iTech is pleased to spotlight Denzel Stewman, iTech’s Help Desk Technician who can be seen at the Help Desk in Cook Library, room 103.

His job responsibilities are to provide diagnostic customer support for desktop and personal computer related problems, determine the source of the problem and either resolve the problem personally or coordinate the resolution with available support staff members. He has been a Help Desk Technician since September 2015.

“Denzel has proven to be an exceptional technician here at the Help Desk with a lot motivation and dedication. He continues to go above and beyond to assist the faculty, staff, students, and guests to our campus community. I am very proud to have him on my Team!”
- Brandi Soule, iTech Customer Service Manager

THANK YOU, Denzel, for your hard work! We appreciate you!

EMPLOYEE SPOTLIGHT

During the month of February, iTech employees at Southern Miss are encouraged to participate in National Wear Red Day®. This month, it was on Friday, February 5. Go Red for Women encourages awareness of the issue of women with heart disease and also promotes action to save more lives.

Heart disease is the number one killer of women in the United States, claiming more lives than all forms of cancer combined. For more than 10 years, the American Heart Association has sponsored National Wear Red Day® to raise awareness in the fight against heart disease in women.

Here’s what it means to Go Red:

G: GET YOUR NUMBERS
Ask your doctor to check your blood pressure and cholesterol.

O: OWN YOUR LIFESTYLE
Stop smoking, lose weight, exercise, and eat healthy. It’s up to you. No one can do it for you.

R: REALIZE YOUR RISK
We think it won’t happen to us, but heart disease kills one of three women.

E: EDUCATE YOUR FAMILY
Make healthy food choices for you and your family. Teach your kids the importance of staying active.

D: DON’T BE SILENT
Tell every woman you know that heart disease is our No. 1 killer. Raise your voice here at GoRedForWomen.org.
iTech at Southern Miss is participating in National Data Privacy Month, which is held throughout the month of February. Data Privacy Month is an annual effort to empower the university community to protect their privacy and control their digital footprint.

Tune into iTech’s weekly tips to students, faculty and staff via the iTech Twitter page. This effort will educate the university community on how you can protect your data, your privacy, and help others learn to do the same. Take a look at these videos on National Data Privacy Month [here].

HAPPY MARDI GRAS!

This year, in honor of Fat Tuesday, iTech held a “Sweet & Savory” Food contest. Good times and good food were had by all!

Laissez les bons temps rouler!
