TRANSPORTATION LOGISTICS AND THE ECONOMIC DEVELOPER

Commentary: Logistics Misconstrued
For the past few years, U.S. military logistician professionals have been forefronting some key non-military logistician-related topics that are gaining momentum and are continuing to push for their inclusion in the national agenda. However, many of these logistician professionals are not being heard as a consistent voice on key issues related to logistics, transportation and national security. This is due to a number of reasons including a lack of awareness of the importance of logistics and transportation professionals, and the perceived lack of relevance of logistics and transportation to national security issues.

SOUTHERN MISS HOSTS INFORMATION SESSION AT CAMP SHELBY

The Southern Miss Center for Logistics, Trade and Transportation (CLTT) is hosting an information session on the importance of logistics and transportation to national security at Camp Shelby on May 19th. The session is open to all interested parties and will provide an opportunity for participants to learn more about the critical role that logistics and transportation play in national security and defense.

NAVAL AIR SYSTEMS COMMAND INTERNATIONAL TRANSPORTATION COMPLIANCE AND HAZARDOUS MATERIAL

The Naval Air Systems Command (NAVAIR) has announced the implementation of new regulations for the transportation of hazardous materials. The new regulations are designed to improve safety and efficiency in the transportation of hazardous materials, and will be effective immediately. NAVAIR is working closely with industry partners to ensure compliance with the new regulations.

CENTER FOR LOGISTICS, TRADE, AND TRANSPORTATION OPERATIONS MANAGER

Applications are now being accepted for the Center for Logistics, Trade and Transportation (CLTT) Operations Manager position. The CLTT Operations Manager will be responsible for managing the center's operations and ensuring that its mission is achieved. The position requires a strong background in logistics, transportation, and management, and offers a unique opportunity to make a significant contribution to the study and advancement of logistics and transportation.
