Traffic and Parking Regulations
2018-19

Pursuant to the provisions of Chapter 105, Section 37-105-1 and Section 37-105-3, Mississippi Code of 1972, the Board of Trustees of State Institutions of Higher Learning hereby enacts the rules and regulations for vehicles, motorcycles and bicycles on the grounds of The University of Southern Mississippi campuses.

1. GENERAL INFORMATION
   1.1. The University of Southern Mississippi reserves the right to regulate the use of all vehicles on the Hattiesburg and Gulf Park campuses and at the Gulf Coast Research Laboratory (GCRL), including the Halstead Road and Cedar Point locations, and to forbid the use of a vehicle by any person not complying with the regulations on its campuses or teaching/research sites under applicable Mississippi law and policies of the Mississippi State Institutions of Higher Learning. The University of Southern Mississippi, Department of Parking Management (DPM) is responsible for implementing and enforcing the parking regulations. Except where indicated, all regulations contained herein are enforced 24 hours a day, seven days a week. (Miss. Code Ann. § 37-105-3).
   1.2. The University utilizes a license plate recognition (LPR) system on all University-owned and controlled properties. Physical permits are no longer issued. License plates are used to verify that a vehicle can park at a particular location on University property. Faculty, staff and students are allowed up to four vehicles registered to a virtual permit. However, only one vehicle is allowed to park on a University property at any given time. If a permit holder uses a substitute vehicle not registered on the permit, one of the vehicles on the permit must be removed to allow the substitution of the additional vehicle on the parking permit.
   1.3. Virtual Parking Permit (parking permit number) is an electronic authorization for an individual to park a vehicle on a University campus or teaching/research site in a specified parking zone.
   1.4. E-citation (citation) is an electronic citation via email (with the exception of non-registered vehicles). Non-registered vehicles will receive a citation on the windshield indicating a violation has been issued.
   1.5. Parking registration and the purchase of a virtual parking permit is an individual responsibility. Parking permit numbers are issued to individuals, and ownership is nontransferable. By purchasing a permit number, the permit holder agrees to abide by these rules and regulations.
   1.6. The University assumes no liability for damages, including flood damage or loss to any vehicle or vehicle contents while parked or in operation on any University property. The University does not guarantee a parking space, nor does registering for a permit guarantee a parking space. Campus parking spaces are zoned, and the permit type determines eligibility to park in a particular parking zone.
   1.7. Vehicles parked on University property with intent to utilize the public transit system (Hub City Transit) are subject to the rules and regulations herein.

2. VISITORS
