3D Printing may transform MANY logistics

A soldier at a forward operating area needs the player form to indicate an award as a Brevet Soldier. He goes online, opens a form, fills in the blanks and hits "print." Easy.

Another soldier at a forward operating base needs a part for a weapon. He goes online, opens the computer-aided design, 3D CAD, hits the trigger assembly and hits "print."

Ranking Mississippi's Economy: The Grades Are In

Sometimes it seems like Mississippi just can’t get ahead. The latest report from Moody’s Analytics received some mixed results. The report, "Mississippi Economy: The Grades Are In," receives a grade of C for manufacturing, but A for education. The report provides valuable insights for policymakers and businesses.
