Overview
This class is designed to permit students to obtain knowledge in current assessment procedures in speech-language pathology. The process of collecting valid and reliable information, integrating it, interpreting it to make a decision about function of communication will be described. Administration, scoring, interpretation of information and reporting of evaluation results will be discussed.

Instructional objectives (KASA Standards)
Students in this class will be able to:

Standard V-B

Complete a program of study that included experiences sufficient in breadth and depth to achieve the following skills outcomes:

1. Evaluation
a. Conduct screening and prevention procedures (including prevention activities).

b. Collect case history information and integrate information from clients/patients, family, caregivers, teachers, and relevant others, including other professionals.

c. Select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures.

d. Adapt evaluation procedures to meet client/patient needs.

e. Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention.

f. Complete administrative and reporting functions necessary to support evaluation.

g. Refer clients/patients for appropriate services

Standard IV-D

Demonstrate current knowledge of the principles and methods of prevention, assessment, and intervention for people with communication and swallowing disorders, including consideration of anatomical/physiological, psychological, developmental, and linguistic and cultural correlates.

Standard IV-E

Demonstrate knowledge of standards of ethical conduct.

Implementation: The applicant must have demonstrated knowledge of the principles and rules of the current ASHA Code of Ethics.

Instructional outcomes assessment

Meeting the instructional objectives of the class will be determined as follows:

- Each student will be examined on each instructional objective
- Students are expected to participate in classroom discussions and to ask pertinent questions.

Class Attendance Policy: Students are expected to attend class on time and on a regular basis. You are expected to be active, professional participants in the teaching and learning process. The instructor retains the right to assign negative or positive values for class participation that will be applied to the student’s final average.
**Grading:** The grades earned on 4 exams and 1 language sample analysis (each worth 100 points), will be averaged to determine the student’s final grade. There will be no “make-up” exams. In the case of extenuating circumstances, the instructor reserves the right to permit a student to take an exam at a later date. Students will be required to complete one in class group project/presentation. Three points will be added to final exam grade for completion and presentation of the project and attendance in class for all presentations. If a student is absent for a presentation, no points will be added.
