenic) for women, and Bond and Roberts for men, are arranged with baths conveniently located on each floor.

Application for campus housing should be made at the time of application to the University. The priority deadline for residence hall space is March 1. Applications received after March 1 will be processed based on space availability. Assignment of a student to a residence hall is incomplete until full prepayment and a signed rental agreement have been received by the Department of Residence Life by the stated deadline. Although preferences are honored when possible, the application is for accommodation in the residence hall and not for a specific roommate or specific hall. Upperclass assignments are made based on date of application into specific halls. Freshman assignments are made based on date of application into random freshman residence halls.

Cancellation of the rental agreement can be made in cases of marriage, graduation, withdrawal, co-opping, student teaching, or interning. Notification of cancellation must be made in writing by the designated deadlines. Cancellations received after the deadlines will result in forfeiture of the entire prepayment amount. Students who have not cancelled by their designated deadline and are planning to enroll at the University with paid prepayment and signed contracts will be held to the terms and conditions of the academic year residence hall rental agreement.

Applications for campus housing should be mailed to:

Department of Residence Life
Box 5064
Hattiesburg, MS 39406-5064

The Department of Residence Life accepts applications for housing assignments regardless of age, race, creed, color, or national origin. In compliance with the Civil Rights Act of 1964 and University policy, housing assignments will not be made on a segregated basis.

Pine Haven Apartments, consisting of two hundred and ninety-six (296) one-two-and three bedroom unfurnished units, are available for married students and single and married students with custody of children. Apartment priority is based on the date of application and/or occupancy.

The rent is due and payable at registration. Students obligate themselves to the full fee for one semester's rent when they move in, unless they withdraw from the University. A deposit of \$75.00 is required at the time of application. Refund of rent due to withdrawal from the University is followed according to the University tuition refund schedule. Cancellation of the rental agreement must be made forty-five (45) days prior to the semester of cancellation. Notification of cancellation after the deadline obligates students to payment of rent for the following semester if enrolled, or forfeiture of deposit if not enrolled. Applications and brochures may be secured at the Pine Haven Office or by writing the Department of Residence Life.

Food Services

The Department of Food Services serves tasty and nutritious meals seven days a week during all school terms. Choices include: two entrees, assorted vegetables and desserts, and self-service salad and drink bars. In addition, a lite line, a deli-line, and a variety line are offered in the University Commons. Dining services are also available in Hillcrest and Elam Arms. Students on a 5-Day or 7-Day Basic Meal Plan may choose where to dine on a meal to meal basis.

ALL STUDENTS LIVING IN A RESIDENCE HALL ARE REQUIRED TO PURCHASE A 5-DAY OR A 7-DAY BASIC MEAL PLAN.

A Snack Plan may be added to a Basic Meal Plan. It may be used at Seymour's, I Can't Believe It's Yogurt and Java Coast Coffees, Seymour's Plaza Express, and Seymour's Atrium Cafe. The Snack Plan may also be used to supplement a 5-Day Basic Plan and allows for occasional weekend meals in the Commons.

Seymour's, I Can't Believe It's Yogurt and Java Coast Coffees, Seymour's Plaza Express, and Seymour's Atrium Cafe offer a variety of snacks, short orders, and beverages. Purchases at these establishments are a la carte.

A Commuter Plan is available for off-campus students. This plan operates much like a checking account. Each time a purchase is made, the amount of the purchase is deducted from the balance. With a Commuter Plan, meals at the Commons, Elam Arms, and Hillcrest are purchased at a discounted price. The Commuter Plan may be used in all the dining facilities on campus.

All meal plans may be purchased during registration or at the Food Services office located in the Commons.

Meal Ticket Exemptions

Meal ticket exemptions are allowed only for those students with modified diets which cannot be prepared by the University Food Services and for those students with internships which conflict with cafeteria serving hours. Those students who may qualify for an exemption should make arrangements for an evaluation **PRIOR TO REGISTRATION**. However, those not arranging for an evaluation prior to registration should go to the Food Services Office in the University Commons after registering for classes. Those students who have not completed the requirements for a meal ticket exemption prior to registration will be charged for a meal ticket during the registration process. As a result of the extensive serving hours in the University Commons, work-related exemptions will not be permitted.

Medical Exemptions

Those students with a medical problem requiring a modified diet who feel their needs cannot be met by the University Food Services should make arrangements to have their diet evaluated by the registered dietician before registration. Documentation required for this evaluation includes a prescription signed by a physician which specifies the student's modified diet and a copy of the modified diet. The University Commons offers a special diet program or weight watchers. The line caters to weight watchers as well as to those students with medical problems which require special diets.

Academic Related Exemptions

Requirements:

A student must miss a minimum of fifty percent of meals served per week. The meals missed must be due to an internship.

Documentation Required:

1. A statement, on letterhead stationery, signed by the student's adviser, giving the student's hours, on a daily basis, Monday through Friday.
2. A copy of the student's Advisement and Registration Appointment Form which shows the student's class schedule.

Work Related Exemptions

University Policy DOES NOT allow for meal ticket exemptions for students holding part-time or full-time employment.

University Facilities and Student Services

Automobiles on Campus

Students, employees, and frequent visitors of the University are required to purchase parking permits to register their automobiles with the University Police Department. Temporary permits are issued when a vehicle is to be on the campus less than fourteen days. Parking zones have been established along with other regulations. A brochure which details traffic and parking regulations may be secured from the University Police Department. Penalties are assessed for violations of regulations.

Career Planning and Placement

Career Planning and Placement offers a variety of services and resources related to employment. The **Student Employment Division** offers the student an opportunity to obtain part-time employment while enrolled as a regular student at USM. The service is comprehensive in that it involves jobs for work-study as well as non-work-study both on and off campus.

The **Cooperative Education Program** affords the student the opportunity to gain a complete education with periods of work related to the student's major. The Cooperative Education Office assists in securing meaningful jobs that will give the student practical work experience and financial support to aid in his or her education. The basic qualifications for the undergraduate Co-op Programs are as follows:

1. The student must maintain at least a 2.50 GPA.
2. The student must have completed 28 semester hours.
3. The student must be enrolled full-time at USM.
4. The student must be in good standing with the University.

The Office of Cooperative Education will determine the eligibility of students to participate in the program. Each student's record of performance will be periodically reviewed once an active participant, and he or she may be placed on probation or removed from the program when failing to meet minimum requirements.

The **Placement Center** provides assistance to graduating seniors, graduates, and alumni in obtaining career employment after graduation. Students seeking career employment should register with the Placement Center by purchasing a Disc Resume during the last semester of their junior year or the first semester of their senior year. The Disc Resume allows students access to an employer data base and resources useful in beginning a job search. In addition, students are included in a data base allowing employers to tailor searches for prospective employees. The Placement Center refers resumes and other materials to prospective employers. The system provides the flexibility for students to update their files as often as necessary and to generate a resume meeting specific criteria of a given job opening. Placement services may be used by graduates as often as needed and files are kept active for five years. If there is no activity related to the file for a five year period, files are purged from the system.

The Career Center

The Career Center offers individuals assistance in the process of examining and exploring career opportunities. The following services are available:

Accommodations/services available include test-taking accommodations, interpreters, note-takers, and readers. In order to receive appropriate and timely accommodations, eligible students should contact the OSS before the semester begins to file an application and submit documentation of disability for review. The OSS is committed to creating a positive campus environment where students with disabilities are encouraged to pursue careers on the basis of personal interest and ability.

For an application and guidelines for documentation of disability, write the Office of Support Services for Students with Disabilities, Box 8586, The University of Southern Mississippi, Hattiesburg, MS 39406-8586 or call (601) 266-5024 or TTY (601) 266-6837 or FAX (601) 266-6035.

University Counseling Center

The purpose of the University Counseling Center is to assist each individual in deriving maximum benefit from his or her University experience and developing his or her full range of potentialities. The following professional counseling services are provided: personal, social, and marital.

Students interested in dealing with some aspects of personal or social development should feel free to contact the Center for an appointment. Everything that is said during a counseling interview is regarded as confidential. No information is released to any individual except with the approval of the student.

Besides assisting students on an individual basis, the Center provides group study skills training to enable students to handle their academic pursuits better. How to organize study time, how to take notes, and how to take examinations are a few of the topics covered.

The Center provides growth experiences for students. Primary goals of these experiences are developing the student's ability to communicate and enhancing his or her skills in interpersonal relationships. The goal, therefore, is to provide students a chance to obtain insight into their own behavior and the behavior of others in the context of a group experience.

The Center staff is available to work with campus groups in providing leadership or communication training. The primary goals of these groups are to improve leadership abilities and to enhance the communication function in organized group activity.

The Center also serves as the University testing center. Tests given include college entrance exams and professional tests (i.e., ACT, GRE, GMAT, GSFLT, DAT, MCAT, and LSAT). For the convenience of the students, application forms for these tests are available in this office.

The Center is located in Room 200, Student Services Building. It is open from 8:00 AM to 5:00 PM, Monday through Friday. Any person who is enrolled or expects to enroll as a student may use the services without charge. Spouses of students often use the Center. In order to make an appointment, a student may come by the Center or call (601) 266-4829 or write to:

Veterans Affairs

Veterans Affairs are administered through the Office of the University Registrar. Assistance is given to veterans and dependents of eligible veterans to enable them to derive the maximum benefit from their veterans' educational entitlement.

General Academic Information

Registration

Students should pre-register each semester at the designated time using the touch-tone registration system, **S.T.A.R.S.** Specific directions are published in the *Class Schedule Guide*.

Registration will continue after the close of the scheduled registration period (see Calendar) for five class days.

A late registration fee will be charged to all students registering after the scheduled registration period. The fee is fifty dollars (\$50.00).

Add/Drop/Withdrawal

A student is permitted to drop a course without academic penalty up to and including approved dates published in the *Class Schedule Guide*. After the deadline, a student may drop a course only in the event of extenuating circumstances and with permission of the instructor, department chair, and dean of the college offering the course, at which time the student will receive a grade of **WP** or **WF**.

A student is permitted to add a course after the deadline of five class days with the permission of the instructor, department chair, and dean of the college offering the course. However, a student will not be allowed to add a course after the last day to drop without academic penalty as published in the *Class Schedule Guide*.

A student withdrawing from the University prior to the deadline for dropping classes will not receive any grades. His or her record will show the date of withdrawal only. A student withdrawing after the deadline for dropping courses will receive a grade of **WP** or a grade of **WF**.

Withdrawal Procedures

A student finding it necessary to withdraw from the University must begin the process with the dean of his or her college who shall initiate the Withdrawal and Refund Authorization Form. A student who is undecided on a major must begin the process in the dean's office of the College of Liberal Arts where the Withdrawal and Refund Authorization Form will be initiated. **The telephone registration system (S.T.A.R.S.) may not be utilized to withdraw.**

Refund Policy

The withdrawal deadline for receipt of a grade has nothing to do with the refund schedule for fees. A student who officially withdraws after enrollment may obtain a refund in accordance with the refund.

Appeals for refunds due to extenuating circumstances may be made in writing to:

Vice President for Business and Finance
The University of Southern Mississippi
Box 5005
Hattiesburg, MS 39406-5005

Enrollment Status

Full Time Status: The typical student load is twelve (12) to nineteen (19) semester hours. Nine (9) to fourteen (14) hours is considered a full load during the summer session. Nineteen (19) hours is the maximum load without dean of college approval.

Classification of Undergraduates: A student is classified as a: Freshman when he or she has less than 27 semester hours of earned credit; Sophomore with as many as 27 semester hours but less than 54 semester hours; Junior with as many as 54 hours but less than 87 hours; Senior with 87 or more semester hours of earned credit.

Course Numbering: Freshman courses are numbered from 100 to 199; sophomore courses from 200 to 299; upper division courses from 300 to 499; graduate courses 500 or above. Courses taken by independent study will carry the prefix C. Honors courses carry the prefix H.

Course Sequence and Related Sequences: Certain 100- and 200-level courses may not be taken for credit by a student after he or she has completed higher level courses in the same subject area. Also, certain sequences of courses may not be taken for credit after a student has completed parallel courses which are similar in subject matter. Specific applications of this policy are indicated in the numbered course descriptions in the Course Description Section of this Bulletin. Selection of the courses, as well as exceptions to the policy, is left to the department chairs.

Absences

Students are expected to attend class each time the class meets. When it is necessary that a student be absent from a class, courtesy requires an explanation to the instructor in charge. Class attendance policy will be set by the professor. It will be the responsibility of each professor to notify his or her class at the outset of each semester as to the attendance requirements.

Final Examinations

Examinations will be held as published in the *Class Schedule Guide*. No final examinations are permitted prior to the scheduled examination period (see Calendar). A student who is absent from the final examination without valid reason approved by the Office of the Provost forfeits credit for the semester.

Grades

- A — indicates excellent work and carries 4 quality points per semester hour.
- B — indicates good work and carries 3 quality points per semester hour.
- C — indicates average work and carries 2 quality points per semester hour.
- D — indicates inferior work and carries 1 quality point per semester hour.
- E — indicates a course in progress. Not included in the grade point average, a grade of E shall be awarded for graduate thesis, recital and dissertation courses and for such self-paced or skill courses as the Academic and/or Graduate Council may designate. An E shall be changed to a P only in the case of credit for thesis and dissertation and then only for the last recorded credit for these courses. Otherwise, the E remains on the record indicating that to receive credit the student must re-register for the undergraduate course, repeating it on a regular basis until completing it. Upon completion, the appropriate grade, whether P or valuatve, shall be assigned.
- F — indicates failure and carries no quality points.
- I — indicates that a student was unable to complete course requirements by the end of the term because of extraordinary circumstances beyond his or her control. Poor performance or unexplained absences are not a justification for the assignment of an I. If an I has not been removed by the end of the next semester (excluding summer term), it automatically becomes an F. Students are prohibited from enrolling in any course for which the current grade is I.
- AW—indicates administrative withdrawal.
- WP—indicates withdrawal from a course passing after the deadline for dropping courses.
- WF—indicates withdrawal from a course failing after the deadline for dropping courses. (This grade is computed in the GPA as F.)
- P — indicates a passing grade in courses taken on a pass-fail basis (does not count in computing GPA).

Pass/Fail Grading Option

Students may choose to take elective courses on a pass-fail basis. The option must be exercised at the time of registration, and the option may not be altered after the deadline for adding courses. No more than thirty-six (36) semester hours earned in independent study or pass-fail courses, with a limit of eighteen (18) semester hours of pass-fail courses, may be applied toward a degree. No more than twelve (12) semester hours earned from the same department by independent study or pass-fail courses may be applied toward a degree. A student may not take a course on a pass-fail basis to repeat a course for the purpose of improving the grade point average or to remove an **Incomplete**. Such courses cannot be a part of a prescribed degree program, i.e., core requirements, major, or minor. A failing grade in a pass-fail course is recorded as F and is computed in the grade point average in the same manner as other failing grades.

Auditing Courses

A student who takes a course for audit (non-credit) must meet the class in the same manner as a student regularly enrolled. Although no credit is awarded, a student who meets the instructor's requirements for a successful audit will receive an appropriate entry on his or her official record. The instructor has the right to remove a student from the final grade roster for non-attendance. The credit option (audit to credit or credit to audit) may not be changed after the deadline for adding courses. **The fee for audit is the same as if registered for credit.**

Computation of Grade Point Averages

Grade point averages are based on the number of hours undertaken rather than the number of hours passed in determining whether a student meets minimum standards. The total hours attempted, for suspension purposes, will include credit undertaken at the University and credit transferred; the grade point average will involve only credit for courses attempted at The University of Southern Mississippi.

Courses in which a student receives an **E** will not be counted in the "total hours attempted."

An undergraduate student will be permitted to **repeat courses** a total of two (2) times or a total of six (6) semester hours in order to improve his or her grade-point average. (That is, he or she may repeat one, three-hour course twice; or two, three-hour courses once each.) This policy covers all repeats at all institutions attended. The first two (2) repeats used shall stand. The grade for the second attempt will be used in grade point average calculations. This policy is limited to courses in which a student initially earned a grade of D or F, but does not apply to courses for which a grade was assigned for reasons of academic dishonesty. Courses must be retaken at The University of Southern Mississippi. Students are free to retake additional courses, but all attempts will be included in the calculation of the grade point average. Exceptions to this policy must be approved by the Provost.

Grade Review Policy

The instructor (defined as one who has the responsibility for a class, special problem, or thesis) has the authority in his or her class over all matters affecting the conduct of the class, including the assignment of grades. Student performance should be evaluated according to academic criteria made available to all students within the first two weeks of each semester. Grades should not be determined in an arbitrary or capricious manner.

When a student disagrees with the final grade given by an instructor, fair play requires the opportunity for an orderly appellate procedure. A student must initiate the appeal procedure within 30 school days (excluding Saturday, Sunday, and official student holidays) of the beginning of the semester subsequent to the one in which the grade was awarded, or 120 calendar days after the issuance of spring semester grades, should the student not be enrolled during the summer term. The procedure assures due process for both the instructor and student. For policies and procedures governing grade review, contact the dean of the appropriate college or the Office of the Provost.

Administrative Withdrawal

A university transcript is a legal document that provides a true and accurate account of academic performance. Any alternation of the history of academic performance as reported by a university transcript should be done only if there is an obvious rationale for doing so.

On rare occasions, academic performance is severely affected by some emotional or personal disaster beyond the control of the student. If a timely withdrawal was impossible or overlooked, a procedure known as **administrative withdrawal** may offer a remedy.

A student who wishes to petition for an administrative withdrawal should be aware of the following **criteria** in considering the request.

- a. The student's academic record under review indicates a clear and consistent pattern of good academic performance prior to and subsequent to the semester in question
- b. The problem encountered by the student is debilitating and beyond his or her control.
- c. The student is able to document the nature and extent of the problem

The following **guidelines** pertain to a petition for administrative withdrawal.

- a. A petition for administrative withdrawal will be considered only if it is filed prior to graduation.

- b. Relief by administrative withdrawal will be limited to one semester.
- c. The grade of administrative withdrawal (“AW”) will be assigned to all courses taken during the semester in question.
- d. Administrative withdrawal must be approved by the dean of the college in which the student is enrolled when he or she initiates the petition. A student may request administrative withdrawal only once during his or her academic career and that request must be limited to one particular semester.

A **petition** for administrative withdrawal must contain the following.

- a. A concise but thorough statement of the circumstances responsible for the poor academic performance.
- b. Evidence (e.g., a medical diagnosis) supporting claims made in the statement.
- c. A complete set of official transcripts exhibiting all college-level course work.

Petitions for administrative withdrawal will be acted on within five working days after receipt by the dean of the college in which the student is currently enrolled.

Dean’s List

Students will be placed on the Dean’s List if they have earned a grade point average of 3.25 or above on a minimum academic load of twelve (12) semester hours or more during fall or spring, nine (9) or more during summer, provided they have no grade of **D** or below (includes **F** or **I**). Courses taken for pass-fail credit will not be used in computing the minimum academic load.

President’s List

Students will be placed on the President’s List if they have earned a grade point average of 4.0 (all A’s) on a load of twelve (12) semester hours or more during fall or spring, nine (9) or more during summer, provided they have no grades of **I**. Courses taken for pass-fail credit will not be used in computing the minimum academic load.

Academic Standards

An undergraduate student will be allowed to continue in the University as long as the cumulative grade point average (GPA) indicated in the following scale is maintained. A higher minimum allowable GPA is sometimes specified by specific colleges within the University. In such cases, the more stringent requirements supersede those which follow.

Total Hours Attempted (Including transfer credit)	Minimum Cumulative GPA Required (USM work only)
0 - 16	1.50
17 - 32	1.75
33 and above	2.00

Total hours attempted will include credit taken at the University and any credit which might have been transferred. Courses in which a student has received an I, E, or Pass-Fail credit will not be counted in the total hours attempted. The GPA will be computed based only upon credits earned at USM.

Probation

If a student does not attain the minimum cumulative GPA as indicated above, he/she is placed on academic probation at the end of the term. Academic probation will be removed when the student attains the acceptable cumulative GPA as shown above. Otherwise, he/she will be placed on academic probation continued for as long as he/she earns at least a 2.00 average per term. Students placed on academic probation continued may not enroll for the next semester without the prior written approval of the dean of his/her college. Attaining the minimum cumulative required GPA will clear all suspension categories. The first term a student does not earn at least a 2.00 average while on academic probation continued, he/she will be suspended by the University.

Suspension

A student placed on academic suspension may not enroll in any college or university without prior written approval of the dean of his/her college. Any credits earned contrary to this policy will not count toward graduation requirements. After one semester a student may be readmitted with prior written approval of the dean of his/her college. A student readmitted following academic suspension must earn a GPA of at least 2.25 each semester or attain the required cumulative GPA. A student read-

mitted after academic suspension who fails to attain the required GPA will be suspended for two regular semesters.

Readmission after the required suspension period requires reinstatement through an appeal process established by the dean of the college in which the student was enrolled as a major. Probationary status does not require an appeal for reinstatement. Notice of academic probation, academic probation continued, or suspension will be shown on the end-of-term grade report. Any exceptions to the suspension policy must be approved by the Office of the Provost.

Academic Honesty

When cheating is discovered, the faculty member may give the student an F on the work involved or in the course. If further disciplinary action is deemed appropriate, the student should be reported to the Dean of Students.

In addition to being a violation of academic honesty, cheating violates the Code of Student Conduct and may be grounds for probation, suspension, and/or expulsion.

Students on disciplinary suspension may not enroll in any courses offered by The University of Southern Mississippi.

Transcripts

An official transcript is the reproduction of a complete, unabridged permanent academic record validated with the University seal, facsimile signature of the Registrar, and date of issue. A Key to Transcript is included which contains a full statement of pertinent definitions. Currently enrolled as well as former undergraduate and graduate students may obtain an official transcript by writing the Office of the University Registrar, Box 5006, Hattiesburg, Mississippi 39406-5006. Transcripts are not released when there is an indebtedness to the University.

Change of Major

Any student wishing to change his or her major within a college must secure the approval of the dean. A student wishing to transfer from one college of the University to another must make application to and be approved by the dean of the college he or she wishes to enter.

Credit by Examination

The University of Southern Mississippi will allow students to earn credit by examination under one or more of the following programs up to a total of thirty (30) semester hours.

Credit earned through the use of the examination will be included in the sixty-four (64) hours "Limitation of Transfer Credits" rule and may not be used to meet the thirty-two (32) hours on-campus requirement.

College Level Examination Program: General Examination. The University of Southern Mississippi will allow credit by examination to those students who have participated in the College Level Examination Program and who have achieved a scaled score of 500 or above (610 in English through April, 1986). Credit will be restricted to students who have been out of high school for at least three (3) years. It will be the responsibility of the Office of Admissions to determine a person's eligibility to receive credit. A student who has earned over thirty (30) semester hours of college credit may not earn additional credit through the use of this examination. Credit appearing on another institution's transcript will be accepted for credit only if it meets the same guidelines as those required for USM students. Credit will be granted for successful completion of the examination in the following manner.

CLEP General Examination	Course Equivalent	Semester Hours
English Composition.....	ENG 101, 102.....	6
Social Science.....	History.....	3
	Social Sci. Elective	3
Humanities.....	AA 100.....	3

TOTAL		24

Credit will be awarded for each area in which the student receives a scaled score of 500 or above.

Academic Information
Credit by Exam

College Level Examination Program: Subject Area Examination. A student of any age who has not earned college-level credit in the subject area in which he or she seeks credit can take a CLEP subject-area examination for advanced placement and college credit. However, in the case of foreign languages, students may earn college credit by taking the CLEP examination at the elementary or intermediate levels of Spanish, French, or German, regardless of whether the student has earned previous college level credit in that language by course work. For more details concerning foreign language CLEP credit, see Department of Foreign Languages and Literatures section of this bulletin. Credit will be awarded for a scaled score of 50 or above (a range score of 40-80 is allowed for all foreign language tests). The optional essay is required for all English examinations. The appropriate department at USM will have final determination in the amount of credit to be awarded based on the optional essay. Under this program, students are restricted to a maximum of thirty (30) semester hours, with not more than eight (8) hours or two (2) courses in one subject-matter area, except in the case of foreign languages where students may earn up to twelve (12) hours of credit or four (4) courses in a single language. (It is understood that the thirty (30) hour total includes all credit earned by examination.) The adoption of the CLEP standardized examination will preclude the use of departmental examinations except in those areas where CLEP examinations are not available. The Office of Admissions will be charged with responsibility for determining student's eligibility to earn credit through these examinations. Credit appearing on another institution's transcript will be accepted for credit only if it meets the same guidelines as those required for USM students.

Additional information, applications, and CLEP Bulletins may be secured from the Office of Admissions, Room 212, Kennard-Washington Hall, or by writing Box 5166, Hattiesburg, MS 39406-5166.

Advanced Placement Program: Students from cooperating high schools can earn up to twenty (20) hours with no more than eight (8) hours or two (2) courses in one subject-matter area through the College Board's Advanced Placement Testing Program. Through the 1986 AP Testing year, a score of 3 or 4 will yield three (3) hours credit; a grade of 5 will yield six (6) hours credit. Beginning with the 1987 AP Tests, a score of 2 or 3 will yield three (3) hours credit, and a score of 4 or 5 will yield six (6) hours credit. Departments may require higher scores. (For the AP Biology test only, a score of 3 or below will receive no credit; a score of 4 or above will receive eight (8) hours of credit). The awarding of credit will be administered by the Office of Admissions.

Challenge Examination: Under the following policy, and with the approval of the Office of the Provost, departments may grant credit by examination in lieu of class enrollment for courses where no CLEP subject area examination is offered.

- i. The student must be currently enrolled or must be a former student of the University.
- ii. The examination must be given by the department through which the course is offered.
- iii. The student must make application to the chair of the department who should be assured that the student has had some formal or informal learning experience which has prepared the student for the examination.
- iv. If approval is granted, the department chair sends a memorandum by the student to the Office of the University Registrar giving the student permission to register for the course(s) on an arranged basis. The memorandum should include the student's name and Social Security Number, the course number(s), semester and year, semester hours of credit, and the name of the instructor.
- v. The student should complete registration procedures and present the registration invoice to the department chair. (NOTE: The \$10.00 per semester hour fee is assessed above and beyond any additional course-related fees paid for the term.)
- vi. The instructor of record will receive a regular grade roster at the end of the term for recording the final grade.

Validation of Previously Earned Credit (Nursing)

Under the following policy, and with approval of the Office of the Provost, certain academic departments may allow a student to re-validate credit acquired through previous study in order to apply the credit to a current degree program.

- a. The student must be currently enrolled or must be a former student of the University.
- b. NCLEX RN Licensure Exam will be used to validate previously earned nursing credit.
- c. On the successful completion of NSG 403, the student will register for the courses on an arranged basis.

Summary of Types and Limitations of Credit Usage

The following is a summary of the limitations placed on credit usage:

- a. Sixty-four (64) semester hours through a combination of credit by examination, independent study, and Armed Forces experiences.
- b. Thirty-two (32) semester hours by independent study (including USAFI); nine (9) semester hours in any one field.

General Degree Requirements

Choice of Catalog

Graduation requirements must be met under a catalog which is not more than six years old at the time of the student's graduation (exclude the current year's catalog in counting the six) and which carries announcements for a year during which the student earned some credit at The University of Southern Mississippi or another accredited institution of higher learning, including community/junior colleges.

Hour Requirements

An applicant for a degree must complete a minimum of 128 semester hours, including core requirements and major and minor requirements. Not more than nine (9) semester hours in physical education activity courses, and not more than four (4) semester hours credit in any one varsity sport may be used in meeting total hour requirements for a degree. Courses in dance are excluded from this limitation. Of the total of 128 semester hours, sixty-four (64) must be earned in a senior college, and forty-five (45) of the sixty-four (64) must be in courses numbered 300 or above.

Grade Point Requirement

A student must earn a grade point average of at least 2.0 (an average grade of C) based on all courses taken at The University of Southern Mississippi. A passing grade in a pass-fail course is recorded as P and carries credit toward graduation. However, a grade of P does not carry any quality points and is not used in computing grade point average. A failing grade in a pass-fail course is recorded as F and is computed in the grade point average in the same manner as other failing grades.

Residence Hour Requirements

To become eligible for a bachelor's degree at The University of Southern Mississippi, a student must:

- a. earn his or her last thirty-two (32) semester hours at The University of Southern Mississippi, of which twelve (12) semester hours must be in upper-division courses in his or her major. This policy applies to all students, including transfer students from other colleges and universities and those students at USM, Gulf Park. The transfer student must meet the quality point requirements for work undertaken on the Hattiesburg Campus that apply to all the regular students;
- b. earn at least twelve (12) semester hours of the bachelor's program on the campus from which the degree will be awarded; (*Special Note: The College of Business Administration requires 50% of all business courses required for the B.S.B.A. to be completed at USM.*)
- c. earn at least twelve (12) semester hours of resident credit in the major field of study at one of the campuses of the University;
- d. recognize the limitation on Independent Study Courses: A long-standing regulation provides that students will not be permitted to do independent study while in residence. Students not attending the University during the summer session are not considered to be in residence and may enroll in independent study courses without prior approval; however, they should consult with their faculty adviser for assistance in course selections. Exceptions to this regulation can only be made with the approval of the appropriate dean and the Vice President for Academic Affairs. If a student takes an independent study course during the last semester of attendance, he or she may not register for an independent study course after leaving the campus with the expectation of completing requirements for his or her degree.

Hour and Quality Point Requirements for Pre-Professional Degrees

University of Southern Mississippi students may be allowed to complete degree requirements for the Bachelor of Science or the Bachelor of Arts degree in professional, accredited schools of medicine, medical technology, dentistry, or law on the following conditions:

- a. that (90) hours of credit and 180 quality points shall have been completed, with a minimum of two semesters and thirty (30) semester hours of residence at the University of Southern Mississippi;
- b. that all core requirements for the degree shall have been completed;
- c. that credit and quality points shall be transferred back to the University of Southern Mississippi from the accredited school of medicine, dentistry, medical technology, or law to complete requirements for the degree. A minimum of one year's work must be transferred. In any case, a minimum of 128 semester hours must be completed before the degree can be awarded.

- d. that the program leading to the degree shall be completed within two calendar years of the termination of the last semester of residence at the University of Southern Mississippi.

General Education Curriculum

The purpose of the General Education Curriculum is two-fold: to give all University students a common cultural experience and to extend this shared experience over a wide enough range of skills and major disciplines so that the individual student may gain a better perspective of his or her own special abilities and interests.

It is the purpose of the degree programs in the upper-level colleges to build upon the common core experience in guiding students toward majors and minors which will reflect their individual capacities and life aims.

The General Education Curriculum, common to all degree programs, is itemized below.

In 1983 the Academic Council of the University embarked on a major revision of the basic curriculum required of all undergraduate students. The result of these deliberations was the General Education Curriculum (Core), as adopted in March, 1985, and effective in the Fall Semester, 1985-86. The Curriculum is subject to annual review by the Academic Council.

Each of the schools and colleges within the University has modified the General Education Curriculum in a manner befitting its own discipline. The full range of courses listed here is not applicable to all majors. Accordingly, students should consult the appropriate sections of the **Bulletin** detailing the individual college curricula.

The baccalaureate degree programs of The University of Southern Mississippi have two major curricular components: the General Education requirement and the more specialized major requirement. For the major field requirement, see no. 9 below. The underlying purpose of the General Education requirement is to provide intellectual breadth in the student's undergraduate education through an informed acquaintance with the fundamental branches of learning outside the student's field of specialization. The focus of general education is on the acquisition and integration of relevant knowledge; the development of intellectual skills of learning; and the enlargement and refinement of ideas, values, and aesthetic appreciations. A concomitant purpose is thereby served for many students by enabling them to refine and clarify their notions of which major might best suit their interests and talents.

General education serves as a necessary complement to specialized study by providing balance and allowing specialization to occur within a broader intellectual context. Together with program electives and study in depth in a major field, the General Education Curriculum provides a solid and shared base of general, liberal, and humanistic education for all students.

The General Education Curriculum comprises forty-six (46) credit hours divided among five categories. In addition students should complete at least three (3) hours of electives from Categories I, II and/or III. These hours may come from one category or from any combination of two or more categories, but no more than three (3) hours of electives may be from any one discipline.

The objectives of each of the five categories are as follows:

- I. Reasoning and Communications Skills:** To develop the skills necessary to locate, examine, and process information critically; to read with understanding; to listen with attention and memory; to express ideas cogently and fluently in oral and written forms; to understand the ways in which written and spoken messages influence the attitudes and behavior of others; to think critically and to reason mathematically and logically; and to handle analytic and quantitative ideas in both abstract and specific contexts.
- II. Humanities and Fine Arts:** To understand and appreciate how man gives artistic and literary expression to his version of and experience with the world; to know the seminal ideas and events that have shaped the course of western and non-western civilizations; to recognize and treat with sympathetic historical understanding the major concerns of the contemporary world; and to develop the capacity to make discriminating moral and ethical judgments.
- III. Social and Behavioral Sciences:** To acquire some understanding of the perspectives, concepts, and analytical techniques of modern social societies and cultures; to examine the social institutions in contemporary society—how they work and how they affect human behavior; to appreciate the physical, intellectual, emotional, social, and moral development of mankind; to analyze interpersonal relationships and group processes; and to understand the methods by which we gain and apply knowledge of society to ourselves.
- IV. Natural and Applied Sciences:** To acquire knowledge and understanding of basic concepts, principles, theories, and interrelationships of the natural sciences; to understand mathematical and experimental methods of sciences as a way of thinking, inquiring, and acting; to appreciate the complex interrelationship between science and its applications and human affairs; to recognize other forms of life with which we share the planet earth; and to acknowledge the fundamentally limited resources which the earth offers, both of materials for use and of receptacles for waste.

V. Human Wellness: To understand and apply conceptual knowledge of nutrition, health, and fitness in the development and maintenance of human wellness; and to understand the value of reducing the risk of physical and psychological disorders.

Honors courses may be substituted for University Core courses at the discretion of the academic dean of the student's program and the dean of the Honors College for those students who qualify to enroll in such courses.

Requests for exemptions and substitutions for the requirements of the General Education Curriculum should be addressed to the Provost through the department chair and college dean.

Exemption from a General Core Course Requirement

A student may be granted a personal exemption from a University core course if he or she is able to demonstrate mastery of the course material. The latter can be achieved for any core course in one of the following three ways. The student may have taken an equivalent course through the College Entrance Examinations Board's Advanced Placement Testing Program before entering USM or may pass an appropriate CLEP examination or a departmental challenge examination on the relevant course material. The detailed procedures and regulations regarding these three methods of obtaining up to thirty hours credit toward a degree at USM are described in Section 15 of the General Academic Regulations of the University in this Bulletin.

Requests for exemptions and substitutions for the requirements of the General Education Curriculum should be addressed to the Provost.

Major Field Requirements

All graduates of USM are required to complete specialized study in a single discipline, which the student elects as his or her "major." The major serves two main purposes: it provides intellectual depth in the student's undergraduate education through concentrated study in his or her chosen field; and it gives the student the fundamental knowledge necessary to practice professionally and/or pursue advanced study in that field. Because of the varying demands of the many disciplines, specific requirements for each major are determined by the faculty of the appropriate discipline. Generally, the student must complete a set number of hours in the discipline, usually one-quarter to one-half of the total hours required for a degree, and must maintain the minimum University G.P.A. for these major courses (see no. 11 below). Other requirements may include: the completion of specified courses, course sequences, and/or course distributions; the completion of a concentration or emphasis (further specified coursework, producing greater specialization) within the major; the completion of a minor in another discipline; the maintenance of a higher discipline-designated G.P.A. for all or part of the major courses; juried or public performances; field work, teaching practice, and other training programs; and any other course, standard, or training which, in the opinion of the discipline's faculty, is necessary to achieve the purposes of the major field requirement. The student should consult the appropriate description and PACE Degree Plan in this [Bulletin](#) for information on each discipline's requirements for a major.

Minor Field Requirements

In addition to the major, the student may (or, if required by his or her major program, must) also choose a minor field of specialization. The minimum hours required for a minor are eighteen semester hours, in which the student must maintain the minimum University G.P.A. for minor courses (see no. 11 below). The specific requirements for each discipline's minor are indicated in the appropriate description in this [Bulletin](#). Since advisement for the minor is conducted by the minor discipline, the student should consult with the faculty of the minor discipline.

Grade Point Requirement for the Major and Minor

A student must have a grade point average of at least 2.0 (C) in the major field and in the minor field on courses taken at The University of Southern Mississippi.

A transfer student's work done in the major and minor fields in another institution must average at least 2.0 to be applicable toward the major and minor requirements at The University of Southern Mississippi. If the transferred work does not average at least a C, the student must remove any deficiencies in that part of the major and minor credit being transferred. Transferred deficiencies may be removed by: (a) repeating at The University of Southern Mississippi a sufficient number of courses on which grades of **D** were transferred and, thereby, raising the grades in those courses to the level required for a C average or (b) striking from the transferred transcript courses in the major or minor field with grades of **D** and taking additional courses in the major or minor at the upper division level to meet the University's degree requirements.

Application for Degree

A student is expected to file an application for a degree one (1) semester before degree requirements are completed, and an application will be accepted no later than the published deadline (see Calendar). This application filed with the Office of the University Registrar will show the work completed by the student and the courses planned for the ensuing semester. Filing in advance of the proposed graduation date will allow time for checking the application and also allow the student time for making up deficiencies found in the degree program. Each student has final responsibility to ascertain that he or she has complied with all applicable catalogue requirements for graduation. Faculty advisers assist students in developing their programs, but these advisers cannot, of their own accord, waive or vary degree requirements as they appear in the University Bulletin. After the application has been approved by the academic department, it becomes the student's official degree program. Students graduating in the Honors College must submit the Honors College Attachment to the Application for Degree.

No application for degree will be accepted until the degree fee has been paid at the Business Office. Application forms may be obtained in the college office of the dean.

Programmed Academic Curriculum Evaluation (PACE)

From the point of advisement in the academic department through the filing of the application for a degree, the University utilizes PACE, a Programmed Academic Curriculum Evaluation system. Each semester the student's record (transcript) is evaluated by the computer to verify progress toward completion of the degree in his or her declared major. PACE Degree Plans are discussed in the narrative for each department within this Bulletin.

Degrees with Honors

Students with exceptional academic records may be awarded degrees with honors or highest honors. A degree with honors will be granted to a student who maintains a grade point average of 3.5 or more. A degree with highest honors will be granted to a student who maintains a grade point average of 3.8 or more. Graduation with Latin designations will be granted to students who complete the requirements for Senior Honors in the Honors College. As an alternative to Senior Honors, graduation **cum laude** will be granted to students who meet the following stipulations: (a) the satisfactory completion of a comprehensive examination in the major field, such examination to be designed and administered by the department involved; (b) the satisfactory completion of a senior project resulting in a written report on that project meeting guidelines based on those presently in effect for Senior Honors projects; (c) notice of intent to meet these requirements must be filed with the department chair/school director at least one calendar year prior to graduation; and (d) an overall grade point average of 3.25 to 3.49. Graduation **magna cum laude** will be granted to students who meet the following stipulations: (a), (b), and (c) above, and (d) an overall grade point average of 3.50-3.79. Graduation **summa cum laude** requires (a), (b), (c), and (d) an overall grade point average of 3.80 or above.

Second Baccalaureate Degree

Students who have earned a baccalaureate degree may be granted by The University of Southern Mississippi a second baccalaureate degree based upon requirements of an applicable catalog, provided the program for the second degree includes at least thirty-two (32) semester hours in residence with at least sixty-four (64) quality points (equivalent to a 2.0 average on a 4.0 scale). The actual number of hours to be taken which may exceed thirty-two (32) as well as the specific degree requirements will be established by the academic department responsible for the area of study in which the second baccalaureate is sought. In all cases, a 2.0 grade point average is required. The thirty-two (32) semester hours must be related to a specific major separate from the first major, and the thirty-two (32) semester hours must be completed after the first degree has been conferred.

Academic Organization

Organization For Instruction

For purposes of undergraduate instruction, The University of Southern Mississippi is organized into the College of The Arts, the College of Business Administration, the College of Education and Psychology, the College of Health and Human Sciences, the College of International and Continuing Education, the College of Liberal Arts, the College of Science and Technology, the Institute of Marine Sciences, the Honors College, and USM Gulf Coast.

Due to current program reviews, changes may occur in individual major requirements. Please check with the department chair for current degree requirements.

College of The Arts

Peter Alexander, Dean
Hattiesburg, MS 39406-5031
(601) 266-4984

The primary purpose of the College of The Arts is to provide its students with a well-rounded preparation for professional and teaching careers in one of the many branches of art, music, dance, or theatre. In addition, it seeks to provide opportunities for students in all departments of the University to participate in artistic activities and develop an awareness of cultural values. To achieve its purposes, the College of The Arts offers courses of study centered around a core of theoretical, historical, and other academic subjects, as well as performance activities that are designed to develop artistic ability and general cultural awareness.

Organization

The College of The Arts is organized into the School of Music, the Department of Art, and the Department of Theatre and Dance. Baccalaureate majors are available in Art, Art Education, Music, Music Education, Dance, and Theatre. Undergraduate minors are available in Art, Dance, Music, and Theatre. An Allied Arts course, which is designed to introduce the arts in an integrated manner, is taught by teams of instructors drawn from each department of the College. This course is one of several which fulfill the University's core requirements for fine arts.

Since curricular requirements vary for each major, students desiring degrees from the College of The Arts should follow the courses outlined under each department.

Students majoring in elementary education who wish to emphasize areas in fine arts, please see "Areas of Concentration for Elementary Certification."

Wood, Wooton, York, Zaninelli

The University of Southern Mississippi School of Music is a fully-accredited member of the National Association of Schools of Music. Requirements are in accordance with the published regulations of this Association.

Students electing to take applied lessons not required for specific degree programs are required to pay an additional fee. (See Special Fees and Expenses.)

There are two undergraduate majors available to students in the School of Music, a major in Music or in Music Education. Emphasis areas in music are: Church Music, Jazz Studies, Music History and Literature, Performance (Organ, Percussion, Piano, Strings, Guitar, Voice, and Wind Instruments), Composition, and Music Industry. Music Education emphasis areas are: Instrumental and Choral (with plans for singers, keyboardists, guitarists, and elementary school teachers).

Major Ensemble Requirement

Every music or music education degree requires participation in the same major ensemble for the equivalent of eight consecutive semesters, excluding summers; music education majors who graduate within eight semesters are excused from meeting one semester of this eight-semester requirement. Students who transfer to USM will receive one semester of ensemble credit for each semester of participation in an ensemble at their previous institution(s); a maximum of four semesters of credit will be granted. Students who do not have the proper number of terms of registration for the correct major performing ensemble will not be allowed to graduate.

Major performing ensembles are band (excepting summer band), orchestra, and chorus (excepting summer chorus and MUP 486). Jazz lab band satisfies the requirement only for students pursuing the BM degree with emphasis in jazz. For students whose degree plan requires a chorus, assignment to the proper major performing chorus is made by the director of choral activities.

The approval of the School Director must be obtained for any exceptions to the major performing ensemble requirement as stated above.

Advisory Auditions and Approval of Concentration

Every potential music major is required to take placement examinations in music theory and piano prior to the first term of enrollment as a music major. A decision to approve/not approve one's major instrument/voice must be made before the student completes 26 hours. For transfer students, the decision will be made before the end of the first semester of matriculation at USM.

Recital Attendance Requirements

Recital Class is an official class for one (1) hour credit. Music and Music Education majors are required to register for Recital Class (MUP* 299 or 499) and receive a grade of "P" (Passing) each semester for a minimum of eight consecutive semesters, if the student completes degree requirements within eight (8) semesters of full-time enrollment. This requirement will be waived for the semester a student is registered for MED 493. Transfer students receive one semester of recital credit for each semester of full-time work completed at other colleges; the maximum number of semesters that can be credited to any transfer student is four.

*Applied Music courses have the designation MUP, i.e., Musical Performance Studies.

Jury Policy

Music majors and music minors enrolled in MUP Private Lessons in their principal applied area must perform a jury for appropriate applied faculty. All others enrolled in MUP Private Lessons must perform a final examination for the applied teacher. At the finish of each semester and summer term, the applied teacher must complete a "Final Jury/Examination Form" for each student and file it with the Academic Adviser. Students enrolled in applied music who do not take a final examination or a jury will receive the grade "I" or "F." The applied teacher must record and submit any exception to this policy to the Academic Adviser; signatures of all appropriate area faculty must be included on this form.

Emphasis: Church Music

The curriculum in Church Music is designed to provide a thorough and complete course of training for those who intend to pursue church music as a full-time profession. Special emphasis is placed on literature to be used in the church services. Students will not be enrolled for organ until satisfactory proficiency at the piano has been demonstrated.

Students seeking the Church Music Emphasis in the Bachelor of Music Degree must concentrate in one applied music emphasis, either voice, organ or piano. The major emphasis must be studied for a minimum of eight semesters and include twenty semester hours of credit. The student will present a full recital (MUP 470), open to the public, that is graded "Satisfactory" by the appropriate area.

Emphasis: Music Composition

This emphasis is designed to prepare the student for teaching theory and composition and writing and arranging music of serious intent. Various steps in the preparation of music from the preliminary sketch to the published composition are included.

Emphasis: Music History and Literature

The curriculum in Music History and Literature is planned for those who intend ultimately to teach musicology on the college level or for those who desire careers in music librarianship, music journalism, music publishing, or the recording industry— fields in which a wide and comprehensive knowledge of music history and literature is essential.

The student in music history and literature will receive a strong foundation not only in his or her chosen field but also in theory and in academic subjects which will enrich the student's cultural background.

During the final semesters of matriculation, the student must enroll in MUS 492-Special Problems (3 hrs.) for an independent study that culminates in a senior thesis. The exact nature of the thesis will be decided by the student and the musicology faculty of the School of Music. The thesis project should reflect significant individual effort that involves library or field research. The project must conform to scholarly procedures accepted within the discipline. Prospectus: No later than one semester prior to graduation, a prospectus acceptable to the thesis adviser must be submitted.

Emphasis: Jazz

Half recital required. Recital must be approved by major instrument professor and Director of Jazz Studies.

Emphasis: Music Industry

The aim of the Bachelor of Music degree with an emphasis in Music Industry is to prepare undergraduates for positions in the music industry.

The plan of courses meets the University's general education requirements and the School of Music's expectations for the degree Bachelor of Music. In addition, it provides the opportunity for career-training by allowing one to choose a plan of directed electives that will prepare him/her for a job in a music industry field. These twenty-four to twenty-seven hours of directed electives, along with required courses in Music Industry, will train students for employment in Merchandising, Music Management, Film and Video, Video and Audio, Public Relations, or Advertising.

No matter which group of directed electives is chosen, 112-115 hours of the required 136-142 hours in the degree are the same for all who emphasize Music Industry.

In addition to completing the usual four-year undergraduate program, the student must intern in the industry for a summer term or for a Fall or Spring semester.

Requirements for a Major in Music Education**(Bachelor of Music Education—BME)**

The curricula in music education are designed to prepare musicians who will teach in the public or private schools or teach privately. The emphases listed below are designed to provide a balance between music performance, music pedagogy, and general education. These curricula are fully-certified by the National Association of Schools of Music, and they satisfy teacher licensure requirements. To satisfy requirements in the State of Mississippi, students seeking the BME degree must earn a grade of C or better in all courses carrying the MED prefix and ENG 101 and ENG 102.

Criteria for Admission to Teacher Education Programs, Completion of Teacher Education Programs, forms, deadlines and procedures can be found in this BULLETIN under the heading COLLEGE OF EDUCATION AND PSYCHOLOGY.

Students seeking the Bachelor of Music Education degree must:

- a) make satisfactory progress with one concentrate (e.g., flute, voice) in at least seven (7) semesters of applied music study (summers are not included);
- b) present a half-recital (MUP 395), open to the public, that is graded "Satisfactory" by the appropriate faculty area.

Piano Competency

Music education majors (including transfer students) are required to pass the "USM Piano Competency Examination" before enrolling in Student Teaching. Piano competencies are developed through enrollment in a four-semester sequence of piano classes, applied lessons, or a combination of both.

Freshmen who matriculate with substantial piano backgrounds may begin private study immediately. Freshmen with limited experience in piano will be screened during their spring term, then begin class piano their sophomore year. Transfer students are encouraged to attempt the "USM Piano Competency Examination" prior to matriculation at USM (call 601-266-5363 for an appointment); testing and advising will also be conducted during the first week of classes each semester (including summer sessions) for those who are unable to arrange prior examinations.

A block of time will be scheduled during Juries each semester (including summer sessions) for "USM Piano Competency Examination" appointments. Exams are offered only at this time.

This program provides students with an opportunity to reduce the number of semesters in piano study. The "USM Piano Competency Examination" can be taken any time it is offered. Students are encouraged to pass the examination as soon as possible. Those who pass before they have registered for four hours of piano credit may use the remaining hours for further piano study or for elective credit. If proficiencies are not developed in pace with the class piano syllabus, the number of semesters will be increased. Credit hours accumulated is not a criterion for passing the "USM Piano Competency Examination."

Emphasis: Choral Music—Elementary Education

Students wishing to become Elementary School Music specialists should follow the curriculum for Instrumental, Keyboard, Guitar, or Vocal Emphasis with the following exception: MED 440 should replace MED 411 or 412 and MUS 456 should be added.

Mission

The College of Business Administration at the University of Southern Mississippi is committed to preparing students for careers in business and to assisting organizations in South Mississippi. Accordingly, our programs emphasize

- values conducive to personal and career development •
- the functions and environment of business •
- communication and critical-thinking •
- the global dimension of business •
- ethical decision-making. •

To fulfill our mission the College seeks a balanced and synergistic agenda of instruction, scholarly activity, and professional service.

Accreditation

Recognizing that the College of Business Administration has fulfilled accreditation requirements, the AACSB—The International Association for Management Education—has accredited all business programs offered on the Hattiesburg and Gulf Coast campuses. The School of Professional Accountancy has also achieved separate accreditation by AACSB.

Organization and Administration

Dean's Office

The Dean is the chief administrative officer of the College of Business Administration (CBA) and is responsible for all operations of the college. In the CBA Undergraduate Academic Services Office, the Manager oversees admissions to the CBA, recruitment, the advisement process, and degree applications. Students needing assistance should direct inquiries to the CBA Undergraduate Academic Services Office.

Academic Administrative Units

The academic administrative units that report to the Dean's Office are the School of Professional Accountancy, the Division of Business Administration-Gulf Coast, and the Departments of Economics and International Business, Management and MIS, and Marketing and Finance. A list of undergraduate academic offerings appears at the beginning of this section, while detailed information on curricula follows.

Student Procedures

Admission

High School graduates who have been admitted by the University and who wish to major in an area of business administration are concurrently admitted into the College of Business Administration. Transfer students are likewise admitted directly into the College upon admission to the University. Students who wish to transfer from another college within the University must have at least a 2.0 GPA overall as well as in all business courses. Application may be made to the CBA throughout the year,

but applications normally will not be processed during the final two weeks of a term. After admission to the College, students will be advised in the Undergraduate Academic Services.

Restrictions

The College of Business Administration imposes the following limitations on transfer credits:

1. Courses offered at the junior or senior level at The University of Southern Mississippi are not normally accepted in transfer from two-year institutions.
2. Not more than one-half of the College of Business Administration core curriculum plus requirements for the major is accepted in transfer.
3. Transfer courses designated as technical training courses, as well as developmental courses such as intermediate algebra, are not accepted as meeting degree requirements.
4. See additional restrictions on transfer credit under a following "Graduation Requirements" section.

In addition, there are the following restrictions for enrolling in courses offered by the College of Business Administration:

1. At least junior standing (54 hours completed) is required of all students enrolling in College of Business Administration courses numbered 300 or above.
2. College of Business Administration majors must have completed the following twenty-three (23) hours with a minimum GPA of 2.00 prior to beginning their junior-level business courses: ACC 200, ECO 201/202, ENG 101/102, MAT 101/102, and MIS 201/202.
3. Students majoring in degree programs outside of the College of Business Administration may not take more than 30 credit hours of Business Administration courses (including transfer credit) without being admitted to the College.
4. Students are not normally allowed to be dually enrolled at USM and another institution. Students must obtain approval from the Manager of CBA Undergraduate Academic Services prior to dual enrollment. The dual enrollment policy includes independent study courses as well.
5. CBA courses offered through independent study are primarily for non degree seeking students. Therefore, CBA majors are generally not allowed to take independent study courses to satisfy degree requirements.
6. For restrictions on using the pass/fail option, refer to the section of this Bulletin on "General Academic Regulations."
7. Students desiring to transfer additional courses for degree requirements after attending USM are encouraged to obtain prior approval of transfer work from the Manager of Undergraduate Academic Services.

Changes of Major

College of Business Administration students who wish to change to another business major can do so by completing a "Change of Major" form in the CBA Undergraduate Academic Services Office. The academic areas involved are notified so that advisement files can be transferred.

Students who desire to transfer to a degree program outside the College of Business Administration must first be accepted by the college offering the program. Applications for admission to the new program are processed in the dean's office of the college which grants the degree. The academic areas involved are notified so that advisement records can be transferred.

Advisement

Students are advised in Undergraduate Academic Services where their advisement records are maintained. Prior to registration, if necessary, an adviser can help arrange a schedule of classes for the upcoming semester. An early advisement and registration period is scheduled near the middle of each semester. Students with a probationary status must see an adviser.

Probation and Suspension

University regulations regarding probation and suspension are listed in this Bulletin under “General Academic Regulations.” College of Business Administration students who do not meet University grade point requirements are placed on probation or suspended. Students with a probationary status must see an adviser for academic counseling.

Students who are suspended are not allowed to take classes for at least one fall or spring semester. Anyone who earns college credit elsewhere while on academic suspension from the College of Business Administration may not apply these credits toward graduation requirements in the CBA. After one semester, suspended students may submit an application for reinstatement to the College of Business Administration. The CBA Suspension Committee reviews these applications and academic records to determine whether students are to be readmitted.

Graduation Requirements

To graduate, students must meet all prescribed course requirements shown on their PACE sheets. Information about the procedures for filing an “Application for Degree” are available in the CBA Undergraduate Academic Services Office. Students should be aware of the following degree requirements:

1. A minimum of sixty-four (64) hours of course work must be taken in a senior college.
2. A maximum of six (6) approved hours from study-abroad programs may be used in meeting degree requirements.
3. Special restrictions apply to correspondence and extension credits, to credit by examination, to challenge examinations and special problem courses. Students who are interested in these possibilities must obtain prior approval from the CBA Undergraduate Academic Services Office to assure that credits are applicable toward a College of Business Administration degree.
4. To receive a Bachelor of Science in Business Administration degree from the College of Business Administration, students must complete their last thirty-two (32) hours of course work, including MGT 400 and at least twelve hours in the major at USM. Independent study courses may not be taken during the last 32 hours.
5. Of all required business course work taken, at least 50 percent (34 hours) must be completed at USM.
6. Of all required course work, a minimum of 50 percent must be non-business courses.
7. In addition to meeting all course work requirements, students must have a 2.0 grade point average (1) overall, (2) in the College of Business Administration core, and (3) in the major. Transfer students also must meet the foregoing grade point average requirements for all courses taken at USM and must also have a 2.0 average for all attempted college course work.

Double majors within the College of Business Administration must be carefully planned since students must complete a minimum of 21 hours in each emphasis. Therefore, a student who wishes to pursue a double major must have such a course of study approved by the Manager of CBA Undergraduate Academic Services Office.

CBA majors may elect to pursue a minor in an area outside the College. Prior to completing seventy credit hours, students who wish to pursue such minors must request the approval of the Manager of CBA Undergraduate Academic Services Office. CBA minors normally are offered only to students pursuing a degree outside the College of Business Administration. Double minors within the CBA also must be carefully planned since courses in each minor may not overlap.

Students who wish to complete a second baccalaureate degree in the CBA must request a “Change of Major” and have a program of study approved by the Manager of CBA Undergraduate Academic Services and the department chair. Students must complete a minimum of 32 hours in order to receive a second baccalaureate degree.

Placement

The University maintains a central Placement Center which assists College of Business Administration students in locating employment following graduation. Students are expected to establish a file with the Placement Center at least two semesters prior to graduation in order to qualify for interviews with prospective employers.

Student Organizations

There are several professional and honorary societies for business students who are interested in sharing common interests or who have achieved high academic standing. These societies include the following organizations: the American Production and Inventory Control Society; Association of Information Technology Professionals; Beta Alpha Psi, national scholastic and professional accounting fraternity; Beta Gamma Sigma, national scholastic honorary society for business students; Collegiate Chapter of the American Marketing Association; Epsilon Chi Omicron; Financial Management Association National Honor Society; Institute of Management Accountants, professional accounting fraternity; Collegiate Chapter of National Association of Business Economists, a professional economics organization; Omicron Delta Epsilon, national honorary society in economics; Phi Chi Theta, national professional business fraternities; Sigma Iota Epsilon, both an honorary and a professional fraternity; and the Society for the Advancement of Management (SAM). A representative from each of these organizations and other appointed students constitute the Business Student Advisory Council, which works with and advises the Dean on many student-related matters.

Financial Assistance

There are several scholarships designated for College of Business Administration students as well as other awards for which business students are eligible. Information concerning business scholarships can be obtained from the CBA Scholarship Committee. Inquiries regarding other forms of financial aid should be directed to the Director of Financial Aid, Box 5101, Hattiesburg, MS 39406-5101.

Graduate Studies

Undergraduate students who are considering applying for admission to graduate business degree programs should consult with Graduate Academic Services. Admission to graduate business programs at USM is based on several factors, including the undergraduate grade point average and the score on the Graduate Management Admission Test (GMAT).

Study Abroad in Business Administration

The College of Business Administration offers its students the opportunity to earn six (6) hours of approved credit toward their degrees while studying abroad. Business study-abroad courses may be substituted for the following requirements (maximum of 6 hours) subject to prior approval: (1) FL 401, (2) ECO 336, (3) ANT 221/GHY 341 or foreign language requirement, (4) up to 3 hours in the student's major, and (5) directed elective. These study-abroad programs are available during the summer semester at relatively low cost to the student.

Curriculum: First- and Second-Year Course Requirements for all College of Business Administration Majors

The business administration curriculum for the first two years consists primarily of non-business courses which provide intellectual breadth and thereby complement the specialized studies that follow in the junior and senior years.

Mission

The School of Professional Accountancy (SPA) is an academic unit within the College of Business Administration (CBA) at The University of Southern Mississippi and is committed to the mission of the CBA. Within this framework, the SPA has its own unique mission.

The primary objective of the SPA is to be a quality provider of undergraduate- and master's-level accounting education. The SPA strives to produce technically competent and broadly educated accounting graduates who are marketable. Graduates should be able to think critically and to communicate clearly. In addition, graduates should understand the ethical and global dimensions of accounting practice, and the necessity for life-long learning. The SPA is also committed to providing quality accounting education to other students to complement their chosen curricula. Therefore, as its first priority the SPA emphasizes excellent teaching in an environment of continuous curriculum development to ensure currency and relevance.

The SPA also acknowledges its responsibilities to the University, the CBA, the accounting profession, business and government enterprises, and taxpayers. The SPA strives to meet these responsibilities by providing appropriate services and by engaging in the scholarly pursuits of research and writing. These activities complement the primary teaching mission.

Undergraduate and Graduate Programs

The School of Professional Accountancy offers an undergraduate program which is designed to prepare students for a variety of entry-level positions in public accounting, industry, and government. The basic program is intended to prepare students for professional careers in which depth and breadth of business and accounting knowledge are required.

As the knowledge required to practice accounting is expanding rapidly, many students are finding it desirable to pursue a fifth year of study leading to a Master of Professional Accountancy (MPA). The Accounting major is integrated with the MPA program. Students who aspire to obtain professional certification should pursue this program. See the Graduate Bulletin for admission and curriculum requirements.

A grade of C or better in all Accounting courses is required for graduation.

The Economics major is designed to prepare students for positions in business, government, or education. For those who are interested in careers in international business, a major in economics with an emphasis in international business is also available. The courses comprising the major equip the student for the analysis of many of the economic problems and issues with which middle- and upper-level managers and administrators must deal. The four-year program provides the requisite skills for entry-level positions and the foundation for graduate study in economics or in areas such as law, public administration, and various business disciplines.

A Bachelor of Arts in Economics is also available through the College of Liberal Arts; see Department Chair for details.

Management

The programs of study in Management have three objectives: (1) to provide students with concepts, knowledge, and skills required in the effective management of profit-making enterprises, government institutions, and non-profit service organizations; (2) to prepare the student for employment which will lead to positions of managerial responsibility; and (3) to make education in general management available to students pursuing technical, educational, and professional careers.

Students interested in majoring in Management may elect to emphasize study in Management or Production/Operations Management. The Management emphasis stresses an overall view of the organization in which the student obtains a thorough knowledge of management concepts and techniques and develops executive skills necessary for effectiveness in the administrative world. The Production/Operations Management emphasis provides instruction in quantitative analysis, material handling, quality standards, and manufacturing resource planning.

Careers in management are available in industry, government, service organizations, and teaching. The students' education and training will, when coupled with additional maturity and experience, serve to further their careers in more responsible management positions such as production or plant manager, labor relations director, or personnel administrator.

Management Information Systems

This department also offers a major in Management Information Systems. The degree program is patterned after the Association of Information Technology Professionals (AITP) model for information systems education. Excellent career opportunities exist in management information systems for persons who have good academic records, are energetic and ambitious, and seek challenging work. The program is primarily oriented toward applications development and systems analysis work in the private and public sectors. Career opportunities also exist in computer training, computer sales, and microcomputer systems design and applications.

The objective of the Financial Information Systems emphasis is to provide students with a knowledge of the information function in an organization. This would include knowledge of standards and practices for acquisition of financial information, as well as the ability to select and implement technology to support this activity. A degree in Financial Information Systems provides those individuals desiring degrees in both information systems and accounting a degree alternative that contains study in both disciplines

Marketing

Marketing is a major concern of all businesses and a growing number of non-profit organizations. The goals of the marketing program are to: (1) prepare students for entry-level positions in marketing; (2) provide the background necessary to advance to higher-level marketing management positions; and (3) develop executive skills that are critical for success in all business occupations. It is necessary, therefore, that the student cultivate the abilities to: (1) think creatively; (2) solve problems; (3) communicate orally and in writing; and (4) understand interpersonal relations.

As quality, total customer satisfaction, and relationship management become the critical success factors in the global economy, marketing majors are positioned to take advantage of these opportunities. Some of the career options presented by these opportunities include advertising,

sales, retailing, purchasing, marketing research, public relations, product management, logistics, services marketing and non-profit marketing. Graduates have had particular success in locating jobs in the following industries: pharmaceutical, medical supplies and equipment, consumer products, and professional services. Since more than half of all American workers are employed in marketing-related fields, the marketing major can target numerous career choices in the commercial/industrial, institutional and government sectors. In addition, a marketing degree is excellent preparation for entrepreneurship and small business management.

Finance and Business Administration

Emphasis areas within the Finance major are offered in Banking and Finance, Insurance and Real Estate. Each curriculum stresses education in theory, tools of analysis, and problem-solving techniques that are fundamental to firms operating in the Finance, Insurance and Real Estate industries. Students choosing the Finance emphasis are prepared for careers with banks and other financial institutions, securities firms, large industrial corporations, as well as government agencies that oversee the financial sector. A grade of C or better is required in certain prerequisite courses before the student can progress to higher level Finance courses.

The Business Administration major is a broad, nonspecialized major which prepares students to begin careers in a wide range of businesses. It is designed for those students wishing to pursue business careers but who do not wish to specialize in one particular field of business.

**Secondary Teacher Education Programs
(Grades 7-12)**

Students seeking an undergraduate degree with licensure to teach at the secondary school level (Grades 7-12) must consult advisers in the college and department of the selected teaching field. Academic majors which provide for licensure in the various teaching fields, grades 7-12 are:

- | | |
|-------------------------------|-----------------------|
| Biology | History |
| Business Technology Education | Home Economics |
| Chemistry | Mathematics |

Requirements for Supplemental Endorsements

Mississippi’s standards for teacher licensure provide for supplemental endorsements to be added to standard teaching licenses. These endorsement areas require less extensive training than that required for standard teaching licenses. Supplemental endorsement areas include computer applications, English as a second language, driver education, health education, gifted education, occupational home economics, remedial reading, mild/moderate handicapped K-8, and mild/moderate handicapped 7-12.

Students pursuing undergraduate degrees with secondary teacher licensure are encouraged to take the additional courses necessary to qualify for endorsements in one or more of these areas.

Special Subject Area Teacher Education Programs (K-12)

Students pursuing undergraduate degrees with special subject area teacher licensure (Grades K-12) must complete the prescribed general education requirements of the appropriate school and/or college, and the education curriculum.

General Education Requirements

All students seeking undergraduate special area teacher licensure must complete the general education requirements of the College of Education and Psychology. A student receiving an undergraduate degree from a school or college other than the College of Education and Psychology must also satisfy the general education requirements of that school or college and the teacher education curriculum.

Students may not enroll for any of the Professional Teacher Education Curriculum courses until they have met all requirements for and have been admitted to the Teacher Education Program through the College of Education and Psychology Dean's office.

Requirements for a Major in a Special Subject Area

Majors (to include associated emphasis area) offered by the various colleges and schools of the University which provide for licensure in the various special subject area teaching fields are:

- Art Education
- Computer Education
- Dance Education
- Education of the Deaf
- Health Education
- Library Science
- Music Education
- Physical Education
- Special Education

For specific course and related requirements for a major associated with a special subject area of teacher licensure, the student should refer to the appropriate section of this Bulletin under the department offering the major.

Requirements for Non-Teaching Degrees

The College of Education and Psychology offers non-teaching major programs in the departments of Psychology and Technology Education. Both the majors in the Department of Psychology (psychology and social rehabilitation services) are non-teaching. In the Department of Technology Education, office administration is also a non-teaching major, leading to the Bachelor of Science degree. Students in psychology may take programs leading to the Bachelor of Arts degree.

Bachelor of Arts (Non-Teaching)

The requirements for the Bachelor of Arts non-teaching degree are the same as those for the Bachelor of Science non-teaching degree with one exception. Students in the Bachelor of Arts program must complete six (6) to nine (9) hours in a foreign language. Those students who have completed two years of the same language in high school and make satisfactory placement test scores may meet the language requirement by completing six (6) semester hours in the same language at the 200 level or above.

College of Health and Human Sciences

L. Jane Boudreaux, Interim Dean
 Agnes W. Hinton, Interim Assistant Dean
 Hattiesburg, MS 39406-0075
 (601) 266-5253

The mission of the College of Health and Human Sciences is to improve the health and well being of individuals, families, and communities. The College focuses on seeking solutions to societal problems. This mission is accomplished through teaching, service and research.

Academic programs support the improvement of quality of life as individuals move across the life span. All programs benefit the community and provide opportunities for student exposure to the real world through field experiences, practica, and internships.

Organization and Administration

Dean's Office

The Dean is the chief administrative officer of the College of Health and Human Sciences and is responsible for its operation. In the Dean's Office, the Assistant Dean coordinates scheduling, the college catalog, adjunct faculty coordination and undergraduate and graduate academic concerns.

Administrative Units

The administrative offices that report to the Dean's Office include the Mississippi Tourism Resources Center, the Applied Research Division of the National Food Service Management Institute, the Mississippi Delta Nutrition Intervention Research Initiative, Fiscal and Physical Facilities, Student Services, and five academic units.

The academic programs of the College of Health and Human Sciences are housed in the School of Family and Consumer Sciences, the School of Human Performance and Recreation, the School of Social Work, the Center for Community Health, and the Department of Hospitality Management.

These academic units offer undergraduate and graduate academic programs designed to meet the challenges of the College's mission statement. Each academic unit is responsible for maintaining its associated student files for academic advisement of its majors. Since curricular requirements vary for each major, students desiring degrees from the College of Health and Human Sciences should follow the courses outlined under each unit. Detailed information on individual curricula of the five units follows. Please note that a number of programs within the College must meet criteria of accrediting agencies, and thus may have additional application procedures and/or admission requirements above those of the University. Most programs within the College require students to have valid professional liability insurance purchased through fees assessed each semester by the University. Please consult the directors of the individual units to obtain specific information.

The Mississippi Tourism Resources Center was created to enhance the University's efforts to assist the region in development of tourism and to identify and create interdisciplinary projects across this area. The Applied Research Division of the National Food Service Management Institute, which operates under contract with the University of Mississippi and U.S.D.A., conducts research to improve quality and operation of child nutrition programs, cost-effective systems of delivering nutritious meals to America's students, and development of effective school food service management practices. The Delta Nutrition Intervention Research Initiative is a partnership funded through USDA, with universities and institutions in Mississippi, Louisiana, and Arkansas. The purpose is to evaluate nutritional health in the lower Delta to identify nutritionally responsive problems, and to design and evaluate interventions so successful strategies may be implemented on a larger scale.

Teacher Licensure

A student in the College of Health and Human Sciences seeking standard teacher licensure in Mississippi must satisfy the core requirements of not only the College of Health and Human Sciences but also the College of Education and Psychology. Students should refer to degree

programs within the College of Health and Human Sciences which are approved by the State Department of Education for teacher licensure in a specific teaching field. Specialized courses within each program are included in the degree plans, with additional course requirements in the Professional Teacher Education Core. Please see admission requirements for Teacher Education.

The School of Family and Consumer Sciences offers five undergraduate majors which prepare students to assume professional responsibilities in a variety of career fields. Programs in the School offer excellent opportunities for obtaining a broad general education while developing the skills and abilities necessary for functioning competently in a selected professional area. The undergraduate programs and professional fields they serve share a common focus on improving the quality of life for individuals and families whether through intermediary roles or through direct service in one of the helping professions.

All programs include an internship or field experience component to provide students with opportunities to apply knowledge through direct interaction with consumers and clients. Numerous businesses and professional facilities in Hattiesburg and surrounding regions cooperate with the School in providing pre-professional experiences.

The Center for Child Development provides interactive experiences for students majoring in Child and Family Studies through access to a full-day child-care program. The program provides developmentally appropriate learning activities for children ages infant to five years with a hands-on curriculum of learning through play. The program predominately serves children of USM students, staff, and faculty. For parents who qualify, some federal and state funds are available to help offset tuition costs. The Center for Child Development is accredited by The National Association for the Education of Young Children.

The Sarah W. Gibbs Costume Collection is maintained by the School, with space in the McCain Library Archives. Research and exhibitions based in part on items in the Gibbs Collection have twice won national awards from the American Association of State and Local History.

The undergraduate programs in the School are accredited by the Council for Accreditation of the American Association of Family and Consumer Sciences. The Coordinated Program in Dietetics is accredited by the American Dietetic Association Commission on Accreditation/Approval for Dietetics Education, which also currently approves the Didactic Program in Dietetics. The Interior Design program is fully accredited by the Foundation for Interior Design Education Research (FIDER).

Offerings for Non-Majors

A number of courses offered within the School do not have prerequisites and are excellent choices for electives. CD 150 (Child and Family in the Community); FMA 121 (Fashion Fundamentals), 131 (Basic Apparel Construction), and 330 (Textiles I); FAM 101 (Introduction to Professional Studies), 150 (Social and Professional Development), 151 (Personal Development and Interpersonal Relationships), 351 (Marital and Family Relationships), 442 (Personal and Family Financial Management), 443 (Family Resource Management); NFS 362 (Nutrition), HM 272 and 272L (Principles of Food Preparation), ID 140 (Interior Design I), 325 (History of Interior Furnishings and Decorative Arts), and ID 497 (British Housing and Interiors) are excellent elective courses for students having an interest in the academic areas represented. Minors are also available in a number of areas within the School.

Child and Family Studies

Undergraduate students with a major in Child and Family Studies select major courses and electives to prepare to work with children and their families in educational, institutional, and human services settings.

In addition to the general education core, course work in Child and Family Studies has a family systems perspective and focuses on developmental observations. A broad knowledge of the child and family is acquired through courses in nutrition, family dynamics, communications, psychology, developmental disabilities, computer science, and contemporary issues affecting the quality of life. Students take courses in infant and child development, creative activities, behavior and guidance of children, parenthood, methods and materials appropriate to working with young children, and supervised work through practicum or internship experiences. Laboratory and field experiences, as well as academic work, are integral to students' preparation.

The Center for Child Development, accredited by the National Academy for the Education of Young Children, offers all students opportunities to observe and participate in directed experiences with infants, toddlers, and preschoolers. Students with an emphasis in Child Development do supervised teaching at the Center for one semester. Students with an emphasis in Child Life work with hospitalized children in a semester-long internship. Students with an emphasis in Family Relations work with families through community agencies or human services organizations.

Child Development graduates work as teachers and administrators of child care and preschool programs, or child development specialists who plan and implement developmentally appropriate activities with children in other settings. Students who choose the Child Life career option work with children and families in health care settings. Family Relations majors work in family related agencies and family life education settings. Graduates are also prepared to work with the Extension service. The thorough knowledge gained in child and family studies prepares students to make a positive difference in the lives of children and families in our communities.

Graduates who complete the course requirements for a Child and Family Studies degree are eligible for provisional membership in the National Council on Family Relations' Certified Family Life Education Program. Child Life graduates are eligible to apply for certification by the National Child Life Council.

Students work closely with an academic adviser in selecting an emphasis and elective courses best suited to their interests and career goals. Students must earn a grade of "C" or better in all child development and family courses required in the major in order to graduate.

Requirements for a Minor in Child and Family Studies

All students pursuing a minor in Child and Family Studies must complete nine (9) semester hours in the following courses: CD 350; FAM 351 and FAM 452. An additional nine semester hours may be selected from the following electives: CD 352, CD 451, CD 452, CD 453; FAM 442, FAM 450, FAM 453.

Fashion Merchandising and Apparel Studies

The curriculum in Fashion Merchandising and Apparel Studies provides students who have a strong interest in apparel, fashion, and textiles the opportunity to prepare for diverse careers in the fashion industry. Course requirements in the major field cover product information and characteristics, organization and operation of the fashion and textile industries, and the social, psychological and aesthetic components of dress. Required courses in business add depth to the student's academic background and variety to graduates' career options. As circumstances and interests warrant, students enjoy optional study programs such as trips to fashion market centers in Dallas, New York, London, and Paris. A marketing minor is required for fashion merchandising students. The apparel studies student may opt for a business, art, or theater minor depending on career direction. Students work closely with their advisers in structuring the degree plan to provide the best preparation for the desired career field or for graduate study. After graduation, merchandising majors often enter formal training programs with large retail stores and then move into positions as assistant buyers, assistant

managers, bridal or fashion consultants, personal shoppers, executive trainees, visual merchandisers, etc. Apparel studies graduates find positions as assistant designers, assistant pattern makers, fabric specialists, production manager assistants, sample makers, custom design workers, costume museum curators or restorationists, theatrical costumers, etc.

Merchandising students complete an internship during their senior year. This supervised experience provides valuable pre-professional work experience and often develops into the graduate's first career position. Apparel studies students may also elect to complete an internship that parallels their career interest or take extra hours in their area of specialization. Internships may take place locally or in any geographical location that provides necessary experiences. Students are responsible for securing the internship position and obtaining approval for the site.

A thorough understanding of and interest in product information facilitates the exchange of information between the consumers and the producers of apparel, fashion, and textile products. Program graduates working in the fashion and textile industry are, therefore, in a unique position to influence positively the match of product characteristics and availability with consumer needs and expectations.

These students have a number of electives which can be used to tailor the degree program toward their specific interests, whether communications, business/marketing, or other areas.

Purpose of the Family and Consumer Sciences Teacher Education Program: The purpose of this program is to produce informed practitioners with the knowledge, skills, and attitudes necessary to successfully teach in diverse settings. Specifically, students are exposed to a broad knowledge base pertaining to content, pedagogical methodology, and professional growth and development. The general, professional, and specialty courses prepare students to experience immediate success in the classroom as well as pursue ongoing specialization in advanced degree work. Specific program objectives for the emerging practitioner include the demonstrated ability to:

1. successfully teach state-mandated curriculum.
2. evaluate and integrate new information into their knowledge base.
3. achieve expertise in innovative and traditional methods of teaching.
4. effectively utilize technology in the educational setting.

The general education core

provides the foundation of a solid liberal arts education, which includes basic knowledge and skills in reasoning and communication, humanities and fine arts, social and behavioral sciences, natural and applied sciences, and human wellness. The second knowledge base involves twenty-one hours of course work emphasizing the heritage and methodology of teaching. In addition, students complete sixteen hours of course work involving professional development in the areas of technology, family systems, and family life education. The third knowledge base involves specialty studies in which students expand the breadth of their knowledge and skill in areas unique to Family and Consumer Sciences. Required course work is closely related to the structure of the Family and Consumer Sciences curriculum developed by the Mississippi State Department of Education. The final knowledge base involves the fourteen hours of student teaching in which students apply and integrate the knowledge, skills, and attitudes gained through course work in the general, professional, and specialty areas of the degree program.

National Standards: Curriculum planning and evaluation are driven by the **National Standards for Family and Consumer Sciences** prepared by the National Association of State Administrators of Family and Consumer Sciences (NASAFACS) in association with the Vocational-Technical Education Consortium of States Southern Association of Colleges and Schools. In addition, the Family and Consumer Sciences Teacher Education Program has been heavily influenced by changes in society and the Family and Consumer Sciences curriculum developed by the Mississippi State Department of Education, and recommendations from our accrediting agency, the American Association of Family and Consumer Sciences. The integrative nature of the knowledge base of Family and Consumer Sciences and its impact on quality of life undergirds the philosophy expressed through curriculum choices.

Teaching Strategies and Technology Use: Students are exposed to a variety of teaching styles, activities, strategies, and technology. The following constitutes a representative list of strategies and the use of technology.

1. Use of e-mail in classroom assignments
2. Information searches using the World Wide Web and other electronic data bases

4. Lecture/discussion enhanced with video recorded materials
5. Classroom observations
6. Critiques of published and peer generated materials
7. Oral presentations
8. Teaching simulation and practicum
9. Research

Graduates may also be employed by the Cooperative Extension Service and by private or governmental agencies concerned with providing consumer services to individuals and families. Students may select Business courses to increase their employment opportunities in consumer affairs, marketing and product development, food or fashion journalism, communications, and consulting.

Various School of HP&R curricular programs currently are accredited or approved by professional boards or agencies. These are:

- Athletic Training—Joint Review Committee on Education Programs in Athletic Training (JRC-AT)
- Kinesiotherapy—American Kinesiotherapy Association (AKTA)
- Physical Education—K-12 Teaching Licensure Program—National Council for Accreditation of Teacher Education (NCATE)
- Recreation—National Recreation and Parks Association (NRPA).

Additionally, courses are offered within the various degree programs which facilitate professional certification in Athletic Training (NATA certification and State of Mississippi licensure), Kinesiotherapy (AKTA certification), Health Fitness Instructor Certification (American College of Sports Medicine [ACSM]), Teacher Licensure-K-12 Physical Education (Mississippi State Department of Education), Therapeutic Recreation Specialist (National Council for Therapeutic Recreation Certification [NCTRC]), and Certified Leisure Professional (NRPA).

Several certification programs are also available through the School of HP&R for non-majors. Students seeking add-on Driver Education teaching endorsement may take several courses offered within the School of HP&R curricula. A variety of American Red Cross certifications are available in First Aid and Aquatics areas (see specific description of areas and corresponding courses of study for further detail).

Students majoring in any area of Human Performance and Recreation should follow the program outline in their area of study. High school graduates and transfer students from community/junior colleges or other four-year colleges may be admitted to the School of HP&R in their chosen degree programs upon admission to the University. Students desiring to transfer from other schools or colleges within the University must be in good academic standing and possess a minimum GPA of

2.0 in order to be admitted to a degree program. Please note that a number of programs within the School must meet criteria of accrediting agencies and therefore may have additional admission and retention requirements above those of the University. Students entering the School of HP&R will be assigned to the appropriate faculty member for academic advisement.

All students majoring in any Human Performance and Recreation degree program must demonstrate proficiency (grade of “C” or better) in each HPR course used towards completion of their degree program, including required courses and electives. Any major who earns a grade lower than a “C” must repeat the HPR course until proficiency is established. Specific program specialization areas may also have proficiency requirements above and beyond those previously discussed.

Retention Policy: Students who wish to enter or are admitted to the School of HP&R must maintain a minimum cumulative GPA of 2.0 on all USM hours. Students whose GPAs fall below the minimum are placed on program probation. Policies governing program probation are available from the School Director.

Students who wish to meet the teacher licensure requirement to teach driver education in Mississippi schools must complete requirements for a Standard Class A license and the following courses: CHS 341 or CJ 332; HPR 480, 483, 483L; and one course from HPR 370, 481, 482, or 484.

American National Red Cross Certification

The program offers certificates from the Red Cross in First Aid Instruction, Lifeguard Training Certification, Lifeguard Training Instructor Certification, Cardiopulmonary Resuscitation, Water Safety Instructor Certification, Standard First Aid Certification, Standard First Aid Instructor Certification, Responding to Emergencies Certification, Beginner through Swimmer Level Stroke Instruction, and Instructor Candidate Training Program. Please consult an adviser in Human Performance for specific course requirements.

Aquatics Specialization

The School of Human Performance and Recreation offers a group of aquatic-related courses which may be of interest to students who wish to receive instruction leading to various certifications within the American Red Cross aquatic programs. Any USM student is eligible to be certified in the ARC Aquatics Administration specialty by successfully completing the following classes as prescribed by the School of Human Performance and Recreation: HPR 364, 460; either HPR 360 or 363; and seven hours from the following: HPR 160, 163, 184, 300, 361, 363, 365, 380, or 420.

HP&R Lifetime Fitness and Activity Instructional Program

The School of Human Performance and Recreation offers a variety of 100-300 level activity-based academic courses. Students have the opportunity to learn basic skills of life-time sports, fitness and leisure activities which may be applied to on campus or off campus leisure time. Upper level service courses offered are designed to provide in-depth skill development in a particular area of interest. These are available to all students and are offered for a grade or on a pass/fail basis.

Coaching and Sports Administration

The Bachelor of Science degree program in Coaching and Sports Administration offers professional preparation in basic sport administration with possible further specialization in Coaching. All Coaching and Sports Administration majors must complete a 15 semester hour degree core as well as University core requirements. Majors must select either a block of course offerings to complete a Sport Administration or Coaching specialization. The Sport Administration specialization is designed to prepare students who seek careers in sports programming in private enterprise, municipal sports administration, professional athletic office operations, or college athletic administration. Courses in the Coaching specialization are designed to provide students with the necessary foundational sport science theory and application in professional coaching and athletic administration settings. NOTE: Students who wish to prepare to coach in the public schools in Mississippi must possess a Mississippi teaching license. Therefore, they should pursue a second major in a recognized secondary teacher education field. If they wish to pursue K-12 Physical Education teaching licensure, they must major in Human Performance with the K-12 specialty under Physical Education emphasis as their primary major.

Requirements for a Minor in Coaching and Sports Administration

All students pursuing a minor in Coaching and Sports Administration must complete minimum of nineteen (19) hours in CSA-related courses. The following courses are required for a minor in Coaching and Sports Administration: HPR 306, 307, 370, 409, at least one coaching methods course in the sport area in which the student wishes to specialize, and HPR 419 (3 hours minimum).

Human Performance

The Bachelor of Science degree program in Human Performance is designed to provide students with a foundation theory base in the movement sciences. Additionally, the program offers professional preparation in two distinctive areas of Human Performance: Sports Medicine and Physical Education. Within each of these emphases, students may select from several professional-based specializations in order to further prepare for future career interests. All Human Performance majors must complete a 20 to 28 semester hour degree core as well as the University core requirements. Majors must also select one of the two emphases and complete course requirements specific to the emphasis selected.

Majors interested in pursuing careers in either Athletic Training or Exercise Science should select the Sports Medicine emphasis within the degree program. Within this emphasis, students are required to take 20 semester hours in Sports Medicine-related course offerings. Students seeking careers as exercise specialists or fitness instructors in either corporate health promotion or rehabilitative medical settings should complete courses in the Exercise Science specialization. Students specializing in Exercise Science are highly encouraged to complete CHE 106, 106L; CHE 107, 107L; or CHE 251, 251L; BSC 250, 250L, 251, 251L early in their program since these courses are prerequisites for many major courses. Students who wish to pursue Athletic Training certification by the National Athletic Training Association (NATA) and Mississippi Athletic Training Licensure should complete courses in the Athletic Training specialization.

Majors interested in pursuing careers in the instruction of Physical Education in both school and non-school settings should select the Physical Education emphasis within the degree program. All students in this emphasis must complete the Physical Education Core (30 semester hours) and selected courses to meet the requirements of one of two certifications. Those students who wish to seek Standard Mississippi K-12 Physical Education Teacher Licensure must follow prescribed courses listed in the K-12 Teaching specialization. Upon successful completion of all degree requirements, students will meet all course requirements necessary for application of Standard Mississippi Teacher Licensure (K-12 Physical Education) and will be immediately eligible to teach elementary and/or secondary level Physical Education in schools within Mississippi and in many states throughout the U.S.

Students who are seeking careers in rehabilitation settings (public and private) should complete courses in the Kinesiotherapy specialization. Upon successful completion of certification examination, these graduates are eligible for Kinesiotherapy Certification by the American Kinesiotherapy Association (AKTA).

Athletic Training Program Admission and Retention

All students entering the athletic training program directly from high school and all students transferring to Athletic Training are subject to the admission procedures and standards of the University. Admission to The University of Southern Mississippi as a Human Performance/Sports Medicine major does not insure progression to the upper division Athletic Training course work. Students having completed HPR 219, CHS 101, PSY 110 and one of the following: BSC 250/250L or 251/251L, may make application to the Athletic Training program for progression to the upper division course work in Athletic Training and admission to the program. Both BSC 250/250L and BSC 251/251L are required in the degree program. Application forms may be obtained from the Athletic Training curriculum director. Fall term admission application deadline is March 1, Spring term admission deadline is October 1. Students admitted to the athletic training program are required to have liability insurance through The University of Southern Mississippi. In addition to filing an application, the following minimum requirements must be met for consideration for admission to the Athletic Training program: a) 2.80 overall GPA; b) a minimum of "B" in HPR 219, BSC 250/250L or BSC 251/251L, CHS 101, and PSY 110; c) observation and evaluation by clinical instructors, d) clinical experience, and e) submission of a completed physical examination by a physician or nurse practitioner, a TB skin test (or chest x-ray if positive), a current tetanus

immunization (within 10 years), and a verification of Hepatitis B vaccination or option. All students admitted to the Athletic Training program must adhere to the program retention policies which include; a) achievement of a grade of B or better in CHS 101, PSY 110, BSC 250, 250L, 251, 251L; NFS 362; and HPR courses required in the degree program, b) maintain a 2.80 overall GPA, and c) adherence to codes of moral/ethical conduct (see Code of Ethics of the National Athletic Trainers' Association). Students must accumulate a minimum of 1125 hours of supervised clinical experience in laboratory/clinical courses over fall and spring semesters. Laboratory/ practicum courses for supervised clinical experiences are offered only during the fall and spring semester, and not during summer school. Students are not allowed to complete two clinicals in any one semester. Progression to the upper division athletic training courses shall be reserved for: a) students admitted to the Athletic Training Program, and b) upper division students who receive instructors' permission. A student who drops below an overall 2.80 GPA in the program will be placed on probation in the program for one semester. If the student does not obtain an overall 2.80 GPA during the probation semester, he/she will be dismissed from the program. Notification of dismissal from the program will be sent to the student by the program director. The student must petition in writing to the Athletic Training Admission and Progression Committee for consideration for readmission to the program.

Kinesiotherapy Program Admission and Retention

All students seeking KT specialization must meet all admission requirements with the University and the School of Human Performance and Recreation. Second level admission to the KT specialization will be required in order for students to enroll in upper level specialization requirements and complete all internships. Students may apply for second level admission to the KT specialization upon successful completion of selected courses within the University General Education Core and the following major course requirements: THY 411; HPR 148, 301, 301L, 302, 303, 308, 308L, 370, 401, 404, 421, 423, and 423L. A 2.80 overall GPA is required for admission into the KT specialization. Students enrolled in the KT specialization must maintain a 2.80 GPA throughout the program. Those students who drop below this GPA will be subject to review for continuance in the program. Students enrolled in the KT specialization must achieve a "C" or better in all HPR, PSY, BSC, and THY courses.

School of Social Work

Earlie M. Washington, Director

Timothy Rehner, Baccalaureate Program Coordinator

Hattiesburg, MS 39406-5114

(601) 266-4163

Brooks, Desselle, Pegues, Rehner, Thornton, Williams

Purpose

The primary purpose of the School of Social Work is to provide professional social work education to undergraduate and graduate students. The social work profession recognizes the bachelor's degree as the first practice degree. The primary objective of the undergraduate program is to prepare students for entry level generalist social work practice. The undergraduate program also prepares students to enter graduate schools of social work or other professional degree programs.

History

Undergraduate courses in social work were transferred from the Department of Sociology and Anthropology to the School of Social Work effective July 1, 1988. The Bachelor of Social Work degree was approved by the Board of Trustees of the State Institutions of Higher Learning in December, 1989.

Accreditation

The B.S.W. Program was granted full accreditation by the Council on Social Work Education in February 1996, retroactive to 1992.

Baccalaureate Social Work Education

The Baccalaureate program offers broad preparation in general education, as well as education for the professional practice of social work in a variety of settings. In addition to the professional component, courses in the liberal arts, the humanities, and the sciences are selected to prepare the student to assume effectively the roles of citizen and professional practitioner.

Social work is concerned with the interaction between people and their environment. Social workers deal directly with people in an effort to prevent or resolve problems which inhibit growth and development. Social work practice includes work with individuals, families, groups, organizations, and communities. The undergraduate social work program is structured to provide students with an opportunity to develop a broad background in the social and behavioral sciences. Theoretical knowledge of individual development, group processes, and organizational behavior are integral components of the curriculum. The development and modification of social policy, practice skills in interviewing, research, and methods of intervention are content areas covered in social work courses to prepare students for social work generalist practice. In addition to required courses in the major, students are expected to gain practical experience through a field practicum in a social work agency during their senior year. Thus, a liberal arts background is integrated with the social work curriculum to help students develop a common core of knowledge and skills.

Admissions

All students entering the School of Social Work are subject to the admission procedures and standards of the University. Admission to the School of Social Work at The University of Southern Mississippi, however, does not ensure progression to the upper division social work major. Initially students are admitted to the pre-social work program. An application to the B.S.W. major may be submitted when a student has successfully completed the following:

1. A minimum of 56 credit hours of the 61 credit hours of university general education requirements.
2. An overall grade point average of 2.5 or above.
3. A grade of C or better in all university core requirements (including transfer courses) used to meet the social work degree requirements.
4. Forty hours of volunteer experience as part of SWK 230.
5. Completion of SWK 230, SWK 300, and SWK 315 with a minimum of a C in each course.
6. An interview with the Admissions Committee.

The number of students admitted each semester will vary according to the resources available.

Academic credit for life and previous work experiences will not be granted in lieu of the field practicum or any other required social work course.

Progression

The following progression policies apply to all students admitted to the B.S.W. program:

1. A minimum grade point average of 2.5 must be maintained in all social work courses.
2. A grade of C or higher in each course in the social work curriculum, with the exception of field instruction, must be earned.
3. A grade of B or higher must be earned in field education.
4. The student must adhere to the standards of conduct listed in the Social Work Code of Ethics.

Field Education

After completing all course work, students enroll in a field practicum. The practicum allows students to apply the generalist problem-solving method in an agency serving individuals, families, groups, organizations, and communities. Students are provided opportunities to work with client systems from diverse racial, ethnic, cultural, sexual orientation, social, and religious backgrounds. Students practice in a social work agency or organization eight hours per day, Monday through Thursday, for a total of 450 clock hours during the semester. To promote integration of classroom learning and agency experience, students attend a field seminar on Friday. The student must obtain a grade of B or higher in Field Education in order to be awarded a Bachelor of Social Work Degree.

Requirements for Field Practicum

Students must submit formal application to the Field Education Coordinator at the beginning of the semester prior to registering for the field practicum. Practicum students must: (1) complete all B.S.W. required liberal arts courses (61 hours); (2) complete 61 hours of the social work core curriculum and foundation electives; (3) maintain a 2.5 cumulative grade point average; (4) have been admitted to the B.S.W. program; (5) register for SWK 431-Field Seminar; (6) spend a minimum of 450 clock hours in a field setting designated by the Field Education Coordinator. While in the field practicum, students will be assessed a fee to cover the cost of Professional Liability Insurance.

Student Advisement

Advisement is an essential component of the B.S.W. program. Each student admitted to the program will be assigned an adviser. The adviser will orient students to the B.S.W. program, assist them in assessing their aptitude and motivation for a social work career, evaluate each student's performance and guide students in selecting coursework. When requested or required, the adviser also helps students resolve personal problems that affect the attainment of their educational goals.

Probation and Suspension

University regulations governing probation and suspension are outlined in this Bulletin under "General Academic Requirements—Academic Standards." In addition, students not meeting the progression policies outlined above will be subject to suspension from the B.S.W. program.

Students not meeting the University grade point requirements will be placed on probation or suspended. Academic advisers should be consulted to assist students on probation. Any reinstatement must comply with University regulations and have approval from the Director of the School of Social Work and the Dean of the College.

Graduation Requirements

Graduation requirements must be met under the catalog of the academic year in which the student is admitted into the professional B.S.W. degree program, or a more recent catalog, provided the catalog is not more than six years old at the time of graduation. In order to graduate, students must meet all prescribed course requirements and meet the progression policies of the School of Social Work.

Students must file an “Application for Degree” at least one semester in advance of the anticipated semester of graduation. The application requires the signature of the student, the adviser, and the Director of the School. The degree application process is completed when the application is filed by the student.

Center for Community Health

Vivien Carver, Acting Director
 Hattiesburg, MS 39406-5122
 (601) 266-5437

Ahua, Carver, Exline, Graham-Kresge, Hinton, Khoury, McGuire, Mitra

The Center for Community Health was established in 1989 as an organizational focus for expanded activities in community health within the College of Health and Human Sciences. The Center offers an undergraduate degree with a major in Community Health Sciences. At the graduate level, the Center offers the only Master of Public Health degree in Mississippi, with emphasis areas in Health Education, Health Administration, Occupational Health and Safety, and Public Health Nutrition. The Center also serves as a base for interdisciplinary research and demonstration activities in such areas as rural health policy, lay health advisers, access to health care for disadvantaged populations, injury prevention, health promotion, and disease prevention.

This program of study is designed to prepare students for professional careers in health education and administration in a wide variety of health organizations such as voluntary health agencies, private agencies and industry, public health departments and other governmental agencies, community health centers, multispecialty clinics and hospitals.

Community Health is an applied science which seeks to bridge the gap between the findings of health-related research and the application of the findings to the daily lives of those who engage its services. Its functions are based on scientific principles, and its processes employ intellectual, psychological, and social dimensions as it attempts to increase the ability of people to make informed decisions about behaviors that affect personal, family and community well-being. Community Health also applies learning from the social, behavioral, political and management sciences to the management of health care organizations and programs.

The program requires study in the foundations of community health programs and services, population sciences, biological sciences, disease causation and prevention, planning, and administration of health programs. Through the careful selection of electives and minors, students may direct their studies to achieve differing career goals. Students interested in careers in community or school health education will take electives in the content areas of health education (e.g. human sexuality, drugs, and alcohol abuse, safety, etc.) and select an area of concentration in Speech Communication, Psychology, Exercise Science, Nutrition and Dietetics or other areas approved by their advisers. Students desiring teaching licensure will minor in secondary education and meet all the requirements in the professional education core. Careful sequencing of professional education courses is necessary in order to complete the degree in a timely manner.

Upon selecting Community Health Sciences as a major, students are assigned an adviser who will work closely with them over the course of their program. The Center emphasizes effective advising to ensure adequate preparation for careers in community health, school health, and health administration.

Community Health Sciences majors must meet the following criteria:

1. Have an overall GPA of 2.50 or higher before taking CHS 408, 409, and 411.
2. Have a grade of "C" or better in all courses required for the major.

Requirements for a Minor in Community Health Sciences

Students pursuing a minor in Community Health Sciences must complete a minimum of eighteen (18) hours of CHS courses including CHS 101, 210, and 409.

Requirements for a Minor in Health Policy and Administration

Students pursuing a minor in Health Policy and Administration must complete CHS 321, 412, 420, 425, 427, and 460.

The Hospitality Management (HM) program provides life long career opportunities in the fastest growing segment of the service economy. Careers in lodging, food and beverage, and in travel and tourism are abundant, exciting and rewarding. The need for educated individuals who are committed to providing quality service in a professional manner, who possess critical thinking skills and who enjoy working with people is crucial for continued success. Hospitality and tourism employers recognize a college education as the best preparation for those who desire a career as a hotel or restaurant manager, a tourism district director and many other titles.

The HM program at the Hattiesburg and Gulf Coast campuses requires its students to obtain practical experience in the form of practicums and internships to augment and apply the skills and theories covered in class. One of these is the Fern Hesson Charcoal Room, an academic food service laboratory in Vann Hall that provides Hospitality Management students with direct experiences in all phases of operating a quantity food service facility. The Charcoal Room serves a noon meal to faculty, staff, and the community during each academic semester. HM graduates have established careers in resorts, lodges, hotels, retirement villages, restaurant chains, visitor bureaus, cruise ships, tour companies, and in meeting and convention centers. The USM Hospitality Management curriculum is designed to ensure a comprehensive understanding of the service sector and to prepare students for management positions.

College of International and Continuing Education

Tim W. Hudson, Dean

Mark Miller, Associate Dean

website:<http://www-dept.usm.edu/~cice/main.html>

In February, 1991, the Center for International Education and the Division of Lifelong Learning were combined to form the College of International and Continuing Education. In September 1998, the academic Department of Geography and Planning was moved from Liberal Arts into the College. At this time a new Department of Economic Development was established, which houses a MS program in Economic Development and a Ph.D. program in International Development (consult the Graduate Bulletin for information on graduate programs). The College is an administrative entity under the Office of the Provost, and operationally divided into the undergraduate academic areas of geography and planning, the Center for International Education, and Continuing Education.

The mission of the College of International and Continuing Education is fourfold. First, to prepare individuals for the opportunity of entering the work place in the professional and applied academic fields of geography, geographic techniques, and community planning. Second, to serve as liaison between the University's academic programs and the community at large through continuing education. Third, to coordinate international admissions and student services, and administer the University's extensive Study Abroad program. And fourth, to provide intensive English instruction for international students.

Standards for Admission and Transfer

High school graduates and transfer students from other accredited colleges or universities may be admitted directly to the College and to their chosen major program. Students desiring to transfer to the College from another college within The University must be in good academic standing; normally they must present a minimum GPA of 2.0 in order to be admitted to a major program. Students entering the college will be assigned to an appropriate faculty member for academic advisement.

Foreign Language Requirements

The Bachelor of Arts degree offered by the College requires proficiency in a foreign language, to be chosen from among those offered by the Department of Foreign Languages and Literatures. Normally twelve (12) hours of beginning and intermediate foreign language instruction are required, through course level 202. Students are encouraged to begin their study of foreign language during the first semester of their freshman year, and encouraged to participate in an overseas immersion experience.

Students with previous experience in languages (such as courses from high school or community college) may satisfy this requirement through advanced placement in as few as six hours (course level 201, 202). Course credit for previous work in language may be acquired through the CLEP examination; for details contact Department of Foreign Languages (phone: 266-4964) or the CLEP officer in Admissions (phone: 266-4508). With approval of the department chair and the dean, international students may use their native language as an exemption from this requirement.

PACE Office

Joan Brashears, PACE Advisement Supervisor
Hattiesburg, MS 39406-5123
(601) 266-5616

The College makes full use of the Programmed Academic Curriculum Evaluation (PACE) program in advising. The college believes that the contact between student and adviser is a vital one, and the PACE program facilitates a maximum use of these hours spent together in conference. The University and College core PACE requirements are listed above; requirements for the major, minor, and electives are listed under the two academic programs outlined below.

Department of Geography and Planning

Career opportunities in city and community planning, human resources analysis, climatology, cartography, computer mapping, geographic information systems, remote sensing, and teaching are available through several professional degree programs. An emphasis area in Geographic Information Technology is also available, requirements for which are listed in a separate section of the Bulletin. The department's undergraduate programs also provide preparatory work for professional positions in economic and industrial development where a master's degree may be required. Consult the Graduate Bulletin for information on graduate programs in both economic development and geography.

Undergraduate courses in geography may be categorized as follows: regional (400 through 408 sequence), techniques (410 through 417), and topical (remaining courses numbered above 300). Planning courses are prefixed with a PLG and described under the heading Planning in the Course Description section of this Bulletin.

Students entering the Department of Geography and Planning will major in one of four degree-granting programs offered through the department. These include:

1. Bachelor of Arts and Bachelor of Science in Geography
2. Bachelor of Arts and Bachelor of Science in Community Planning and Development

USM Continuing Education functions to complement The University of Southern Mississippi's overall mission of teaching, research and service. By serving as liaison between the University and the community at large, the Department extends access to the educational programs of the institution, through multiple delivery systems, to individuals at various stages of their lives and careers for intellectual, professional, social and cultural advancement.

Continuing Education acts in partnership with the academic colleges to link faculty expertise and resources with the needs of the University's clients and constituencies. In this role, Continuing Education serves as an agent for opportunity, innovation and quality.

The Department of Continuing Education and Distance Learning accomplishes its mission by providing educational opportunities in settings and formats that broaden the University's traditional modes of delivery.

Credit and Distance Learning: The Office of Credit Programming and Distance Education has the responsibility of coordinating and administering all credit intensive, weekend, intersession, and extension courses. Included, too, are courses available on the Internet and select courses using compressed interactive video. Courses offered through this office are the result of collaborative relationships with the University's academic departments. In addition, academic courses may be arranged in a format and location to meet the specific needs of governmental, business, industrial, and educational groups.

Noncredit: Noncredit Programming maintains responsibility for a diversity of programming which serves as liaison between the University and the community. This office coordinates and administers the logistical details for all noncredit conferences, institutes, workshops, clinics, camps, short courses, and special training programs sponsored through the University. The office also provides convention and annual meeting coordination assistance to professional associations, fraternal organizations, and other education groups. A **Listener's License Program** is available which enables individuals to utilize University resources by observation within the academic class setting on a non-participating basis. The **Continuing Education Unit (CEU)**, also offered through Noncredit Programming, is a nationally recognized unit of measure for non-credit continuing education programs. It is designed to document learning experiences which are valid in their own right, but differ from experiences for which academic credits are traditionally awarded.

Independent Study: Through independent study, a student may earn up to thirty-three hours of undergraduate university credit or one complete unit of high school credit. A complete **high school curriculum** and a wide variety of **university-level course offerings** are available.

Independent study allows the student to earn credit through the advantages of home study. These courses are particularly suited to the needs of the student who is unable to attend the University on a regular schedule.

Institute for Learning in Retirement. The Institute for Learning in Retirement is an association of active women and men, 50 years of age or older, who seek to explore stimulating learning experiences while developing new friendships.

In the world of change and complexity, the Institute brings insight and perspective to interested - and interesting - adults who wish to pursue activities of the mind in an informal and supportive environment.

The Institute's program recognizes that a growing number of adults are adventuresome, active, and intellectually curious. The cornerstone is peer-learning and shared responsibility. The strength of the program is that it is self-directed and run for and by the members. It draws on members' talents and experiences as instructors, facilitators, and leaders.

Mission and Organization

The College of Liberal Arts offers a wide range of academic majors in communication, the humanities, social sciences, and related disciplines. All major programs in the College award the Bachelor of Arts (B.A.) degree.

As the chart of academic offerings on the previous pages shows, the College of Liberal Arts is organized into two schools and fourteen departments, plus several interdisciplinary programs. In the sections below, the two schools (Communication and Library and Information Science) are presented first, with the constituent departments and programs of the School of Communication listed there. Then follow the remaining units in alphabetical order.

The collegiate general curriculum is listed below; this core curriculum is the foundation upon which a liberal education is based, encouraging students to think logically and creatively, communicate effectively, and write clearly. These are skills essential to any modern professional career. At the same time, students enrolled in the College of Liberal Arts are prepared in a special field of expertise, with a major and (usually) a minor, allowing a wide choice of career fields.

In addition, the College offers a two-hour elective course, GS 101 University Success Skills, designed specifically for the new student, providing an orientation to university life and introducing strategies for academic success.

Standards for Admission and Transfer

High school graduates and transfer students from other accredited colleges or universities may be admitted directly to the College of Liberal Arts and to their chosen major programs. Students desiring to transfer to the College of Liberal Arts from another college within The University of Southern Mississippi must be in good academic standing; normally they must present a minimum GPA of 2.0 in order to be admitted to a major program. (Some programs have higher admission standards; see the individual program listings below for specific requirements.) Students entering the college will be assigned to an appropriate faculty member for academic advisement.

Foreign Language Requirements

The Bachelor of Arts degree offered by the college requires proficiency in a foreign language, to be chosen from any one of the following: French, German, Classical Greek, Italian, Japanese, Latin, Russian, or Spanish. (Not all of these languages will be available every year.) Normally twelve (12) hours of beginning and intermediate foreign language instruction are required, through course level 202. Students are encouraged to begin their study of foreign language during the first semester of their freshman year.

Students with previous experience in languages (such as courses from high school or community college) may satisfy this requirement through advanced placement in as few as six hours (course level 201, 202). Course credit for previous work in language may be acquired through the CLEP examination; for details, contact the Department of Foreign Languages and Literatures (phone: 266-4964) or the CLEP officer in Admissions (phone: 266-4508).

With the approval of their department chair and the dean, international students may use their native language as an exemption from this requirement.

Study Abroad

In cooperation with the College of International and Continuing Education, the College of Liberal Arts offers many opportunities to study abroad and strongly encourages its students to take advantage of them. Summer credit-abroad programs are offered in England, Austria, France, Mexico, China, Ireland, Australia, Scotland, Jamaica, Africa, and Spain; moreover, year- and semester-long programs of study are also available, along with a summer internship program in Wales. Academic credit for study abroad may be used to satisfy requirements in the major or minor. Many students find study abroad a good way to complete their language requirement for the B.A. Financial aid may be applied toward the cost of USM's international programs.

For details on the college's study-abroad programs, students should consult their adviser or the College of International and Continuing Education (phone 266-4344).

The college makes full use of the Programmed Academic Curriculum Evaluation (PACE) program in advising. The college believes that the contact between student and adviser is a vital one, and the PACE program facilitates a maximum use of these hours spent in conference together.

PACE Degree Plans for all the programs of the college are printed in this Bulletin. They list all of the requirements for each program and track the student's progress toward them.

A Note on Total Required Hours: The college and the university require a minimum of 128 credit hours to graduate. A few programs in the college require more than this total number. The PACE Degree Plan enumerates the number of required hours in each area of study. Students should observe, however, that many programs allow an overlapping of certain courses in the general curriculum and the major. Thus the total number of hours required may actually be less than a tally of these area subtotals might indicate.

Teacher Licensure

The College of Liberal Arts offers several programs leading to teacher licensure at the K-12 or secondary level. Requirements for licensure include (1) an ACT composite score of 21 (SAT 860)

or higher, with no scale score below 18 upon entrance into college or acceptable scores on the appropriate Praxis I examination; (2) a minimum grade point average on the 44-semester-hour general education core curriculum of 2.65 (for secondary) or 2.5 (for K-12); (3) admission to the teacher education program; (4) a “C” average in Freshman English Composition; (5) completion of 32 hours of professional education courses (PSY 374; REF 400; REF 469; SPE 400; a General Methods course; an Area Methods course; and Student Teaching); (6) a grade of “C” or better in all content courses in the academic major as well as all professional education courses; (7) acceptable scores on the Praxis II examinations (Principles of Learning and Teaching exam and Subject Assessment exam); and (8) fulfillment of major requirements in subject area.

These requirements are subject to modification; for current information students should contact the University’s Education Licensure adviser, 116 Owings-McQuagge Hall; phone 266-5522.

The State Department of Education also provides an alternate route to licensure for graduates of an accredited college or university. For details and specific procedures contact:

Department of Journalism

David R. Davies, Chair
 Hattiesburg, MS 39406-5121
 (601) 266-4258

Kaul, T. Smith, Wiggins, M. Williams, Yssel

The objective of the Department of Journalism is to teach students professional and theoretical concepts and to develop their technical skills to enable them to be productive and responsible contributors in the field of journalism. The program emphasizes the basics of reporting, writing, editing, and taking and developing pictures, but professional preparation also requires an understanding of the history and legal, ethical, and social responsibility of journalism. The department strives to achieve an integration of practice and theory in its courses.

The Department of Journalism and its emphasis areas are accredited by the Accrediting Council on Education in Journalism and Mass Communication, the national accrediting agency for programs in Journalism and Mass Communication.

The department offers a choice of two emphasis areas of study: News-Editorial and Public Relations, and it administers an interdisciplinary Advertising degree program. These are designed to prepare students for a variety of career positions, including news reporting and editing, writing, photojournalism, advertising, and public relations.

The faculty strongly believes that students should have a broad cultural education in the humanities and social sciences to go with their professional preparation so they can serve society, as well as their own self-interests, productively and responsibly. Thus, students are limited to thirty-seven (37) semester hours in the Department of Journalism. Students must achieve a minimum grade of "C" in each journalism course and a GPA of 2.5 in all journalism courses. All journalism students, in consultation with their advisers, must develop a minor in an area outside of the School of Communication.

Requirements for a Major in Journalism

Common Requirements for a Major in Journalism

A student majoring in Journalism will work toward the Bachelor of Arts degree. Working closely with an adviser, the student will select course work to fit an appropriate educational goal and selected emphasis area of study. All students pursuing a major in Journalism must complete the following requirements, which include a minimum of thirty-one (31) semester hours, but not more than thirty-seven (37) semester hours in journalism and/or radio-television-film:

	Hours
General Core for the College of Liberal Arts	70
Major Requirements	31-37
Minor Requirements	18
Electives (Non-journalism)	3-10
	Total: 128

All majors in the News-Editorial emphasis are expected to do practical work on The Student Printz. Others are invited to participate in the publication of the newspaper.

Requirements for an Emphasis in News-Editorial

The News-Editorial Program is designed to prepare students for positions in the news media as reporters, editors, and writers. Students in this emphasis must complete thirty-one (31) semester hours, but not more than thirty-seven (37) semester hours, in Journalism, including JOU 202, 203, 241/241L, 303, 311, 312, 402, 450, and 460. From elective course work taken outside the Department of Journalism, students are advised to develop an area of concentration that supports and enhances their educational and professional goals.

Students may pursue a concentration in photojournalism within the News-Editorial Emphasis. Required courses in News- Editorial are JOU 202, 203, 311, 312, 450, and 460, including one course chosen from among JOU 301, 303, 452, or 455. The photojournalism concentration requires completion of JOU 241/L, 242/L, 441/L, and three or four hours chosen from Journalism and/or Radio, Television, and Film.

Requirements for an Emphasis in Public Relations

This program of study is designed to prepare students for careers as public relations practitioners, and consultants in business and industry, non-profit organizations, educational institutions, and governmental agencies.

Students in this program must complete thirty-one (31) semester hours, but not more than thirty-seven (37) semester hours of Journalism, including JOU 202, 203, 241/241L, 311, 312, 421, 422, 426, and 428. A statistics course is required of all students in the public relations emphasis. Students must choose one course from CSS 211, BA 301, PSY 360, SOC 460.

Requirements for a Minor in Journalism

All students pursuing a minor in journalism must complete a minimum of eighteen (18) hours of journalism courses. The following seven (7) hours are required: JOU 202, 241/241L. Department of Radio, Television, and Film

S. Dixon McDowell, Chair
Hattiesburg, MS 39406-5141
(601) 266-4281

R. B. Cade, Gentile, D. Goff, Hall, Haque, Webster

The Department of Radio, Television, and Film offers preparation for professional employment in the diverse film and electronic media industries. The one constant that characterizes these fields is change. Therefore, the department strives to equip students with more than current career skills. The total program emphasizes the broader skills which prepare students for the continuing self-education required to meet the challenge of change in one's life and in one's career. The major in Radio, Television, and Film also provides an excellent preparation for graduate study in film or mass communication. In addition to the curriculum for RTF majors, the department provides instructional support to interdisciplinary programs in Advertising and Communication.

Students majoring in Radio, Television, and Film select one of three emphasis areas. Broadcast Journalism prepares students to enter the challenging and competitive field of radio and television news. The Film emphasis is designed to prepare students for positions with large and small motion picture production companies, film units within television operations, federal or state agency production units, or for self-employment as independent producers, directors, or production specialists. The Radio-Television Production emphasis is intended for students who seek careers in advertising and program production in broadcasting and cable television. This emphasis also

prepares students to pursue career opportunities with the growing number of corporations, medical centers, and governmental agencies that utilize television communication for training and institutional communication.

Two curricular options are strongly recommended for students who wish to maximize the benefits of their undergraduate education. The Internship Program and the British Studies Program should be considered and discussed with faculty advisers early in one’s program of study. The Internship Program (RTF 303) provides supervised experiential learning in a professional setting. To qualify for the program, an RTF major must have completed all but twelve hours of major course work with a B average in RTF courses and an overall GPA of 2.5. Eligible students must submit an internship application to the department chair prior to the midpoint of the semester preceding the requested internship. Students employed by a film or electronic media firm cannot receive academic credit for work they are already doing for pay.

The British Studies Program (RTF 476 or 499) enables students to study the British media or contributions to filmmaking during an intensive five week summer program. This program offers unparalleled opportunity for the educational and cultural enrichment of a student’s undergraduate education.

Requirements for a Major in Radio, Television, and Film

The major in Radio, Television, and Film consists of 36 semester hours of course work. A grade of C or better must be earned in all sequential production courses and in the Broadcast Journalism sequence. For example, in the Television Production sequence (RTF 140, 340, 440), a student must earn at least a C in RTF 140 before advancing to RTF 340, etc. The Film Production sequence is RTF 140, 371, 471, 485; the Broadcast Journalism sequence is JOU 202, RTF 302, 304, 305.

Many Radio, Television and Film courses require students to perform copy writing, news writing or script writing on a deadline. Typing proficiency is essential for these classes. RTF majors who do not enter the program with basic typing skills should enroll in BTE 101 (Keyboarding for Information Processing) early in their course of study.

All Radio, Television, and Film majors are required to complete the following:

General Education Requirement for the College of Liberal Arts.....	70
RTF Major.....	36
Minor (RTF majors may not select Advertising, Communication, or Journalism)	18
Electives	4
	Total 128

NOTE: All students must complete a minimum of 128 semester hours with at least 45 semester hours at the 300 or 400 level. The number of elective credits earned will vary.

Requirements for a Minor in Radio, Television, and Film

The student minoring in Radio, Television, and Film must complete a minimum of eighteen (18) hours in RTF courses with at least nine (9) hours above the 300-level. The department recommends structuring the selection of minor courses along the lines of one of the three emphasis areas offered to RTF majors. The chair and faculty will be pleased to advise minors and to recommend an appropriate selection of courses. Students seeking an RTF minor and their advisers are cautioned to pay close attention to RTF course prerequisites.

Requirements for a Speech Communication Major With Teaching Licensure

The licensure program certifies the graduate to teach speech communication in grades 7-12. It meets or exceeds the requirements set down by the Mississippi State Department of Education and earns NCATE (National Council for Accreditation for Teacher Education) licensure. Meeting NCATE requirements carries with it automatic licensure in 30 states in addition to Mississippi. Students should note that the total hours required by this program exceeds the university minimum of 128 hours in order to maintain a program of the highest quality in the teaching area plus NCATE licensure. Students must earn a grade of "C" or higher in all Speech Communication courses and in all required professional education courses.

Requirements for a Minor in Speech Communication

All students pursuing a minor in speech communication must complete eighteen (18) hours of Speech Communication courses. The following courses are required: SCM 305, 311, 330. The following courses will not count toward the minor: SCM 301L, 411, 459, 459L, 488, 489, 492.

School of Library and Information Science

Joy M. Greiner, Director
Hattiesburg, MS 39406-5146
(601) 266-4228

Boshears, Haynes, Norton, Qin, Rodriguez, Rodriguez-Buckingham

The purpose of the School of Library and Information Science is to educate students for careers in librarianship and related fields. Covering all types of media formats, the curriculum prepares future librarians to organize, develop, access, and evaluate print and non-print resources in various types of libraries.

The Bachelor of Arts degree in library and information science may be used to satisfy the requirements for licensure as a school library media specialist. The baccalaureate degree in library and information science with a teacher licensure emphasis is approved by the National Council for Accreditation of Teacher Education. The graduate program in library and information science is the only master's program in Mississippi accredited by the American Library Association (see the Graduate Bulletin). The School cooperates with the University Placement Service in assisting its graduates in finding positions. Students are encouraged to join and support the activities of the Library and Information Science Student Association, the American Library Association, the Special Libraries Association, and the Mississippi Library Association. Often these professional organizations provide job placement services.

Academic Standards for a Major in Library and Information Science

Any student who satisfies admission requirements to the University through the Office of Admissions is eligible for admission to the School of Library and Information Science. All students majoring in library and information science must have their major program approved by the director of the school and have a completed program plan on file in the director's office.

During the first two years at the university, the library and information science major should acquire a broad general education in the liberal arts and sciences. Library and information science courses for the undergraduate major or minor are begun in the junior year and completed in the senior year. Library and information science majors are advised to concentrate elective hours in one subject field, professional area, or language in order to qualify for better library positions. The student's choice of a degree program should be determined by his or her career goals, licensure requirements, and in consultation with a faculty adviser or the director of the school.

Students desiring to prepare for positions in public, college, and special library fields should follow the general Bachelor of Arts degree program described below; this requires twenty-five (25) credit hours. General library and information science majors must also complete the requirements for a minor or a dual major in another field, and sufficient elective hours from any departments of the university to complete the 128 semester hours required for a degree. Students should consult their adviser when planning their minor or dual major.

Students are advised that in order to qualify for many professional positions in the library field, especially those in public, college, and special library fields, a Master of Library and Information Science (MLIS) degree is required. This graduate degree can be earned in one additional year of study beyond the B.A. See the Graduate Bulletin for information on the graduate program in library and information science.

Licensure as a School Library Media Specialist

Students desiring to become public elementary or secondary school library-media specialists should follow the applicable teacher licensure degree program. Licensure as a school library media specialist in the State of Mississippi requires a library and information science major of twenty-seven (27) hours plus thirty-seven (37) hours of professional education core courses. Students must earn a grade of "C" or higher in all Library Science courses and in all required professional education courses. Existing teacher education programs as presented in this Bulletin are subject to

change contingent on formal university approval. Out-of-state students should consult with their respective state agencies regarding licensure requirements. For more information about the Teacher Licensure Program, contact the School of Library and Information Science.

Department of Aerospace Studies

(AIR FORCE ROTC)

Thomas A. Bucklin, Lt. Col., Chair
Hattiesburg, MS 39406-5145
(601) 266-4468

Dillon, Matthews

The Air Force ROTC Program offers a course of study leading to a commission as a second lieutenant and service on active duty. The program is an accredited part of the curricula of the university. Air Force ROTC may apply toward satisfying the requirements for an academic minor.

Air Force ROTC Requirements

While Aerospace Studies classes are open to all USM student, those wishing to pursue an Air Force commission should meet the following requirements:

General Military Course: Men and women who are full-time university students may enroll in the General Military Course (GMC). The GMC surveys the missions, activities, and history of the United States Air Force. There is no obligation associated with enrollment in any GMC course. The Professor of Aerospace Studies may grant credit or partial credit for completion of the GMC for students who have served on active duty, for junior or senior level ROTC participation in a program of any service, and for Civil Air Patrol work.

Professional Officer Course: Enrollment in the Professional Officer Course (POC) under an Air Force contract (obligated reserve) is limited to those students who have applied and have been accepted for this course. Application is normally made while a member of the GMC or (for students not enrolled in the GMC) early during the academic year prior to the year of desired entry. Students with previous military service may apply for direct entry. Individuals entering the POC must have two academic years remaining in college as full-time students at the undergraduate and/or graduate level. Students who complete the Professional Officer Course in Aerospace Studies (Air Force ROTC) are allowed to waive the requirement for an academic minor, if one is required in their major. After completing their studies, all contracted POC students are obligated to accept a commission and to enter the active duty Air Force.

Students who enter Air Force ROTC classes are considered to be in the Four- or Two-Year Program, depending on their academic progress upon entry. Enrollment in the General Military Course offers the student good exposure to the Air Force without obligation and also affords maximum opportunity for scholarships and entry into the Professional Officer Course. The POC is normally preceded by either a four- or six-week summer field training conducted at various Air Force bases. Financial entitlements while in the POC normally total about \$3,000 for non-scholarship students and up to \$7,000 for those maintaining a 2.35 term GPA (\$1,000 per semester toward tuition, \$150 per month for 10-month academic year).

Air Force ROTC College Scholarship Program

An Aerospace Studies committee nominates qualified freshman, sophomore, and junior students to compete for three- and two-year scholarships. Scholarships can pay full tuition, as well as certain fees and expenses associated with required courses, including most textbooks. In addition, the recipient will receive a \$150 (tax-free) monthly allowance during the school year. Scholarships are awarded based on the specific needs of the Air Force. All academic majors are potential scholarship recipients. Interested students should contact the Department of Aerospace Studies.

Four-year scholarships are also available to high school students. High school students interested in making application should write: Air Force ROTC (RRUC), Maxwell AFB, Alabama 36112- 6106

during their junior year or before November of their senior year or contact any Air Force ROTC unit or Air Force recruiter.

Satisfactory completion of courses in English composition and mathematical reasoning are required for scholarship and POC students. Completion of the University Core will normally fulfill these requirements.

Department Activities

Air Force ROTC students are eligible for membership in the Drill Team and Arnold Air Society and allowed to participate in departmental activities. Arnold Air Society is a national organization with membership restricted to Air Force ROTC cadets; Silver Wings, another national service organization, also supports Air Force interests and is open to all students. Both organizations are sponsored by the Air Force Association and hosted by the department. Other departmental activities include orientation flights, visits to Air Force bases, physical fitness conditioning, and intramural sports as well as optional summer professional development training programs.

The American Studies Program offers an interdisciplinary major or minor for students interested in a broad liberal arts education. Through courses from many fields, the student acquires an understanding of the development of the American heritage. By course selection and during the American Studies Seminar, students may pursue their special interests. The major requires thirty (30) semester hours.

Though no minor is required with the American Studies major, students are encouraged to have a second major or minor in complementary, career-oriented fields such as pre-law, pre- medicine, pre-dentistry, paralegal studies, journalism, public relations, library science, accounting, marketing, management, radio-television-film, military science, and education. The requirements listed below are in addition to the Liberal Arts core curriculum. Students in this program will be advised by the director of the American Studies Program.

Department of Anthropology and Sociology

H. Edwin Jackson, Chair
 Hattiesburg, MS 39406-5074
 (601) 266-4306

Chasteen, Danforth, Flanagan, Glamser, Jaffe, Kinnell, B.D. Roberts, R. Turner, A.L. Young

The Department of Anthropology and Sociology offers a major and a minor in both anthropology and sociology. As the societies of the world become increasingly interdependent and as our own society continues to confront the problems of pluralism and rapid social change, success in many fields (including international development, business, government, and education) will depend on the individual's understanding of, and ability to adapt to, varied circumstances and human cultural diversity. The programs in the Department of Anthropology and Sociology equip the student with the tools necessary for such an understanding.

Requirements for a Major in Anthropology

The multifaceted nature of anthropology, which integrates into a single discipline the social sciences, the natural sciences, and humanistic studies, uniquely combines skills and insights that will prove essential in many contemporary settings. Students will complete courses in cultural anthropology, archaeology, physical anthropology, and anthropological linguistics. Students majoring in anthropology must complete all general education requirements of the College of Liberal Arts, 33 hours in anthropology (including ANT 221, 231, 241, 251, and 421) and have a minor in another discipline. The student's adviser will discuss the choice of a minor that best complements the student's interests and career goals and aspirations.

Requirements for a Major in Sociology

The scientific analysis of the social world to which sociology is dedicated provides the student with unique insights into the nature of social institutions and their effects on each other and on individual behavior. The sociology major equips the student with analytical skills applicable in a wide range of contemporary settings. Students majoring in sociology must complete all general education requirements of the College of Liberal Arts, 33 hours in sociology (including SOC 101, 460, 462, and 482) and have a minor in another discipline. The student's adviser will discuss the choice of minor that best compliments the student's career goals and aspirations.

Requirements for a Minor in Anthropology

The minor in anthropology allows students of another discipline to achieve a fundamental understanding of anthropology. Faculty members will assist students to select courses that best complement their major interests. Students will complete a minimum of 18 hours in anthropology, including 9 hours chosen from among ANT 221, 231, 241, and 251.

Requirements for a Minor in Sociology

The minor in sociology is designed to equip the student of another discipline with an understanding of the fundamentals of the discipline of sociology. Faculty members will assist students to select courses that best complement their major interests. Students will complete a minimum of 18 hours in sociology, including SOC 101.

Department of Criminal Justice

Tyler H. Fletcher, Chair
 Hattiesburg, MS 39406-5127
 (601) 266-4509

Cabana, Funchess, Hunt, LeFlore, Mallory, Payne, Sellers, M.C. Smith, W.B. Taylor

The Department of Criminal Justice offers an interdisciplinary major leading to a Bachelor of Arts degree and a minor. A special emphasis area in Juvenile Justice is also available.

Requirements for the major area are a minimum of thirty-nine (39) hours of course work in Criminal Justice (CJ 200, 325, 330, 341, 352, 360, 420, 430 required), but not including the optional field practicum (CJ 400). The student must also pursue either an academic minor or two interdisciplinary blocks of 9 hours each (not to include 100 level courses overlapping with the core); these interdisciplinary blocks may be flexibly structured to strengthen the student’s understanding of and interest in the humanities, behavioral sciences, or professional areas such as accounting, computer science, forensic science, and management. The Juvenile Justice emphasis must include 18 hours in psychology or social work.

The flexible and interdisciplinary nature of the Criminal Justice curriculum provides an ideal educational base for those seeking careers in which special skills are needed. The careful selection of a minor also enhances this feature of the curriculum. Minors in paralegal studies, English, philosophy, or political science provide excellent preparation for law school, while minors in Spanish, accounting, and computer science have proven to be skills in high demand in state and federal investigative services. Wildlife conservation officers and environmental protection agencies have extensively employed criminal justice majors with biology minors. The department endeavors through individual counseling to identify a student’s goals and potential, and to provide the best education possible to meet those aspirations.

Requirements for a Minor in Criminal Justice

All students pursuing a minor in Criminal Justice must complete a minimum of eighteen (18) hours of courses in Criminal Justice including CJ 200 but not including the field practicum.

Program in Economics

William Banks Taylor, Director
 Hattiesburg, MS 39406-5127
 (601) 266-4509

The Bachelor of Arts in Economics is an interdisciplinary degree offered through the collaboration of the College of Liberal Arts and the Department of Economics and International Business within the College of Business Administration. The degree is designed to prepare graduates for employment in either the private or public sector or for the pursuit of higher degrees in a number of academic disciplines, most notably economics, economic development, community and regional planning, geography, law and justice studies, political economy, political science, and public administration. Because of its interdisciplinary curricula, the B.A. in Economics allows somewhat less latitude in course selection than most USM degrees and requires the completion of slightly more than the 128-semester-hour University minimum for graduation.

Requirements for a Major in Economics

Students pursuing the B.A. in Economics must complete seventy (70) semester hours in specified courses; these satisfy the general education requirements of the University, the College of Liberal Arts, and the major. In completing remaining degree requirements, majors may elect to follow one

of two set degree tracts, the one quantitative and the other qualitative, or to formulate and pursue a flexible degree track commensurate with individual career objectives.

The quantitative or **Mathematics Degree Track** is designed to prepare one for the successful pursuit of higher degrees in economics and related academic disciplines requiring a strong background in mathematics and statistics. It consists of 58.5 semester hours beyond the seventy-hour core curriculum, including a minor in mathematics, and thus establishes a degree plan requiring the completion of a total of 128.5 semester hours.

The qualitative or **Social Science Degree Track** provides a broadly-based liberal arts education in “political economy,” an area of study that cuts across the normally separate domains of economics and politics, and examines the relationship of the two within the difficult calculus of public law. The Social Science Degree Track is recommended for students planning to seek employment upon graduation or to pursue higher degrees in academic disciplines requiring a lesser preparation in mathematics and statistics (economic development, community and regional planning, geography, law and justice studies, political science, and public administration). It consists of 60.5 semester hours beyond the seventy-hour core curriculum, including a minor in political science, and thus establishes a degree plan requiring the completion of a total of 130.5 semester hours.

Requirements for a Minor in Economics

Students wishing to minor in economics must satisfy the requirements of the Department of Economics and International Business

General Studies Program

Kara L. Craig, Director of Academic Support Programs
Hattiesburg, MS 39406-5112
(601) 266-5003

J. Howdeshell, M. Lochhead, J. Sadler

The General Studies program provides an organized plan of advisement for students undecided in their academic majors. Ordinarily such students will be expected to pursue the academic standards and requirements of the general curriculum of the College of Liberal Arts, preparing for a major in that college. Students who have determined an interest in a field of study outside of the College of Liberal Arts (though they have not yet decided on the exact major) should enroll as undeclared majors within the college of that field. However, since much of the University's General Education Curriculum is housed in the College of Liberal Arts, the General Studies program is the appropriate place for students who wish to sample university life and various fields of study before declaring a definite major. Students may, if they wish, pursue the General Education Curriculum of the university, not the more specific collegiate document.

Advisement in the General Studies program is coordinated by the program director; but in so far as possible, each student will be assigned to an individual faculty member for personal advising and career guidance.

Ordinarily the General Studies program enrolls only freshmen, though transfer students may be admitted with the consent of the director. As with all of the programs in the College of Liberal Arts, transfer to General Studies requires at least a 2.0 GPA. Students may remain in the General Studies program only through sophomore status; usually the program does not accept juniors.

The General Studies program also administers the academic course GS 101 (University Success Skills), offering two hours' academic credit. This course provides a valuable introduction to the university experience, covering such topics as study skills, taking notes and tests, time management, campus resources, and university policies and procedures. GS 101 is open to all new students throughout the university.

The Department of History participates in programs leading to the degrees of the Bachelor of Arts, the Master of Arts, the Master of Science, and the Doctor of Philosophy. For the master's and doctoral degrees, please consult the Graduate Bulletin.

Mission

The study of history is intended to promote a responsible and informed citizenship, a heightened understanding of the human experience, and an appreciation of the achievements and variety of humankind. It also promotes career training. Indeed, the study of history is perhaps as valuable for the skills it helps to develop as for the information it imparts. History is an exacting discipline that fosters intellectual curiosity, analytical thought, research skills, ability to collect and analyze large amounts of data, clarity of expression, and disciplined work habits—qualities that are central to careers in academic, professional, public, business, and service areas.

Career Opportunities

Departmental surveys of graduates indicate that history majors have built careers in a variety of professional areas. A large number are teachers at high schools, community colleges, colleges and universities. Many are lawyers. A considerable number of them are stock brokers, bankers, military officers, public servants, directors of libraries, archivists, and even medical doctors. History majors can enter all these professions because their academic discipline fosters the writing, thinking, research, and analytical skills that make them marketable in a variety of professions.

Requirements for a Major in History

Students majoring in history must receive at least a grade of C in each history course. They must take thirty-six (36) hours which must include HIS 101, 102, 201, 202, and 300. Of the twenty-one (21) remaining hours required for the major, no more than twelve (12) hours of advanced course work can be selected from any one of the three following course areas: (1) United States History, (2) European History, (3) Other (Latin American, East Asia, and other non-United States, non-European courses). Students who have satisfied the thirty-six (36) hour major requirement may take additional advanced courses in history in any area they prefer.

History 300 must be completed in the first semester of the junior year.

Students must also register for Library Science 301, a one-hour course taken in conjunction with HIS 300. Its purpose is to acquaint students with library use and with the large variety of computer and non-computer research tools.

History majors with exceptional academic records may be awarded degrees with honors or highest honors. See the General Information section of this bulletin for full requirements.

Social Studies Licensure

Students wishing to obtain a class A teaching license must major in history, must take twenty-four (24) hours of specified social science courses (twelve of these also satisfy the college general core), and eighteen hours of education courses. A semester of student teaching completes the curriculum. Students must receive at least a grade of "C" in all courses required for licensure. Students with an ACT score of 21 (SAT equivalent is 860) with no sub score below 18 upon entering college will be exempted from the Praxis I. The Specialty Area (Social Studies) and Principles of Teaching and Learning sections of the Praxis should be taken no later than the semester before student teaching.

Requirements for a Minor in History

The student minoring in history must take twenty-one (21) hours in history which must include HIS 101, 102.

Requirements for a Minor in History and Music History

The History department also offers a minor combining history and music history. It is ideally suited for music and music education majors, and for anyone interested in exploring the relationship between history and the arts. For more information on this minor contact the chair of the History Department or the Director of the School of Music.

Students minoring in History and Music History must complete twenty-four (24) hours in the following courses: MUS 231, 232; HIS 201 or 202, 401, 407, 413, 424; and a music history elective (chosen from MUS 332, 360, 431 - 437, 450, 471). In lieu of MUS 231, 232, students may take courses in Opera, American Music, Symphonic Literature, Baroque, Classic, Romantic, Twentieth Century, Jazz History, Masterpieces of Music.

International Studies Program

Geoffrey Jensen, Director
Hattiesburg, MS 39406-5047
(601) 266-4333

The College of Liberal Arts offers a multidisciplinary major leading to a Bachelor of Arts degree in International Studies. The aim of the major is to provide students with the background necessary for careers with an international dimension in government, commerce, the media, international organizations, research, and teaching.

The forty-eight credit hours of this program satisfy the requirements for both an academic major and minor. Three required courses begin the program: GHY 341 (World Political Geography), HIS 473 (U.S. Foreign Relations), and PS 331 (Introduction to International Politics). Then follow eighteen hours in International Affairs. (Some of the course options in this requirement overlap with Category III of the collegiate general curriculum.) Another block of eighteen hours concentrates in a geographical area (Europe, Asia, or Latin America). A senior seminar (normally IS 491) completes the program. International Studies majors are required to include some study outside the U.S. or an internship in their program, although exemptions from this requirement are allowed for foreign students and in other special cases. See the program director for further information.

A minor requires the completion of eighteen (18) hours in International Studies, including the four (4) required courses and two courses in International Affairs.

Department of Military Science

(ARMY ROTC)

LTC Sheila W. Varnado, Chair
 Hattiesburg, MS 39406-5042
 (601) 266-4456

Lee, Little, Ortiz, Pope, Sears, Smith, Stevenson, Walkington

Mission

The mission of the Army ROTC Program is to provide instruction to college students preparing them for future leadership positions, both civilian and military, and to commission Second Lieutenants for the United States Army, Army National Guard, and Army Reserve.

Program of Instruction

The ROTC program of instruction is divided into two courses, the Basic Course and the Advanced Course. The full program encompasses four years.

The Basic Course consists of two years of instruction and is one method of entry into the Advanced Course. The Basic Course is introductory in nature and no military obligation is incurred.

The Advanced Course is designed to prepare selected cadets for commissioning in the United States Army. All academic majors are accepted, and the University has waived the requirement for a minor

for those students completing the ROTC program. Successful completion of a five-week advanced summer camp and recommendation by the Professor of Military Science are required for commissioning. The Advanced Course student is paid a \$150.00 per month tax free subsistence allowance during both academic years of the Advanced Course. Active Duty and Reserve Commissions are earned. A recipient of a Reserve Commission may opt for a short period of active duty and then join a Reserve or National Guard unit.

Basic Course students participate in a leadership practicum. This includes practical training exercises on the USM campus and the Camp Shelby training site.

Advanced Course students will be required to attend a weekly leadership laboratory and participate each semester in practical training exercises.

All Advanced Course cadets are required to complete a course or demonstrate proficiency in three areas of Professional Military Education. The course areas are Military History, Computer Literacy, and Communications (written and oral).

Two-Year Program

A two-year program leading to a commission is available to the following categories of students:

- (1) A veteran whose military record is evaluated by the Professor of Military Science and determined to have the necessary background for acceptance into the Advanced Course.
- (2) Students who did not take the Basic Course during the freshman and sophomore years. These students must successfully complete a six-week Basic Summer Camp prior to applying for the Advanced Course.
- (3) Students who are currently enlisted in the Army National Guard or Army Reserves.

Extracurricular and Enrichment Activities

ROTC cadets have the opportunity to participate in several professional organizations within the Corps of Cadets. These include the Scabbard and Blade (honorary military society), Color Guard, the Ranger Company, and Ranger Challenge Team.

ROTC Scholarship Program

The Army ROTC Scholarship Program is designed to offer financial assistance to outstanding young men and women in the ROTC program who are interested in commissioned service in the Army. There are three types of scholarships: Four-Year, Three-Year, and Two-Year. Each scholarship provides tuition, textbooks, and laboratory fees in addition to paying a \$150.00 subsistence allowance per month for the period that the scholarship is in effect.

Four-Year scholarships are available to high school seniors. Four-Year scholarship applications must be mailed prior to November 15 in the students' senior year of high school. Information and application packets for the Four-Year scholarship may be obtained from the high school counselor or by writing to:

USM Military Science Department
Scholarship Officer
Box 5042
Hattiesburg, MS 39406-5042

Students desiring to apply for the Two-Year or Three-Year scholarships should contact the Military Science Department Chair at the University. Applicants will be screened by a scholarship committee and selections will be forwarded to the Department of the Army for final selection.

Simultaneous Membership Program (SMP)

Qualified National Guard and Army Reserve members can enter the Advanced Course and remain in their units while combining and enhancing their pay and tuition benefits and earning their commission as a Second Lieutenant.

Paralegal Studies Program

Gail Lucas, Assistant Director
Hattiesburg, MS 39406-5108
(601) 266-4310

Students majoring in Paralegal Studies, an interdisciplinary major offered through the Department of Political Science, complete thirty-six hours of coursework. The Bachelor of Arts degree in Paralegal Studies prepares students for employment in private law firms, businesses, and government offices. Although paralegals, as non-lawyers, are legally restricted from practicing law, they assist attorneys in delivering legal services more efficiently and may perform a variety of tasks, including legal research and drafting, litigation assistantship, interviewing and investigation, and file organization and maintenance.

All students majoring in Paralegal Studies must maintain a GPA of 2.5 after 30 hours of coursework, and any students transferring to the Paralegal Studies program must attain a GPA of 2.25 prior to transferring.

Requirements for a Major in Paralegal Studies

The Paralegal Studies curriculum is interdisciplinary and includes the following requirements.

1. General Education Curriculum (70 hours) as outlined in the College of Liberal Arts preface.
2. PLS 381, 382, 383, 384, 386, 387, 388
3. ENG 332 or 333

6. Eighteen (18) hours in a minor field.

Graduation with a degree in Paralegal Studies requires 128 hours, including at least 21 hours in courses numbered 300 and above in the major.

Department of Philosophy and Religion

Forrest E. Wood, Jr., Chair
Hattiesburg, MS 39406-5015
(601) 266-4518

B. Bruton, Burr, DeArme, Holley, Smithka, Sullivan

The mission of the Department of Philosophy and Religion is to teach students the art of critical thinking, to challenge them to think creatively, and to lead them to make a deliberate and rational attempt to understand both the whole and the parts of their experience for the purpose of obtaining wisdom for effective living. Accepting Socrates' belief, "The unexamined life is not worth living," we encourage students to discover and examine the basic philosophical and religious ideas of diverse cultures in order to gain illumination of personal and social values.

The department offers programs of study leading to the Bachelor of Arts with a major in philosophy, a minor in Philosophy and a minor in Religion. The major in philosophy requires thirty (30) hours of courses. This major offers both breadth and depth in philosophical training for students interested in pursuing graduate study in philosophy as well as for those majoring in philosophy as a pre-professional program in law, medicine, or other related fields. Although the department does not offer a major in religion, students can take a significant number of courses in religion to prepare them for graduate work in the academic study of religion or for pre-professional study for the ministry or religious education.

The minor in philosophy requires the completion of eighteen (18) hours in philosophy. The department recommends that the student take Introduction to Philosophy (PHI 151), Logic (PHI 253), and Ethics (356) as part of their eighteen (18) hours.

The minor in religion requires the completion of eighteen (18) hours in religion or philosophy courses closely related to religion. The department recommends that the student take Philosophy of Religion (PHI 372) and at least one course in the Eastern and one course in the Western religious traditions as part of their eighteen (18) hours.

Educational and Clinical Services

In addition to its academic programs, the Department of Speech and Hearing Sciences operates a number of clinical and public services: (1) The Speech-Language-Audiology Clinic provides students with an orientation to clinical procedures used in speech-language pathology and audiology; the clinic is accredited by the Professional Services Board of the American Speech-Language-Hearing Association and provides diagnostic services and therapy programs to students, faculty, and the community. The College of Nursing provides educational programs to prepare professional practitioners in the discipline of nursing for diverse populations, promotes service activities to the community, nursing profession, and University, and fosters research and scholarly activities to expand nursing knowledge and practice. The curricula prepare the beginning generalist in professional nursing and the advanced practitioner for leadership in health care systems.

The faculty envision the College of Nursing as an academic entity in which a diversified body of undergraduate and graduate students are prepared as expert nursing professionals and are able to think critically and provide leadership at various levels in their fields of practice. The College is viewed as a center for the development of new knowledge and improved forms of practice for nursing.

The faculty envision that the College of Nursing of The University of Southern Mississippi will be distinguished as

1. a statewide and regional center for nursing education, practice expertise, and leadership;
2. a center of academic excellence grounded in the most innovative nursing education and the most advanced research;
3. a provider of regional health initiatives to promote and maintain the health and health care of citizens; and
4. a center of doctoral education in nursing for the state.

Organization and Administration

The College of Nursing offers programs at three sites—Hattiesburg, the Gulf Coast, and Meridian. The Dean of the College of Nursing is responsible for the implementation of programs on all sites. The Assistant Deans for undergraduate and graduate programs facilitate the implementation of these curriculum. There is a campus coordinator at Meridian and the Gulf Coast who coordinates scheduling and student admission and advisement at these sites.

History

Following a year of planning and curriculum development, the first students were admitted to the School of Nursing in September, 1967. The School of Nursing received National League for Nursing accreditation in 1969. The first Bachelor of Science degrees with Nursing as a major were conferred in May, 1969. The degree title was changed to Bachelor of Science in Nursing (BSN) April 1991. The School became the College of Nursing in November, 1997.

Accreditation

The College of Nursing program is accredited by the National League for Nursing Accrediting Commission and approved by the Board of Trustees of State Institutions of Higher Learning and the Commission on Collegiate Nursing Education (CCNE).

Baccalaureate Program

The Baccalaureate Program offers broad preparation in general education, as well as education for the professional practice of nursing in a variety of settings. Courses in the liberal arts and humanities, the sciences, and the professional component are selected to prepare the student to effectively assume the role of citizen and professional practitioner. Part-time studies are available; however, full-time students will be given priority for class space.

Successful completion of the nursing program leads to the awarding of the Bachelor of Science in Nursing Degree and permits the student to make application to take the National Council Licensure Examination for R.N. licensure. Applicants who have been convicted or have charges pending against them for a felony or misdemeanor in any state may be denied permission to take the licensure examination by the State Board of Nursing.

Admission

All students entering the College of Nursing directly from high school and all students transferring to the College are subject to the admission procedures and standards of the University. Admission to The University of Southern Mississippi as a pre-nursing student does not insure progression to the upper division nursing major.

Students having completed at least 75% of the prerequisite nursing courses may make application to the College of Nursing for progression to the Nursing major. Application forms may be obtained through the Office of Student Services, Room 116 Harkins Hall. The deadline for return of completed applications is as follows:

Fall term admission—March 1.

Spring term admission—October 1.

In addition to filing an application, the following minimum requirements must be met for consideration for admission to the College of Nursing.

1. An Enhanced ACT of 21 or above. A corresponding score on the ACT taken prior to October 1989 or the SAT is acceptable.
2. An overall grade point average of 2.5 on courses prerequisite to the nursing major.
3. A minimum of a C in each prerequisite course applicable to the nursing curriculum.
4. Two of the four natural science requirements must be completed prior to making application for Fall admission. Three of the four natural science requirements must be completed prior to making application for Spring admission.

Note: Only one natural science course may be repeated one time.

The number of students admitted each semester will vary according to the resources available. Mississippi residents will receive priority in admission to the College of Nursing.

Academic Probation/Dismissal

The following policies apply to all students admitted to the College of Nursing:

1. A student may repeat only one nursing course one time depending on availability of space in the course.
2. The student who receives a second grade below a C in a nursing course is dropped from the program. Notification of dismissal will be sent to the student. The student may appeal the dismissal to the Admissions, Progression, Retention Committee.
3. The inability to function safely in a clinical setting is cause for dismissal from the nursing program (See current policies on safe clinical practice).
4. Students who violate codes of moral/ethical conduct will be dismissed from the nursing program. (See current policies on professional integrity and impaired student nurse policy).

Readmission

Students who have previously enrolled in nursing courses, have a break in attendance of one or more terms, and leave in good standing must file an application for readmission to the College of Nursing. The deadline for return of completed applications is as follows:

Fall term readmission—March 1.

Spring term readmission—October 1.

Students are subject to the curriculum plan of study as outlined in the Undergraduate Bulletin of the year of readmission. Students must also meet the readmission policies of the University.

Student Advisement

Each student admitted to the program will be assigned an adviser. The adviser will assist the student in planning a program of study toward the degree, approve the schedule each semester, provide counsel, and sign the application for degree.

Expenses

The general fees and expenses are the same for nursing students as for other University students. Additional expenses incurred by nursing students such as uniforms, books, insurance, student nurse organization fees, etc., are estimated as follows:

3rd Year	4th Year
\$800.00	\$400.00

Travel: Students are responsible for arranging transportation to off-campus hospitals and other agencies which constitute part of the program.

Insurance

Students enrolled in courses in the upper division nursing major of the nursing program are required to purchase professional and personal liability insurance through the University; a fee will be charged at the time of registration. Automobile liability insurance is required.

Health Examination

A physical examination and selected immunizations are required for admission to the upper division nursing major. A TB skin test is required yearly for the remainder of the time required to complete the program. Hepatitis vaccinations are encouraged. (See the College of Nursing Handbook for specific requirements.)

Registered Nurse Students*

Registered nurse students must complete the same Bachelor of Science in Nursing degree prerequisites as all other degree candidates in the College of Nursing. The prerequisites may be taken at The University of Southern Mississippi or at another accredited college or university. (See University Bulletin for limitation of transfer credits.)

For registered nurse students, the NCLEX RN licensure exam will be used to validate previously earned nursing credit. At the successful completion of NSG 403, students will register for NSG 307, 361, 362, and 363.

The College of Science and Technology provides training in all of the classical fields of science, several contemporary multidisciplinary areas, and “career-oriented” technology degree programs.

The College of Science and Technology is organized into two schools, eight departments, and six centers or institutes. The School of Engineering Technology includes programs in Architectural, Computer, Construction, Electronics, Industrial, Mechanical and Software Engineering Technology at the undergraduate level; a program in Industrial Training is also available. The School of Mathematical Sciences includes the departments of Computer Science and Statistics, Mathematics, and Physics and Astronomy; descriptions of its undergraduate programs can be found in the listings of its departments. Other departments of the College include Biological Sciences, Chemistry and Biochemistry, Geology, Medical Technology, and Polymer Science. The centers and institutes include those for Science and Mathematics Education, Environmental Science, Molecular and Cellular Biosciences, Formulation Science, and the Mississippi Polymer Institute.

Preprofessional programs are offered by the College of Science and Technology in the following health related areas: medicine, dentistry, veterinary medicine, pharmacy, physical therapy, optometry, dental hygiene, health information management, occupational therapy, and cytotechnology. These programs are administered by the Premedical and Health Professions Office. The College also provides pre-engineering and pre-architecture curricula.

Students who matriculate at USM as a College of Science and Technology major may not subsequently attend another institution of higher learning (e.g., community/junior college, 4-year college, or university) with the intention of transferring courses taken at these institutions back to their USM degree program unless they have received prior approval to take such courses by their department chair and college dean. USM students who take courses at another institution of higher learning without obtaining prior approval of their chair and dean may petition their chair and dean for inclusion of such courses in their USM degree program, but approval will be granted only if the reasons for not obtaining prior approval are substantial and warrant such an exception to the above stated policy. In all but the most unusual circumstances, USM students who take courses at another institution to repeat courses already taken at USM will not be allowed to count these courses towards the completion of their USM degree. USM students majoring in degree programs outside the College of Science and Technology who subsequently request transfer into one of the College of Science and Technology degree programs must meet all of the above conditions or receive prior approval by their new chair and dean for any exceptions.

Teacher Licensure

The College of Science and Technology offers several programs leading to teacher licensure at the K-12 or secondary level. Requirements for licensure include (1) an ACT composite score of 21 (SAT 860) or higher, with no scale score below 18 upon entrance into college or acceptable scores on the appropriate Praxis I examination; (2) a minimum grade point average on the 44-semester-hour general education core curriculum of 2.65 (for secondary) or 2.5 (for K-12); (3) admission to the teacher education program; (4) a “C” average in Freshman English Composition; (5) completion of 32 hours of professional education courses (PSY 374; REF 400; REF 469; SPE 400; a General Methods course; an Area Methods course; and Student Teaching); (6) a grade of “C” or better in all content courses in the academic major as well as all professional education courses; (7) acceptable scores on the Praxis II examinations (Principles of Learning and Teaching exam and Subject Assessment exam); and (8) fulfillment of major requirements in subject area.

These requirements are subject to modification; for current information students should contact the University’s Education Licensure adviser, 116 Owings-McQuagge Hall; phone 266-5522.

Premedical and Health Professions Office

Robin Barnett, Director
Hattiesburg, MS 39406-0006
(601) 266-4724

The Premedical and Health Professions Office administers ten undergraduate programs that lead to professional study in the following fields: medicine, dentistry, optometry, veterinary medicine, pharmacy, dental hygiene, physical therapy, occupational therapy, cytotechnology, and health information management. These preprofessional programs vary greatly in content and duration; all are designed to prepare students for admission to the appropriate professional school. Students interested in any of these fields are urged to contact the Premedical and Health Professions Office to ensure that the proper courses are taken and the necessary procedures are followed. For details regarding the individual programs, consult the descriptions below.

Pre-Cytotechnology Program

The University of Southern Mississippi offers a two-year program that prepares students for the two-year professional program within the Department of Cytotechnology, School of Health-Related Professions, University of Mississippi Medical Center. Students completing this program receive the B.S. degree from the University of Mississippi.

PACE Program Plan

Pre-Cytotechnology	Page 294
--------------------------	-------------

Pre-Dental Program

Minimal requirements for admission to most schools of dentistry are similar and normally include completion of specified courses in English, biology, chemistry, physics, and mathematics; completion of a baccalaureate degree; and scores from the nationally-administered Dental Admission Test (DAT). The PACE Program Plan for Pre-Dental outlined later in this catalog lists minimal requirements for admission to the School of Dentistry of the University of Mississippi and most other dental schools. Pre-dental students do not receive a degree in “pre-dent.” Rather, as they follow a pre-dental curriculum, they work toward completing a baccalaureate degree in the field of their choice. Students usually take the DAT the spring of the junior year and make application to dental school the fall of the senior year.

Exceptional students with as few as 90 semester hours credit, who otherwise meet admissions criteria, may be admitted to dental school; under certain conditions, those individuals may transfer credits from their first year at dental school and receive the bachelor’s degree from The University of Southern Mississippi.

Pre-Dental Hygiene Program

The University of Southern Mississippi offers a two-year curriculum that prepares students for the two-year professional program in dental hygiene at the University of Mississippi Medical Center. Students completing the entire program receive the B.S. degree from the University of Mississippi.

Pre-Health Information Management Program

This curriculum prepares students for the two-year professional program within the Department of Health Information Management, School of Health Related Professions, University of Mississippi Medical Center. Acceptance into this program is dependent upon the degree of preparation and level of academic achievement of candidates and is determined solely by the professional school. Students completing the professional program receive the B.S. degree in Health Information Management from the University of Mississippi.

PACE Program Plan

Pre-Medical Program

Schools of medicine have fundamentally similar minimal requirements for admission. Generally, these requirements include completion of specified courses in English, biology, chemistry, physics, and mathematics; completion of a baccalaureate degree; and scores from the nationally-administered Medical College Admission Test (MCAT).

The curriculum outlined meets only minimal requirements for admission to the School of Medicine of the University of Mississippi and to other medical schools. Premedical students do not receive a degree in “pre-med.” Rather, as they follow a pre-medical curriculum, they work toward completing a baccalaureate degree in the field of their choice. Students usually take the MCAT the spring of the junior year and apply to medical school the following summer.

Exceptional students with as few as 90 semester hours credit, who otherwise meet admissions criteria, may be admitted to medical school; under certain conditions, these individuals may transfer credits from their first year at medical school and receive the bachelor’s degree from The University of Southern Mississippi.

Pre-Occupational Therapy Program

The curriculum in pre-occupational therapy prepares students for the two-year professional program at the University of Mississippi Medical Center. Students completing the entire program receive the B.S. degree from the University of Mississippi. Admission to professional programs of occupational therapy is extremely competitive, being dependent upon a strong record of academic preparation and achievement; it is determined solely by the professional school.

PACE Program Plan

Pre-Occupational Therapy	Page 295

Pre-Optometry Program

Students wishing to study optometry must complete three or more years in a preprofessional program. Currently, programs at the University of Alabama at Birmingham, the Southern College of Optometry in Memphis, Tenn., and the University of Houston in Houston, Tex., admit residents of Mississippi to professional study. The prerequisites for admission to these programs are somewhat different, and the student and pre-optometry adviser will need to determine the appropriate preprofessional curriculum to be followed. The curriculum outlined in the PACE Program Plan for Pre-Optometry is only illustrative and does not reflect the specific entrance requirements of a particular school of optometry. The Optometry Admission Test (OAT) is a requirement for admission to all colleges of optometry and should be taken in the fall of the third year of pre-professional study.

Colleges of pharmacy normally require four years of preprofessional training, but minimal requirements for admission vary. The student and the pre-pharmacy adviser will design the academic program to meet the specific admission criteria for the college of pharmacy which the student wishes to attend. The PACE Program Plan outlined in this catalog meets admission requirements of the School of Pharmacy of the University of Mississippi as well as many other pharmacy schools. The Pharmacy College Admission Test (PCAT) is required by the University of Mississippi; it may also be required by other schools. It is given in February, April, and November of each year; applications are available in the Premedical and Health Professions Office.

Pre-Physical Therapy Program

The curriculum in pre-physical therapy fulfills course requirements for admission to the two-year master's-level program within the Department of Physical Therapy, School of Health Related Professions, University of Mississippi Medical Center. A baccalaureate degree is required, and students must have observed the work of two clinical departments of physical therapy for at least forty (40) hours prior to application. Admission to professional programs of physical therapy is extremely competitive, dependent upon a strong record of academic preparation and achievement; it is determined solely by the professional school.

Pre-Veterinary Program

Residents of Mississippi wishing to study veterinary medicine ordinarily apply to the College of Veterinary Medicine, Mississippi State University. Current criteria for admission to that college are given in the MSU publication "Requirements for Application to the College of Veterinary Medicine," which is available from the pre-veterinary adviser. Candidates are evaluated on the basis of pre-veterinary academic preparation, as well as expertise in management of domestic animals and experience within the food-animal industry.

The pre-vet curriculum satisfies minimal course requirements for admission to MSU's College of Veterinary Medicine; applicants to other schools should consult the appropriate admissions offices. Although only sixty-five (65) semester hours of undergraduate coursework are required, students are strongly advised to work towards completing the baccalaureate degree in a science field. The Veterinary College Admission Test (VCAT) is also required. It is recommended that students acquire experience working in a veterinary clinic before applying to a vet school.

The Construction Engineering Technology program emphasizes the technology, engineering, and construction business requirements that have been historically needed by the construction industry. Construction is one of the largest and most diversified industries in the world, accounting for approximately 12 percent of the country's gross national product. The key professional in this vast industry is the constructor. Various job titles for the constructor are: estimator, scheduler, superintendent, project manager, project engineer, controls manager, materials manager, or owner. These skilled professionals are indispensable in meeting the global needs for new residential, commercial, industrial, manufacturing, civil, and environmental projects.

While requiring basic business courses, the interdisciplinary Construction Engineering Technology program offers students specialized course work in surveying, building systems, construction practices/procedures, cost estimating, scheduling, construction contracts, and structural design. Graduates are employed in both office and field positions. Employers include contractors, subcontractors, suppliers, consultants, and government agencies.

Workforce Training and Development

Doris Kemp, Coordinator
Hattiesburg, Mississippi 39406-5137
(601) 266-4896 or 266-5673

The Workforce Training and Development curriculum is designed to produce graduates who meet industry's requirements for skilled technical workers with expertise to develop and conduct on-site personnel training or retraining programs. The degree requires the completion of both a technical concentration and the training and development course work. The training and development component includes course work designed to address the key competencies identified by the American Society for Training and Development. The School of Engineering Technology provides the course work required to develop technical competency; students must select one of the following four technical competency concentrations: (1) Industrial/Manufacturing, (2) Computer Technology, (3) Construction Technology, or (4) Environmental Science. The first two years of the program are designed to be completed at a Community or Junior College, with all courses transferring into the four-year baccalaureate program in the School of Engineering Technology.

The Department of Biological Sciences offers a choice of curricula leading to either the Bachelor of Science degree in Biological Sciences or the Bachelor of Science degree in Marine Biology. The B.S. in Biological Sciences curriculum includes the emphasis areas of Environmental Biology, Microbiology, and Molecular Biology for students seeking preparation for careers in these specific fields of the biological sciences, as well as a general Biological Sciences curriculum for students seeking broader preparation. The latter curriculum, when combined with the required education courses and other specified electives, is also well suited for student seeking licensure as secondary school teachers of biological sciences. Students selecting the Microbiology or Molecular Biology emphases will complete the requirements for a minor in Chemistry. Students selecting the Environmental Biology or general Biological Sciences emphases or the B.S. in Marine Biology are not required to complete a minor, although completion of four additional hours in Chemistry beyond those required for these programs will satisfy the requirements for a minor in Chemistry. The teacher licensure program in Biological Sciences includes a major in biological sciences and a minor in secondary education. It is an NCATE approved teacher education program. Detailed Pace Degree Plans for the various Biological Sciences emphasis areas and degrees are provided later in this Bulletin (see below for pages for specific emphasis areas). Information concerning the Master of Science and the Doctor of Philosophy degrees appears in the Graduate Bulletin. A student's choice of degree program and of curriculum should be determined in consultation with an adviser.

Chemistry majors work toward the Bachelor of Science degree. There are three emphasis areas that lead to this degree. These are the American Chemical Society (ACS) Certified Emphasis, the Biochemistry Emphasis, and the Chemistry Emphasis. All three emphases prepare students for careers in private industry or government and for admission to graduate programs in the chemical sciences, medicine, dentistry, and other science related, professional programs. For information about advanced degrees in chemistry at USM, please see the Graduate Bulletin. Licensure to teach secondary school chemistry may be obtained through the Chemistry Emphasis. Special characteristics of each emphasis area are noted below.

Chemistry majors must satisfy the general core requirements of the University and the College of Science and Technology. The semester hour requirement depends on the emphasis area studied. A minor is not required. Corresponding lecture and laboratory courses must be taken simultaneously. For a chemistry major to enroll in any chemistry course, he or she must have a grade of C or better in all prerequisite science and math courses. A chemistry major is allowed a total of three repeats in 100, 200, and 300 level prerequisite science and math courses to achieve the required grade of C or better; any course may be repeated only once. To graduate, a grade of C or better must be achieved in all courses counted toward the chemistry major.

ACS Certified Emphasis in Chemistry

Students completing this emphasis are certified by the Committee on Professional Training of the American Chemical Society. They take a minimum of forty-nine (49) semester hours of chemistry course work. The mathematics and science courses must be taken with the pre- and/or co-requisites listed in this Bulletin. Key features of the curriculum are a requirement for physics with calculus (PHY 201/201L, 202/202L), mathematics through differential equations (MAT 385), and several senior level chemistry courses (CHE 411/411L, 431/431L, and 494 or 496) with physical chemistry as a pre-requisite. Students contemplating using this emphasis as preparation for admission to a professional school should consult with a pre-professional advisor about taking additional life sciences courses.

Biochemistry Emphasis

This emphasis requires a minimum of forty-three (43) semester hours of chemistry, including ten (10) hours of senior level biochemistry (CHE 421/421L, 422/422L), and twenty-four (24) hours of

biological sciences. It provides an excellent preparation for medical or dental school because of its extensive life sciences content. Students contemplating using this emphasis as preparation for careers as chemists in industry or government or entry to graduate school in biochemistry or chemistry are strongly encouraged to take a full year of physical chemistry (CHE 461/461L and 462/462L).

Chemistry Emphasis

The advantage of this emphasis is its flexibility. The twenty-eight (28) hours of electives allow the student to take a minor or even a double major in many other academic areas. This emphasis requires a minimum of forty-two (42) semester hours of chemistry. It requires ten (10) semester hours of calculus but it does not require completion of physics with calculus (PHY 201/201L, 202/202L), although this is strongly encouraged. Students contemplating using this emphasis as preparation for admission to a professional school should consult with a pre-professional advisor about taking additional life sciences courses.

Secondary School Teaching Licensure

An option with the Chemistry Emphasis allows the student to obtain Mississippi Department of Education secondary teaching licensure in chemistry, physical science, and general science. The program requires a minimum of thirty-six (36) hours of chemistry course work. Course work in Biological Sciences (BSC), Geology (GLY), and Physics (PHY) is also required, as are Science Education courses SCE 460 (Methods in Teaching Science) and 489/490 (Student Teaching). See PACE Degree Plan for details. Students pursuing a degree in Chemistry with licensure must earn a grade of C or higher in all Chemistry courses and in all required professional education courses.

In addition, required teacher education courses include the following fifteen (15) hours: PSY 374, REF 400, REF 469, SPE 400, CIS 313. Students must consult an adviser in the department of Chemistry and Biochemistry and the current Bulletin for prerequisites and proper sequencing of courses.

Students who complete this program are eligible for a license through an NCATE-approved program.

The Department of Computer Science and Statistics offers a flexible degree plan accredited by the Computing Sciences Accreditation Board. This program, offered under the CSC designation, allows students to select concentrations in specific areas such as Software Engineering, Database, Statistics, or Operations Research. Graduates of this program are prepared to begin professional careers in computer science or to pursue graduate studies. Students seeking a second degree in this program must satisfy all accreditation requirements. Under the CSS designation, the department offers a degree plan in computer science with an emphasis in statistics and many courses which are primarily service courses to the University community. The department also offers a teacher

licensure degree program. In addition, a student who is licensed to teach in any secondary teaching area can earn "additional" licensure in computer education by completing the following courses: CSS 400, CSC 101/L, CSC 102/L, CSC 305, CSC 307, and TOE 465. For all programs, a grade of C or higher must be earned in required CSS and CSC courses. In addition students pursuing a degree in computer science with licensure must earn a grade of C or higher in all required professional education courses. Geology is the science of the earth. It deals with processes within the earth and at the earth's surface which control landscape features, produce essential natural resources, and often result in geologic hazards. It is a science which seeks to understand the history of the earth through geologic time and to predict the results of human interaction with the natural environment. It is an interdisciplinary science and requires a foundation in mathematics, physics, chemistry, and biology.

The Department of Geology offers the Bachelor of Science degree. Graduates are prepared for careers in environmental geology and water resources, exploration and development of petroleum and other natural resources, marine geology, space geology, and many other areas. A program is offered which prepares students for secondary science teacher licensure. The M.S. in Geology at The University of Southern Mississippi and graduate programs at other universities provide advanced training in all of these areas and also prepare students for careers in research and teaching. The Bachelor of Science degree in Geology provides a strong foundation for students planning on graduate or professional school in areas such as marine science, environmental science, remote sensing, space science, and environmental law.

Additional Requirements for a Degree in Geology: The degree in Geology (excluding the teacher licensure program) has two requirements that should be noted. (1) GLY 311 Field Geology is required. This is a six hour summer field camp. The University of Southern Mississippi does not, at the present time, offer this course directly. Students can select a field camp from several approved courses offered by other universities. Students are responsible for all fees for this course, including out-of-state tuition if applicable. (2) Students must take the exam required to qualify as a Registered Professional Geologist in the State of Mississippi. This exam will normally be taken the same semester that GLY 380 (Field Methods) is taken near the end of the degree program. The student is responsible for the exam fee.

High School Preparation: High school students interested in careers in geology or related areas are encouraged to complete credits in biology, chemistry, physics, mathematics through second year algebra, solid geometry, and trigonometry.

Transfer Preparation: Students transferring into the Department of Geology from community colleges, other universities, or other programs should note the prerequisites for upper-level geology courses. Completion of GLY 101 and GLY 101L and at least one course in chemistry no later than the summer preceding the junior year is recommended.

Preparation for Secondary Education Licensure (General Science and Physical Science): The Department of Geology offers a Bachelor of Science degree program which leads to licensure in General Science and in Physical Science. The student must apply for admission to the Teacher Education Program through the Dean's Office, College of Education and Psychology. For admission, a student must have a 2.65 grade point average on a restricted 44 hour general core and meet one of the following requirements: (1) an ACT composite score of 21 with no score below 18 upon entrance to college, or (2) acceptable PRAXIS scores. Students must achieve a grade of C or better in every course required for the major (including required supporting sciences and mathematics) and in professional education courses. More details are provided in the College of Education and Psychology section of this **Bulletin**.

Bell, Betounes, Bishop, Caveny, Contreras, Davis, Ding, Doblin, Essary, Fay, Hornor, Kolibal, Mascagni, McDowell, Peters, Piazza, Putthoff, Redfern, Ross, Stuart, J. Thrash, K. Thrash, Walls, Webster, Xie

The Department of Mathematics offers a flexible curriculum for the baccalaureate degree, so that individual students may tailor their university mathematics programs to fit specific educational and career objectives. The Bachelor of Science degree in mathematics provides a sound foundation for a broad latitude of careers in education, industry, business and government. Most of today's challenging careers call for continuing education beyond the bachelor's degree, and an undergraduate major in mathematics provides a versatile avenue for preparing for advanced studies in a number of fields, including mathematics, computer science, statistics, management science, actuarial science, mathematics education and engineering.

Students who have completed a college preparatory program in high school should begin their university mathematics programs with MAT 178. Students without this background should elect appropriate mathematics courses in consultation with their academic advisers. Mathematics majors should take MAT 340 and 326 concurrently with the calculus sequence. They can receive advanced mathematics elective credit only for those courses taken after having successfully passed MAT 340 and 326 with a grade of C or better. No mathematics or computer science course in which a student receives a grade less than C will count toward the major. Those seeking secondary teacher licensure can substitute MAT 316 for MAT 326. Mathematics majors may not enroll in the courses MAT 102, 136, 137, 210, 308, 309, 310, 312, 314, or 410, which are designed to serve the special interests of students in other departments and colleges. They must include PHY 201 and 201L in their programs and cannot use the Fundamentals of Science courses to fulfill their science requirements. The mathematics faculty recommends that all majors include PHY 202 and 202L in their programs, and that they obtain two-year proficiency in one of the following languages: French, German, Italian, Russian.

The mathematics major who intends to pursue a career in actuarial science should include MAT 320, 418, 419, 420, 426, 460, and 461 in his/her program. In addition this student should elect REI 325 and 326, as well as a course in macroeconomics and a course in management.

The student who desires to pursue the secondary teacher education program in mathematics must request formal admission to the Teacher Education Program through the Dean's Office, College of Education and Psychology. Admission requirements are subject to modification; for current information students should contact the University's Education Licensure Adviser, 116 Owings-McQuagg Hall; telephone 266-5522. A student pursuing a degree in mathematics with licensure must earn a grade of C or higher in all required professional education courses. Requirements for a Minor in Mathematics

Students pursuing a minor in mathematics must complete a minimum of 18 hours of mathematics courses. Only those courses which count toward the major in mathematics can count in the minor in mathematics, with the exception of MAT 430 and 431, which do count in the minor but not in the major. Students seeking a minor in mathematics are encouraged to consult a faculty adviser in the Department of Mathematics.

Department of Medical Technology

M. Jane Hudson, Chair
Hattiesburg, MS 39406-5134
(601) 266-4908

Beck, Bryant, Byrd, Goodwin, Hall, Lux, Myers

A student majoring in the Department of Medical Technology should consult the PACE degree plan for required courses.

Admission to Junior Level Courses

A minimum GPA of 2.5 overall and a "C" or better in College Algebra, a second math (MAT 102 or other Calculus) and General Chemistry lectures and laboratories are required for entrance into MTC 300/300L. MTC 300/300L is a prerequisite or corequisite for all other MTC courses except MTC 101. Other prerequisites for MTC 302/302L, 306/306L, and 309/309L are stated in the course descriptions found in this catalog.

Progression in the Junior Year

A student must make a "C" or better in MTC 300, 300L, 302, 302L, 306, 306L, 309, and 309L. The department repeat policy for these courses is:

1. A student may repeat one junior-level MTC course, viz., MTC 300, 300L, 302, 302L, 306, 306L, 309, or 309L to improve the grade without permission from the department faculty.
2. A second repeat of junior-level courses will require specific permission of the faculty. To obtain permission, the student must present a justification in person before the faculty of the Department. A favorable majority vote of the faculty is required for permission to repeat and continue as a major.

Admission to the Senior Year

During the junior year, the student will apply to the department for admission to the senior year. Students should contact the Medical Technology Department for the application procedure. A

minimum overall and science GPA of 2.3 is required before an application can be reviewed. Science courses used to calculate the science GPA include all BSC, CHE, MAT, CSS and MTC courses in the curriculum. Hepatitis vaccination, physical report, and professional liability insurance are required. Application completion, successful completion of all courses in the curriculum, and demonstration of qualities and attitudes which are necessary to develop as a competent professional are required. When qualified applicants exceed class size, selection will be based upon GPA. The senior year consists of two phases: Phase I, two semesters on The University of Southern Mississippi campus; and Phase II, a six-month clinical session at one of the affiliated hospitals. Preferences for hospital assignments will not be considered.

Progression in the Senior Year

Consult the Medical Technology Student Policy Manual for progression policies for the senior year.

Affiliated Hospitals

Forrest General Hospital: Thrash, Williams

Gulf Coast Medical Center: Dellinger, Gandour

Memorial Hospital at Gulfport: Barnes, Gandour

Singing River Hospital: Holland, Magee

Accreditation

The Department of Medical Technology is accredited by the National Accrediting Agency for Clinical Laboratory Sciences. Upon successful completion of the program, students receive the Bachelor of Science degree in Medical Technology and become eligible to take national certifying examinations given by recognized certifying agencies.

Language Proficiency

Regardless of courses taken previously, if English is not the native language of any student, evidence of English proficiency must be provided prior to admission into the senior year. The MTELP (Michigan Test of English Language Proficiency) requirement is "Proficiency II" and is preferred by the department. Alternately, a TOEFL of 550 may be accepted. In addition, a score of 4 ("functional language skills") must be earned on a fluency test administered by the English Language Institute. This fluency test is specifically designed to determine listening and speaking skills with respect to situations and language expected during the senior year of the program.

MLT Matriculation

MLT students who hold an Associate Degree from a NAACLS accredited MLT program and certification as a Medical Laboratory Technician (or equivalent) from a nationally recognized certifying agency are not required to take the junior level MTC courses, as long as their transcripts document equivalent courses taken as part of the community college program and a grade of "C" or above was obtained in each MLT course.

Mission Statement:

- To transmit, create and apply the knowledge and methods of physics through the avenues of teaching, research and service.
- To provide a quality Bachelor of Science in physics: to provide students with an understanding of the fundamentals of physics and foster in them a broad and intellectual viewpoint. Graduates of our program will be prepared for technical positions in industry, positions in government laboratories, and positions as high school physics teachers, as well as to pursue graduate study.
- To provide a quality Master of Science program in physics; to perform research in fundamental science by designing research problems, conducting research projects, and disseminating research findings.
- To provide leadership within the state of Mississippi in physics research through the participation of the faculty in pioneering pure and applied research, and the dissemination of the resulting new knowledge and methods.
- To serve the university and community by providing an understanding of scientific and technological issues facing society.

The department offers programs of study leading to the Bachelor of Science degree in Physics and the Master of Science degree in Physics, which may include an emphasis in Polymer Physics or Computational Science. Information relating to the MS degrees may be found in the Graduate Bulletin.

A baccalaureate program with an undergraduate major in physics with Secondary Teacher Certification is also provided. Students interested in physics teaching certification should seek advisement in the Department of Physics & Astronomy.

All physics majors are expected to perform research.

It is assumed that the high school mathematical preparation of entering freshman physics students includes algebra, geometry, and trigonometry.

The Department of Polymer Science offers programs of study leading to the degrees of the Bachelor of Science in Polymer Science, the Master of Science in Polymer Science, and the Doctor of Philosophy in Polymer Science. The Department was awarded Commendation status by the Board of Trustees in 1983 as a result of a state-wide five year program review. For information concerning the Master's and Doctor of Philosophy degrees, see the Graduate Bulletin.

The objective of the undergraduate curriculum is to prepare the graduate to enter the industrial community or to continue his or her studies at the graduate level. The Bachelor of Science in Polymer Science constitutes an interdisciplinary program of study and, therefore, no minor is

required. No polymer science course in which a student receives a grade less than “C” will count toward the polymer science major.

Institute of Marine Sciences

Darrell Jay Grimes, Director
P.O. Box 5128
Ocean Springs, MS 39566-5128
(228) 872-4200

The Institute of Marine Sciences offers multidisciplinary graduate-level, research-oriented academic degree programs. Institute faculty are located on both the Mississippi Gulf Coast and in Hattiesburg. Gulf Coast locations include the John C. Stennis Space Center, near Bay St. Louis, MS, the J. L. Scott Marine Education Center and Aquarium in Biloxi, and the Gulf Coast Research Laboratory in Ocean Springs. The Institute offers Master of Science and Doctor of Philosophy degrees in Marine Science (through Marine Science), Master of Science and Doctor of Philosophy degrees in Coastal Sciences (through Coastal Sciences), and a Bachelor of Science in Marine Biology through the Department of Biological Sciences. Marine Science graduate emphasis areas are Biological Marine Science, Physical Marine Science, Geological Marine Science, and Chemical Marine Science.

Over 20 upper-level, undergraduate courses in Biological Sciences (BSC), Marine Science (MAR), and Science Education (SCE) are offered at the Gulf Coast Research Laboratory, mainly during the summer. Marine Science (MAR) graduate courses in biological, geological and physical oceanography, and marine chemistry are offered at the Stennis Space Center. MAR 151 (a general curriculum natural sciences elective) is offered on the Hattiesburg campus and at the Stennis Space Center. The Department of Coastal Sciences (COA) offers specialized courses at the graduate level focused on research in the areas of aquaculture, coastal and marine fisheries, coastal geology, invertebrate zoology and biology, coastal ecology, parasitology, estuarine chemistry, toxicology, botany, applied molecular techniques, science education, and biodiversity and systematics. The Institute also cooperates with the Departments of Geology, Physics and Astronomy, and Chemistry and Biochemistry to provide state-of-the-art research and educational opportunities.

Undergraduates interested in preparing for graduate study in Marine Science or Coastal Sciences should pursue a bachelor's degree program in their department of choice, developing a strong background in biology, chemistry, geology, physics, and mathematics through calculus. Students interested in the Marine Biology degree in the Department of Biological Sciences should review that section of the catalog.

IMS Campuses

Gulf Coast Research Laboratory

The Gulf Coast Research Laboratory (GCRL), located in Ocean Springs, has offered summer courses in the marine sciences since 1947. GCRL has a three-fold mission of research, education, and service in the marine sciences. Scientific discipline areas encompass biology, chemistry, and geology of coastal and continental shelf waters. Over 160 researchers, technical and support personnel, and students work on this campus; research emphasis areas include aquatic animal health, marine aquaculture, aquatic biodiversity, coastal ecology, fate and effects of environmental pollutants, and fisheries science.

J. L. Scott Marine Education Center and Aquarium

The state's window on the sea, the J. L. Scott Marine Education Center and Aquarium (MEC&A) is Mississippi's largest public aquarium. This facility, located in Biloxi, features 48 aquariums and a central 42,000-gallon Gulf of Mexico tank. Science education and a suite of hands-on marine education programs have earned the MEC&A an international, award-winning reputation.

Stennis Space Center

The Stennis Space Center (SSC) is home to more oceanographers than any other location in the world. Students and faculty have the opportunity to interact with more than 1,000 scientists, engineers, and technical personnel who work at this site located near Bay St. Louis, MS. Collaborations are possible with personnel at the Naval Research Laboratory, the Naval

Oceanographic Office, the Naval Meteorology and Oceanography Command, the National Oceanic and Atmospheric Administration's National Data Buoy Center, the National Marine Fisheries Service, the US Environmental Protection Agency's Gulf of Mexico Program, the U.S. Geological Survey, the National Aeronautics and Space Administration laboratories, and other agencies.

Summer Academic Program at GCRL

The Institute of Marine Sciences (IMS) offers a selection of accelerated, field-oriented, graduate and undergraduate courses during the summer at its Ocean Springs campus, the Gulf Coast Research Laboratory (GCRL). Summer courses at GCRL are listed in this Bulletin under the three primary departments involved in the program: Coastal Sciences (COA), Biological Sciences (BSC), and Marine Science (MAR). Where appropriate, courses are also cross-listed by Geology, Chemistry, and Science Education. Summer courses are available for graduate or undergraduate credit. Graduate students may also conduct thesis, dissertation, and directed research at GCRL.

Admission to the Summer Academic Program

Due to space limitations for the field-oriented courses, students may need to apply directly to IMS–GCRL for admission to the accelerated summer courses. Courses may fill during registration through the S.T.A.R.S. system. Contact the Summer Program Coordinator, Institute of Marine Sciences, Gulf Coast Research Laboratory, P.O. Box 7000, Ocean Springs, MS 39566-7000 for application materials. The Gulf Coast Research Laboratory is affiliated with 65 colleges and universities whose students participate in the summer academic program. Admission and registration for the IMS/GCRL Summer Academic Program begin once registration through S.T.A.R.S. has closed. Early application to the summer program through S.T.A.R.S. is prudent, because most courses fill quickly.

Course Loads

The Summer Academic Program courses are offered during two 5-week terms. Because courses are taught at an accelerated pace, i.e., an entire semester of lecture and laboratory are taught in five weeks, a student is allowed to enroll in only one course each term. Students are able to earn up to twelve (12) semester hours credit during the summer. Classes meet each weekday with particular times scheduled for field trips, classroom instruction, and laboratory work.

Housing

Limited summer housing is available on the IMS–GCRL campus in an air-conditioned dormitory. During the summer sessions, the dining hall serves three meals daily to dormitory residents.

Fees

Deposit:	\$50.00
Undergraduate:	\$105.00 per semester hour
Graduate:	\$137.00 per semester hour
Room and board:	\$94.00 per week

(Fees are subject to change without prior notice.)

Students pay fees directly to the GCRL. Students with loans arranged through USM should notify the GCRL Office of Student Services at the time of application for admission to the GCRL program.

Calendar

Application Deadline:April 28, 2000
First summer term begins:May 29, 2000
Second summer term begins:July 3, 2000

Undergraduate Research

The Gulf Coast Research Laboratory provides opportunities for USM undergraduate students to conduct research at the Laboratory through the Summer Academic Program. This individualized study consists of special topics and special problems courses that allow students to study in subject areas for which there are no formal course offerings. These courses are tailored to provide advanced students the opportunity to participate in field, laboratory, and/or library research with qualified faculty and staff members. The research problems must be marine related and be of a nature which prevents the work from being easily conducted on the USM campus. Departmental approval must be obtained before a student can enter this program. For further information contact: Office of Student Services, Gulf Coast Research Laboratory, P.O. Box 7000, Ocean Springs, MS 39566-7000; telephone (228) 872-4201.

Honors College

Maureen Ryan, Dean
 Hattiesburg, MS 39406-5162
 (601) 266-5762

Honors education was first organized at the University in 1965 as an Honors Program, and in 1971 was named in honor of George R. Olliphant. The Honors College, established in 1976, includes the George R. Olliphant Honors Program, providing students of superior academic ability with a broadly-based undergraduate education. Its aim is to identify, encourage, and reward academic excellence in all fields and to serve students with varying academic interests. In many respects, the education offered through the Honors College may best be described as that of a small liberal arts college set within a large comprehensive university, with students encouraged to draw freely from both the college and the university. Students in the Honors College have access to small Honors classes, outstanding professors, special scholarships, and opportunities for independent study and special activities.

The curriculum of the Honors College consists of two phases: the General Honors Program for freshmen and sophomores and the Senior Honors Program for juniors and seniors. To enter the College as freshmen, students compete with other applicants on the basis of high school grades, scores on the American College Test (or Scholastic Aptitude Test), detailed evaluations by two high school teachers and their principal or guidance counselor, and an essay. Students may also be asked to come to the campus for a personal interview. Successful completion of General Honors will be cited on the student's transcript and diploma. The Senior Honors Program is described below.

Following is a brief description of the Honors College requirements and curriculum. For more specific details, students and advisers are urged to consult the *Honors College Handbook*, which is issued annually.

General Honors

Freshmen admitted to General Honors complete the curriculum listed below. In satisfying the General Honors requirements, students thereby fulfill the University General Education requirements. For most students, completion of General Honors will also fulfill the core requirements of their majors. Some students, however, may have to take additional core courses required specifically for their major. Students undertaking General Honors are required to complete at least 26 hours in Honors courses and departmental Honors sections, taking six or more hours of Honors course work each semester. Students are in good standing as long as they remain on track and maintain a minimal 3.0 overall average; they must graduate with at least a 3.0 average in order to receive General Honors recognition at graduation.

Senior Honors

To enter Senior Honors, the student must either complete General Honors with a minimum GPA of 3.0 or meet the following admission requirements: (1) a grade point average of 3.5 on at least 40 hours, (2) recommendations from two professors, (3) an essay, and (4) approval by the student's major department. Students must maintain a GPA of 3.25 to remain in Senior Honors. Those students entering from General Honors with a 3.0 GPA will have until the end of the first semester of their junior year to raise their GPA to 3.25. Students completing Senior Honors with the required GPA will receive the special recognition denoted by the Latin designations *summa cum laude* (3.8 or higher overall average), *magna cum laude* (3.50-3.79), or *cum laude* (3.25-3.49). Students will

typically apply for Senior Honors during their sophomore year and, if admitted, begin the first semester of their junior year. The Senior Honors curriculum offers students opportunities for independent study in their major, for small seminars on a wide range of topics, for study abroad, and for scholarship assistance.

Senior Honors Curriculum

The Senior Honors curriculum is designed to accomplish two objectives: (1) to continue the process begun through the General Education curriculum of broadening the student’s knowledge and intellectual interests, and (2) to give the student the opportunity to develop a greater understanding of the goals and methods of his or her major discipline by completing a Senior Honors project under the direction of a professor in his or her major department. The student in Senior Honors is thus required to enroll in two topical Honors Seminars **outside** the major (HON 403); the University Forum (HON 321, 322); Prospectus Writing (HON 301), in which the student plans the Senior project; and in a research course in his or her major for completion of the Senior project.

***The Senior project must be done in the area of the student’s major unless specific prior approval is given by the Dean of the Honors College for a project in the area of the minor.

Requirements for Graduation with Senior Honors

Senior Honors Research

The Senior Honors project involves two phases, the prospectus and the project itself. The prospectus must be presented nine months prior to graduation; guidelines for the prospectus may be obtained from the Honors College Office. The project should reflect significant individual effort that involves library research, laboratory research, or field research. The project must conform to accepted scholarly procedure within the discipline of the major field. The project may be creative, but a creative project must be executed within the framework of accepted scholarly procedure. That is, a student who produces a creative effort must introduce that effort by adequate discussion of the nature of the creative form involved, including an indication of familiarity with other examples of

that form. Any doubts as to the validity of a proposed project should be resolved in discussion among the project director, the chair of the student's major department, and the Honors Dean. Directions for the format of the senior project may be secured from the Honors College Office. Graduating students are expected to present their research in a public senior symposium during the semester of graduation.

The comprehensive examination must be taken no later than four weeks before the student is scheduled to graduate. The examination may be either written or oral, at the option of the major department. The exact nature of the examination is a matter for decision by the department involved, but there are general guidelines:

- (1) The examination should be designed so that it can be completed in a maximum of three hours.
- (2) The examination should test the candidate's general knowledge of the field of the major rather than specialized information about some particular aspect of the major.
- (3) The examination should be uniform for all candidates within a particular semester.
- (4) It is the responsibility of the student to contact the department chair and request that the comprehensive examination be designed and administered. These arrangements should be made one semester in advance.
- (5) A student who does not pass the examination upon the first attempt may repeat it once.

Graduation Recognition

A student may graduate with General Honors and/or Senior Honors in the Honors College. Senior Honors will be denoted by the Latin designations, *cum laude* (GPA of 3.25-3.49), *magna cum laude* (GPA of 3.50-3.79), and *summa cum laude* (GPA of 3.80 or higher).

Financial Assistance

Students enrolled in the Honors College may apply for financial aid through the Office of Financial Aid on the same basis as any other student. Scholarships available only to Honors students are listed below.

- (1) **Presidential Scholarships:** Each year, the Honors College will designate a select group of Honors freshmen as Presidential Scholars. Applicants are expected to have high ACT scores, superior grades, and proven leadership ability. The value of this award is equal to tuition, fees, and room and board for a four-year period. (The recipient will receive university-mandated necessary increments each semester.) Presidential Scholars are required to maintain at least a 3.25 GPA. **The Schillig-Baird Scholarships, O.L. and Marie Sims Scholarship, the Pulley-Pulley Gough Scholarship** and others are awarded from special endowments made available for Presidential Scholarships.
- (2) **George R. Olliphant Scholarships:** Available to a selected number of deserving students enrolled in the Honors College.
- (3) **Honors Scholarships:** Freshmen admitted to the Honors College are designated Honors College Scholars. Awards are based on an excellent record of achievement on the ACT (or SAT) and in high school classes, with attention to Honors, AP, and other rigorous courses successfully completed; high school and community activities; honors and achievements; counselor and teacher recommendations; and an essay. Freshman and sophomore **Honors Scholars** are required to maintain a GPA of at least 3.0. Students admitted to Senior Honors are also eligible for Honors College Scholarships. Juniors and seniors are required to maintain a GPA of at least 3.25. Honors College Scholarships are in the amount of \$150 per semester for up to \$1,200 for students completing both General and Senior Honors.
- (4) **Travel Awards:** Special travel awards are available for the Study Abroad Programs sponsored by the University's College of International and Continuing Education. Students should apply to the Dean of the Honors College in late January.

The University Forum

The University Forum is a special series of lectures and programs open to all students, faculty, and townspeople. It is sponsored each fall and spring by the University Honors College and features nationally-known speakers in a variety of fields. Students who attend the forum lectures and designated films, concerts, plays, and other activities may receive an hour of credit on a pass/fail basis by enrolling in HON 321 or 322. This course may be repeated by any USM student for up to 8 hours of credit.

The University of Southern Mississippi–Gulf Coast

James O. Williams, Vice President
730 East Beach Boulevard
Long Beach, MS 39560-2699
(228) 865-4500

The University of Southern Mississippi–Gulf Coast serves students at four locations: the **Gulf Park Campus** in Long Beach, the **Keesler Center** on Keesler Air Force Base, **Stennis Space Center** in Bay St. Louis, and **USM Jackson County Center** located on the Jackson County Campus of the Mississippi Gulf Coast Community College in Gautier. USM Gulf Coast is part of a cooperative plan to provide comprehensive higher education on the Mississippi Gulf Coast. The articulation programs with the area community colleges assure a smooth transition for students who transfer from the community colleges' freshman-sophomore programs to the upper level degree programs at USM Gulf Coast. Refer to the USM Gulf Coast academic publication for specific information concerning the Gulf Coast courses and programs.

Degree Programs

USM Gulf Coast provides a flexible delivery system designed to meet the educational needs of Coast citizens. Consequently, new courses and programs are added as student demand warrants and resources permit. A sufficient number of courses are now available so that USM Gulf Coast students may earn their entire baccalaureate degree(s) with majors and emphases in the following areas:

Accounting	Library and Information Science
American Studies	Management
Business Administration	Management Information Systems
Computer Engineering Technology	Marine Biology
Computer Science	Mathematics
Criminal Justice	Nursing
Electronics Engineering Technology	Paralegal Studies
Elementary Education	Political Science
English	Psychology
History	Secondary Education
Hospitality Management	Special Education
Industrial Engineering Technology	Technical and Occupational Education

Admission

Each new student seeking admission to USM Gulf Coast is required to file with the Office of Student Services an application for admission. He or she should also request the authorities at each institution attended to send an official transcript of his or her record to the Office of Student Services. Students who are applying with fewer than the twenty-four (24) hour transfer requirement must also have sent an official high school transcript showing the date of graduation. The applicant must also provide an official report of the ACT/SAT scores directly from the testing service. In order to determine an admission status and facilitate advisement, students must furnish transcripts and complete applications for admission prior to registration. Transcripts and the completed applications should be sent to the Office of Student Services, USM Gulf Coast, 730 East Beach Boulevard, Long Beach, MS 39560-2699. In all other respects, admission requirements are identical with those outlined elsewhere in this **Bulletin**.

Course Load

Students are permitted to carry a total of twelve (12) to nineteen (19) semester hours. Nine (9) to fourteen (14) hours is considered a full load during the summer session.
