PROJECT LEAD, PROJECT MANAGEMENT DEVELOPMENT PROGRAM (PMDP)  
VARIOUS LOCATIONS ACROSS THE UNITED STATES

Overview

The Project Management Development Program (PMDP) provides practical field experience as well as structured training for qualified candidates with the goal of providing Schindler with a solid bench of Project Managers, a key role for Schindler. This program provides the participants with hands-on, practical field experience in order to better understand the products Schindler offers, as well as the support provided to a wide variety of customers.

The Project Lead participates in an on-the-job Apprenticeship program, which involves assisting with the installation, maintenance and repair of passenger and freight elevators, escalators, dumbwaiters and moving sidewalks under the direction of a Mechanic. Once the Apprenticeship program is successfully completed, participants take on full Project Manager roles, which are available in various locations across the United States, therefore, participants need to be mobile and open to various regions of the country.

In addition to hands-on experience, the PMDP offers structured training and curriculum with modules focusing on safety, product orientation, estimating, and project management systems and software.

Responsibilities

Specific Apprentice duties include:

- Unloading of materials
- Assisting in assembly of hoistway equipment, car frames, cab entrances, operating equipment, traveling cables an electric and mechanical components
- Assist in setting of escalator trusses, assembling balustrades, steps and handrails
- Assist in start up of elevators and escalators
- Temporarily running elevators for other trades
- Under Project Manager’s direction, interface with salesforce, customers and consultants
- Develop an understanding of the Project Management process from start to finish
- Develop an understanding of the financial impacts for major projects including field performance by hours and dollars, CQR’s and change notices
Basic Qualifications

- Bachelor’s degree in Engineering, Construction Management, Business, or other relevant field of study
- Able to travel a minimum of 15%
- Open to relocation

Additional Qualifications

- Graduate degree a plus
