EXTERNAL REVIEW COMMITTEE CHARGE

One of the most important components of the academic program review process at The University of Southern Mississippi is the evaluation of the program by External Reviewer(s). The external review process is designed to evaluate the entire program and is not limited to the self-study document. The purpose of the external review is to provide the program(s) with an external perspective regarding the quality and effectiveness of the program(s). The External Reviewer(s) shall:

• examine the self study report;
• engage in additional information-seeking, as necessary;
• confirm the validity of the conclusions reached in the self-study;
• identify additional strengths and recommendations for quality enhancement, and;
• prepare a final report and a detailed summary.

I look forward to receiving the final report (to include an External Reviewers Rating Form and a Summary and Recommendation Report) by ___________. Thank you in advance for your time and support of this important process.
