ON-LINE AND EXECUTIVE MASTER'S DEGREE IN LOGISTICS, TRADE AND TRANSPORTATION - STUDENT ORIENTATION

The Center for Logistics, Trade and Transportation (CLTT) at The University of Southern Mississippi (Southern Miss) recently held an orientation session for new students admitted to the on-line and executive Master of Science in Logistics, Training and Transportation (MS LTT). The MS LTT program has been growing very rapidly and seen record enrollment this year. During the orientation, Dr. Tulio Sulbaran - CLTT Director, spoke to students attending the session both virtually, using online technologies, and in person. Dr. Sulbaran expressed his excitement and indicated that “The MS LTT at Southern Miss is an excellent value proposition that provides competitive advantages to working professionals."

TWO UNIVERSITIES UNITE EXPERTISE TO DIRECTLY BENEFIT MISSISSIPPI EDUCATION, BUSINESS AND INDUSTRY

The University of Southern Mississippi (Southern Miss) - Center for Logistics, Trade and Transportation (CLTT) and the Mississippi State University - Research Curriculum Unit (RCU) are partnering to develop an “Intermodal Transportation Curriculum for Secondary Education” as a pilot study. Dr. Tulio Sulbaran - CLTT Director says “This is a fascinating project that will bring important knowledge into the classroom for our children’s bright minds for them to engage and benefit from this important sector for Mississippi.” Dr. Sulbaran further says that “According to the Bureau of Labor Statistics, the number of jobs in this sector is expected to grow faster than average and therefore it is important for our schools to share this knowledge to give additional job opportunities to our children.”
