The Dependent Child Care Reimbursement plan is designed to allow an employee to elect to have a specified number of pre-tax dollars deducted from your pay check each pay period. These dollars are then contributed to a reimbursement account. The employee submits a receipt for a qualified dependent care expense and is reimbursed from that account. The Internal Revenue Service has set the maximum allowable contributions for a dependent care reimbursement plan at $5,000 per family for a married couple filing jointly or a single parent filing head of household. Any monies not recovered are retained by the state. Once enrolled, changes in the election can only be made at the beginning of each plan year. The plan is administered through Southern Administrators and Benefit Consultants, Inc.
