Mission / Purpose
The mission of the Special Education Program in the Department of Curriculum, Instruction, and Special Education is to develop the knowledge, skills, and dispositions to enable candidates to serve as effective educational leaders in a variety of roles in the special education setting. Candidates graduating from the University of Southern Mississippi will use the power of knowledge to inform, the power to inspire, the power to transform lives and the ability to empower a community of learners.

Student Learning Outcomes/Objectives, with Any Associations and Related Measures, Targets, Findings, and Action Plans

SLO 1: Demonstrate special education content knowledge.
Special Education teacher candidates will demonstrate a special education content knowledge.

Relevant Associations:
NCATE/Council for Exceptional Children/ MDE Process Standards

Related Measures:

M 1: Praxis II: Special Education Content Knowledge
PRAXIS II: Special Education Content Knowledge, developed and administered by Educational Testing Services (ETS), is the required content knowledge standardized test for attaining Mississippi teacher licensure in K-12 Mild/Moderate Disabilities. This examination measures the candidates’ acquisition of special education content knowledge at the level required for state licensure.

Source of Evidence: Certification or licensure exam, national or state

Target:
Ninety percent (90%) of special education teacher candidates will attain Mississippi teacher licensure passing scores on the PRAXIS II: Special Education Content examination. NCATE and MDE require an 80% pass rate.

Findings (2011-2012) - Target: Met
Hattiesburg
Fall 2011
3/3 (100%) passed
Spring 2012
2/2 (100%) passed
Total
5/5 (100%) passed

Gulf Coast
Fall 2011
4/4 (100%) passed
Spring 2012
2/2 (100%) passed
Total
6/6 (100%) passed

Dual Licensure
Fall 2011
M 4: Teacher Candidate Performance Evaluation

The Teacher Candidate Performance Evaluation (TCPE) is a performance assessment of the teacher candidates' application of special education pedagogical and professional knowledge, skills, and teaching dispositions. The scoring rubric is divided into three sections, with outcomes and descriptors for rating teaching performance. Section 1 (A), *Knowledge and Skills* will be used to evaluate content knowledge, pedagogical knowledge, and integration of technology into instruction. Section 2 (B) *Professional Dispositions* and Section 3 (C) *Impact on Student Learning* will be used to evaluate the use of assessment for differentiated instruction. The TCPE is administered by university clinical supervisors in conjunction with mentor teachers and ratings are aggregated and disaggregated on the TK20 Data Collection System.

Rubric rating scores are as follows: Exemplary (4); Mastery (3); Marginal (2); and Unacceptable (1).

Source of Evidence: Performance (recital, exhibit, science project)

**Target:**

Ninety percent (90%) of teacher candidates will receive a rating of mastery (3) or exemplary(4) on the evaluation rubric for teacher candidates on the criteria of demonstrating a special education content knowledge.

**Findings (2011-2012) - Target: Met**

**Fall 2011**
Hattiesburg
2/2 (100%) scored exemplary (4)
Total
2/2 (100%) scored exemplary(4) on demonstrating special education content knowledge
(Indicator A1 TCPE)

**Fall 2011**
Gulf Coast
1/1 (100%) scored exemplary (4)
Total
1/1 (100%) scored exemplary (4) on demonstrating special education content knowledge
(Indicator A1 TCPE)

**Spring 2012**
Hattiesburg
2/2 (100%) scored exemplary (4)
Total
2/2 (100%) scored exemplary (4) on demonstrating special education content knowledge
(Indicator A1 TCPE)
SLO 2: Demonstrate pedagogical knowledge.
Special Education teacher candidates will demonstrate a special education pedagogical knowledge.

**Relevant Associations:**
NCATE/Council for Exceptional Children/ MDE Process Standards

**Related Measures:**

**M 2: Praxis II: Principles of Learning and Teaching**
Praxis II: Principles of Learning and Teaching (PLT), developed and administered by Educational Testing Services (ETS), is a standardized pedagogical examination required for special education licensure in Mississippi. The PLT measures the candidates’ abilities to apply pedagogical principles and to demonstrate professional knowledge.

Source of Evidence: Certification or licensure exam, national or state

**Target:**
Ninety-percent (90%) of the special education teacher candidates will attain Mississippi teacher licensure passing scores on PRAXIS II: Principles of Learning and Teaching. This demonstrates the candidates’ mastery of pedagogical knowledge at the level required for state licensure. NCATE and MDE require an 80% pass rate for teacher education institutions.

**Findings (2011-2012) - Target: Partially Met**

Details of Action Plans for This Cycle (by Established cycle, then alpha)

Ensure that candidates use assessments.
Ensure that candidates have the opportunity to use a variety of appropriate assessments with students in K-12 settings.

Established in Cycle: 2006-2007
Implementation Status: Finished
Priority: Medium

Responsible Person/Group: SPE Faculty, Clinical Instructors and OEFE

Establish better communication.
Establish more effective communication among faculty who teach the special education courses and clinical supervisors who supervise the teacher candidates to make sure assessments are administered and input into TK20 in a standardized format.

Established in Cycle: 2006-2007
Implementation Status: In-Progress
Priority: Medium
Implementation Description: Fall 2007
Responsible Person/Group: SPE Faculty and Office of Field Experiences

Improve inter-rater reliability for rubrics.
Improve inter-rater reliability for assessment rubrics. Because of differences in ratings from faculty and clinical supervisors on rubrics, there is a need for collaboration and training to establish better inter-rater reliability on the assessment rubrics.

Established in Cycle: 2006-2007
Implementation Status: Finished
Priority: High
Implementation Description: Fall 2007
Responsible Person/Group: Faculty, NCATE administrator, assessment specialists

Mentor and collaborate with adjunct faculty.
Mentor and collaborate with adjunct faculty to make sure that standards are mastered in the designated courses, assessments are administered, and assessment data are input into TK20.

Established in Cycle: 2006-2007
Implementation Status: Finished
Priority: High
Implementation Description: Fall 2007
Responsible Person/Group: Lead faculty in Special Education courses

Monitor new measures.
Monitor effectiveness of new assessments and measures to make sure they align across NCATE, CEC and SACS standards and outcomes.

Established in Cycle: 2006-2007
Implementation Status: In-Progress
Priority: Medium
Implementation Description: Spring 08
Responsible Person/Group: Special Education Faculty

Improve inter-rater reliability on measures
Inter-rater reliability among all faculty and for both campuses is an on-going action. Workshop sessions will provide training.

Established in Cycle: 2007-2008
Implementation Status: In-Progress
Priority: High
Implementation Description: Summer 2008
Responsible Person/Group: Office of Educational Field Experiences

Mentor and collaborate with adjunct faculty.
Special Education Lead faculty will mentor adjunct, visiting and doctoral students to ensure standards are taught and assessed in the proper courses.

Established in Cycle: 2007-2008
Implementation Status: In-Progress
Priority: High
Implementation Description: Summer 2008
Responsible Person/Group: SPE lead faculty

Develop technology workshops for cohort groups prior to student teaching
CISE faculty will collaborate with K-12 partner school faculty to develop workshops for pre-teacher candidacy students to explore cutting-edge technology to enhance special education teaching and learning.

Established in Cycle: 2010-2011
Implementation Status: In-Progress
Priority: High

Relationships (Measure | Outcome/Objective):
Measure: Teacher Candidate Performance Evaluation | Outcome/Objective: Integrate technology in instruction.
Measure: Teacher Intern Assessment Instrument | Outcome/Objective: Integrate technology in instruction.

Implementation Description: CISE faculty collaborate to develop technology professional development workshops for co-hort groups prior to student teaching. Teachers from cooperating school districts will be asked to present technology used in their schools.
Projected Completion Date: 05/31/2013
Responsible Person/Group: Kim Walker, Clinical Coordinator and CISE faculty
Emphasize using family and community resources in didactic and clinical coursework.

Students with disabilities are especially in need of resources beyond the K-12 school system to become successful in their lives. Special Education faculty have developed specific objectives, activities, and assessments in their didactic and clinical coursework to enhance the teacher candidates' knowledge and skills in using family and community resources for their students.

*Established in Cycle:* 2010-2011  
*Implementation Status:* In-Progress  
*Priority:* High

**Relationships (Measure | Outcome/Objective):**  
**Measure:** Teacher Intern Assessment Instrument | **Outcome/Objective:** Use family/community resources in lessons to enhance learning.  
**Projected Completion Date:** 05/31/2013  
**Responsible Person/Group:** Special Education clinical and didactic faculty.

**Review subtest scores of Praxis II: Special Education Content and PLT to determine areas that need to be enhanced.**

The NCATE office is now able to provide subtest scores for the Praxis II: Special Education Content Examination and Principles of Learning and Teaching. The subtest scores have been distributed to CISE for review. Special Education faculty will review the subtest areas and develop plans to enhance those areas that have the lowest scores.

*Established in Cycle:* 2011-2012  
*Implementation Status:* Planned  
*Priority:* High

**Relationships (Measure | Outcome/Objective):**  
**Measure:** Praxis II: Principles of Learning and Teaching | **Outcome/Objective:** Demonstrate pedagogical knowledge.  
**Measure:** Praxis II: Special Education Content Knowledge | **Outcome/Objective:** Demonstrate special education content knowledge.  
**Measure:** Teacher Candidate Performance Evaluation | **Outcome/Objective:** Demonstrate pedagogical knowledge. | Demonstrate special education content knowledge.  
**Projected Completion Date:** 05/31/2013

**Analysis Questions and Analysis Answers**

What specifically did your assessments show regarding proven strengths or progress you made on outcomes/objectives?

The Special Education (BS) K-12 program content knowledge licensure assessment continues to show strength as documented by a 100% pass rate on the Praxis II: Special Education Content Knowledge the 100% pass rate achievement on the state licensure special education content examination indicates a very strong program for attaining special education content knowledge. The careful alignment of special education coursework objectives to the standards of the Council for Exceptional Children (CEC) contribute to the outstanding performance on the content knowledge licensure examination. Additionally, strengths were noted in the use of assessment data to inform differentiated instruction, the integration of current technology into instruction, and using family resources to enhance instruction. Those outcomes are essential for successful special education practitioners.

What specifically did your assessments show regarding any outcomes/objectives that will require continued attention?

Because of the low number of graduates sitting for the pedagogical licensure examination from each program, the target was not met for passing the Praxis II: Principles of Learning and Teaching with one candidate not passing on the first attempt on the Hattiesburg campus and one candidate not passing on the first attempt...
from the dual licensure program. Attention will be given to the subtest scores of those two candidates to
determine the areas that require more attention. With the continued innovations in instructional technology, it
will be necessary to give ongoing attention to teaching cutting-edge technology and developing the skills for
integrating that technology into teaching and learning. Special education interventions and accommodations
are highly dependent on assistive technology and current evidence-based instruction. Attention is given in
monthly special education faculty meetings to meeting the needs of students based on ongoing formative
assessments.

**Annual Report Section Responses**

**Program Summary**

The B.S. program in special education is a strong teacher licensure program that provides highly-desired
graduates for positions as special education teachers to K-12 schools to meet the needs of students with
disabilities. The dual licensure program that is available to preservice K-6 elementary education and special
education majors provides graduates who are licensed in both elementary education (K-6) and special
education. This program produces graduates who are highly recruited for positions in K-6 schools. Also offered
is a K-12 special education licensure program, with online course options, which enables special education
teacher assistants who are employed in K-12 schools to complete special education licensure coursework. The
online options also provide an opportunity for students who cannot attend classes on the two campuses to
attain a special education degree and teacher licensure.

Through Project REACH, the Mississippi Personnel Preparation Development Grant, the Special Education Pre-
Service Improvement Grant, the Mississippi Deaf-Blind Project, and the USM Autism Demonstration Project and
Project LINK, special education faculty have participated in collaborative work with P-12 school districts, the
Mississippi Council on Developmental Disabilities, the Mississippi Department of Education, and the
Department of Psychology within the College of Education and Psychology. Furthermore, the Center for
Professional Development and Outreach is engaged with a nationally-affiliated, disability-rights advocacy
organization, the ARC of Mississippi. CISE faculty are active researchers, having produced 40 publications in
peer-reviewed journals and having received over four million dollars in external funding in 2011-2012.
Additionally, CISE faculty serve as consultants in K-12 schools, serve on state and national advisory committees
and serve as officers for state, regional and national professional organizations.

**Continuous Improvement Initiatives**

As a result of innovations in CISE special education programs, stronger partnerships have been developed with
the schools in which clinical experiences are conducted. Clinical sites are monitored for effectiveness for field
experiences on an ongoing basis. CISE clinical and didactic faculty work closely with mentor teachers in the
schools to provide exemplary field experiences in both inclusion and self-contained special education settings.
Additional field experiences have been added to the introductory cohort, and performance assessments
aligned to Council for Exceptional Children (CEC) standards for each cohort have been revised to better
evaluate knowledge, skills, and dispositions prior to teacher candidacy. Didactic and clinical faculty meet often
as a team to discuss the knowledge, skills and dispositions of the candidates as they progress through the
cohort groups. Particular attention is given to dispositions during the field experiences so that candidates will
be better prepared for teacher candidacy. Formative assessments administered throughout the program are
reviewed for individual candidates who are provided guidance and instruction throughout the program to
ensure that candidates attain the requisite knowledge, skills, and dispositions to be effective special education
teachers.

CISE special education faculty meet online once a month to review both student and programmatic outcomes.
As a result of the monthly meetings and ongoing continuous improvement initiatives, online courses have been
monitored and evaluated to ensure that they have equity with face-to-to face courses; innovative technology
to enhance course delivery has been researched by graduate assistants and embedded in online classes; CEC
outcomes have been monitored for the new program plans, with adjustments being made when indicated by
assessment data; family members of a student with disabilities have been included in coursework to bring
family perspectives; and the number of online courses has been increased.
Closing the Loop

Ongoing monitoring and enhancing of innovative technology continues to be a major effort of CISE special education faculty. Online special education courses incorporate cutting-edge techniques for electronic delivery of didactic and clinical coursework with continuous monitoring and evaluation to ensure their effectiveness. CISE faculty have collaborated with K-12 mentor teachers to assist special education teacher candidates in integrating technology that is currently being used in the schools. A new emphasis has been placed on using family and community resources for teaching and learning with this objective being added to both didactic and clinical courses. Family members of students with disabilities have been included in the program to help teacher candidates understand the family perspective. Co-teaching with special education and regular education activities have been modeled in university classes and implemented in clinical experiences.
