Year’s surprises included the recognition that the university is “ours”…faculty outlast administrators. Changes in administration, positions of president and provost in particular.

It has been a privilege to serve in being Faculty Senate president. The position is unique, and more enjoyable than expected. Grateful for the opportunity to be senate president and the opportunity to work with the FS executive committee.

Last words: this is “our” place, we need to take every seat offered, we need to move our influence forward, make the most of the influence that we do have.

Recognized and thanked the seven senators rotating off of Faculty Senate for their service and challenged the new senators to be active members. Challenged the entire senate to keep their eyes and ears open and be involved when opportunities arise especially in ongoing administrative searches, as we look for a diverse pool in selection process for the new president.
