
Resetting your *FacultyEnlight* Password

How to Use Password Reset

1. On the *FacultyEnlight* login page, simply select the link “Forgot username or password?”

The screenshot shows the FacultyEnlight login page. At the top, there is a navigation bar with 'Search', 'Adopt', 'Discover', and 'Learn'. Below this is a 'Create Account' section. On the right side of the login form, there are two input fields: 'Username or e-mail address *' and 'Password *'. Below these fields is a link 'Forgot username or password?' with a red arrow pointing to it. There is also a 'Remember me' checkbox and two buttons: 'Sign In' and 'New? Create Account'. A note at the bottom indicates '* Indicates Required Field'.

2. Then enter either your Username or your Email Address and hit “E-mail new password.” You will see confirmation that an email has been sent, and the password reset email will automatically be emailed to the email address on your account. If you don’t receive this email, please check your spam folder.

This screenshot shows the same login page as above, but with the 'Username or e-mail address *' field filled with the text 'flehar'. The 'E-mail new password' button is highlighted in blue. The '* Indicates Required Field' note is still present at the bottom.

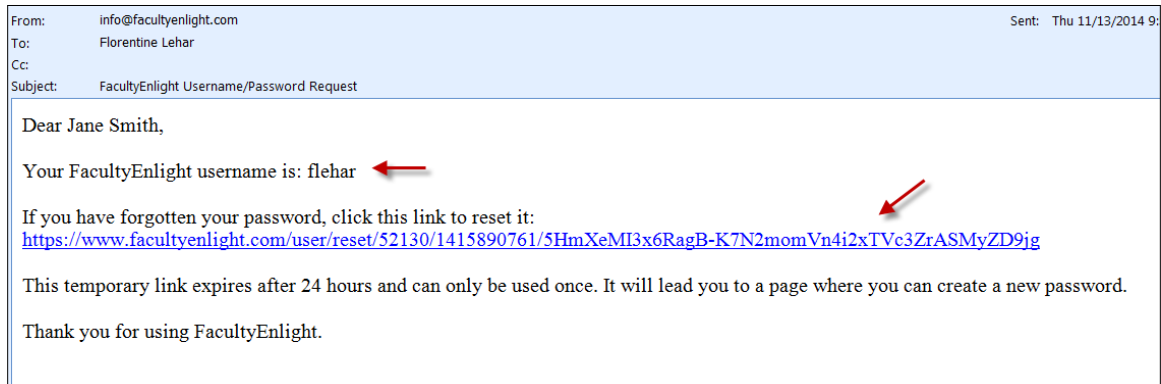

This screenshot shows the login page after the password reset request. A green confirmation message at the top reads: 'Further instructions have been sent to your e-mail address.' Below this, the 'Create Account' section is visible, with the 'Username *' field now highlighted.

3. The email will contain your username. It will also contain a link in case you forgot your password. This link is only valid for 24 hours and can only be clicked once. Click this link.

4. The link will validate your email address, but you are not logged in yet and your password has not been changed. Click "Log In" to edit your password.

5. This will take you to your Account Page and will let you know that you just used a one-time link. You are now logged in, but you must still change your password.

Resetting your *FacultyEnlight* Password

- You must enter your new password, then confirm this password and hit "Submit." Passwords are case-sensitive. (It is advisable to write down your password and keep it in a safe place, in case you forget it.)
