Tenure-Track Faculty Position in Computer Engineering

The School of Computing at the University of Southern Mississippi is seeking applications for a tenure-track, assistant professor position in Computer Engineering with a start date of Fall 2017 or later. The position will be based at the university's main campus in Hattiesburg. Qualifications and responsibilities: Candidates must have a Ph.D. in Computer Engineering or a closely related field, and be able to demonstrate the ability to develop a successful research program and participate effectively in the development and teaching of Computer Engineering curriculum.

Applicants with a wide range of interests in Computer Engineering are encouraged to apply while areas of expertise related to Internet of Things, rapid prototyping, embedded systems, system on chip, cloud computing, and cybersecurity will be given priority consideration.

Applications must include: resume; cover letter; brief statement of teaching philosophy; description of research interests; and at least three references. Positions will remain open until filled.
