Join our bachelor’s degree program in

INDUSTRIAL ENGINEERING TECHNOLOGY

Industrial Engineering Technologists (IETs) do things efficiently!

What We Offer
Offering relevant, competitive and up-to-date courses in demand
- Industrial automation
- Facilities planning and layout
- Industrial quality control
- Motion and time study
- Production planning and control
- Simulation and modeling
- Operations and logistics
- Lean production systems
- Engineering economics
- Global supply chain
- Project management

What IETs Do
Make improvements on systems and processes
- Discover how to do things better
- Improve productivity and quality
- Optimize resource allocations
- Analyze and improve processes
- View total systems approach
- Make work safer, faster and easier
- Improve efficiency and productivity
- Ensure better customer service
- Reduce cost of operation
- Distribute products worldwide
- Integrate man with machine
- Deal with workmen to CEO

This program is offered online and is available on both the Hattiesburg and Gulf Park campuses.
