

## **How to use the technology in building 1029**

*For use of the projector in the classroom in building 1029, use the VGA cable that is located on the left corner of the room.*

1. Plug VGA cable into the VGA connector on your laptop.
2. You may have to hold the function button then press another action button depending on your brand laptop (action button changes depending on the brand) otherwise image will simply appear on the projector screen.
