A medical home is a key component to a successful transition to adulthood. These trainings will benefit parents, advocates, educators and medical professionals. Join Mississippi Family to Family (MS F2F) and Children and Youth with Special Health Care Needs, Mississippi State Department of Health, for these no cost trainings across the state to increase your knowledge, empower you and your family, and understand what to expect from your medical home and how it can help in the transition process.

Register online or by phone.
